Ms. Wakem summarized the key indicators for October. Admissions were strong for the month, 3.5% above budget. AADC continues to be high at 607. Length of stay sits at 6.65 days. She noted that the increased length of stay can be attributed to the staffing shortage challenges throughout the community. The post-acute care facilities are short staffed also. UMC now has a new Director of Care Management who is dedicated to decreasing LOS. Acuity is high.

Overall hospital CMI was 1.93 and Medicare CMI was 1.95.

Inpatient surgeries were almost 16% above budget.

Outpatient surgeries were 6% above budget.

ER visits are 12% above budget.

The ED to admit conversion rate was 19%.

Quick cares were up 10% above budget; Primary cares were also up 4%

Trending stats compare current month to same month in FY19. Total admissions were 1,803, 7 more than FY19. ER visits were 9,007 compared to FY19 which was 9,800.

Quick cares and primary cares were down compared to FY2019.

Payor mix trended on inpatient is consistent with the 12-month average, except for self-pay, which is up 1.4%. There was a slight increase on self-pay payors. In the ED, Medicaid is up almost 2%. Inpatient surgeries showed commercial up 2% and Medicare was down 2%. Outpatient surgeries showed Medicaid down 1.8% and self-pay is up 1.5%.

The summary income statement for October shows net patient revenue is up approximately \$12 million. Other revenue is below budget \$2.8 million, primarily due to the decrease in 340B program contract pharmacy revenue and other challenges in the program.

Operating expenses were over budget \$5.2 million.

Income from ops adding depreciation and amortization landed at \$1.8 million in positive earnings. The budgeted loss was approximately \$2 million.

The year to date income statement showed net patient revenue over budget and other revenue was under budget \$7.2 million. Total net revenue was up 16.4%. Operating expenses were up and total earnings, adding back depreciation and amortization was \$8.4 million. The income statement trended was briefly reviewed.

Salary, wages and benefits are over budget, primarily due to volume. The overage in salaries was driven by the nursing incentives due to nursing shortage. Opportunities to improve lie with contract labor and overtime. The discussion continued regarding managing patient volumes vs staffing.

Ms. Wakem informed the Committee that NSI recruited a total of 23 RNs to date and 11 nurses were hired into the resource float pool. She added that West Hills Behavioral Health will be closing due to staffing shortages.

Other expenses were below budget \$1.3 million. Supplies were down \$500K. An informational slide on COVID expenses was shown.

Key financial indicators shows profitability and labor statistics in the red. Liquidity shows day's cash on hand is in the green, at approximately 4.5 months. Candidate for bill ran below 5 days. Cash collection goal was in the green.

The capital plans for FY20, FY21 and FY22 were reviewed.

The Committee offered suggestions regarding the level of project detail that should be included in the capital plan process.

Ms. Wakem provided a review of the cash flow statement for October, which highlighted the cash received from patients and payors. A significant amount of Federal Supplemental payments were still outstanding. UMC bonds will be completely paid in 2024.

Prime Contractor hereby indemnifies and shall defend and hold harmless OWNER, its officers, employees, agents and, if applicable, its construction manager, its officers, and employees, respectively, from and against all claims, losses, costs, damages, and expenses, including attorney's fees, incurred by OWNER and its construction manager, respectively, as a result of or in connection with any claims or actions based upon infringement or alleged infringement of any patent and arising out of the use of the equipment or materials furnished under the contract by Prime Contractor, or out of the processes or actions employed by, or on behalf

of Prime Contractor in connection with the performance of the contract. Prime Contractor shall have the right, in order to avoid such claims or actions, to substitute at its expense non infringing equipment, materials, or processes, or to modify such infringing equipment, materials and processes so they become non infringing, or obtain the necessary licenses to use the infringing equipment, material or processes, provided that such substituted and modified equipment, materials and processes shall meet all the requirements and be subject to all the provisions of this Contract.

2.2 SUBSTITUTIONS ("OR EQUAL")

A. Policy

- 1 Prior to proposing any substitute material, product, or service, Prime Contractor shall satisfy itself that the material, product, or service proposed is, in fact, equal to that specified. Prime Contractor may only request a substitution if a material or product will fit into the space allocated, affords comparable ease of operations, maintenance and service, that the appearance, and longevity is equal to or better than the material or product specified; or that the substitution of such material, product, or service by reason of cost savings, reduced construction time, or similar demonstrable benefit will be in OWNER'S interest.
- 2 The burden of proof of equality of a proposed substitution for a specified material, product, or service shall be upon Prime Contractor. Prime Contractor shall support its request with sufficient test data and other means to permit OWNER to make a fair and equitable decision on the merits of the proposal. Prime Contractor shall submit drawings, samples, data and certificates for proposed substitute materials. Any material, product, or service by a manufacturer other than those specified or of brand name or model number or of generic species other than those specified will be considered a substitution. OWNER will be the sole judge of whether or not the substitution is equal in quality, utility and economy to that specified.
- 3 Approval of a substitution shall not relieve Prime Contractor from responsibility for compliance with all requirements of the Contract. Prime Contractor shall bear the expense for any changes in other parts of the work caused by any substitutions.
- 4 Materials, products or service proposed as substitutions for specified items shall be supported by certification of their approval for use by any or all governmental agencies having jurisdiction over use of the specific material, product or service.
- 5 Substitutions will not be permitted in those instances where the product is intended to accommodate artistic design, specific function or economy of maintenance.

B. Procedure

Should Prime Contractor wish to use any material, product, or service other than those specified by brand or trade name, it shall, within **10 calendar days** after award of the contract, submit to the Architect or Engineer, a written request for substitution accompanied by all data necessary for the Architect or Engineer to determine whether the requested substitution is equal to the specified material, product, or service. If Prime Contractor fails to submit written requests within **10 calendar days** after the award of the contract, no substitutions will be allowed. The submission of a request to substitute a material, product, or service gives rise to no obligation on the part of OWNER to accept such substitute, or on the part of the Architect or Engineer to determine such substitute to be the equal of that specified.

The Architect or Engineer will have a reasonable amount of time to review requests for substitution and make a recommendation to OWNER. Should the substitute be acceptable to OWNER, an authorization will be written allowing the provision of the substitute material, product, or service. No substitution will be allowed which will increase the Contract amount.

All aggregates must be fully disclosed, and the amount entered on the required certificate of insurance. Prime Contractor's insurer must notify OWNER of any erosion of the aggregate limits. Coverage shall be written on forms to include Fire, Extended Coverage, and Special Form including theft. Prime Contractor is responsible for the deductible for any claim made against the policy.

- L. If Prime Contractor fails to maintain any of the insurance coverage required herein, then OWNER will have the option to declare Prime Contractor in breach, or may purchase replacement insurance or pay the premiums that are due on existing policies in order that the required coverage may be maintained. Prime Contractor is responsible for any expenses paid by OWNER to maintain such insurance and OWNER may collect the same from Prime Contractor or deduct the amount paid from any sums due Prime Contractor under the contract.
- M. The insurance requirements specified herein do not relieve Prime Contractor of its responsibility or limit the amount of their liability to OWNER or other persons and Prime Contractor is encouraged to purchase such additional insurance, as it deems necessary.
- N. Prime Contractor is responsible for and must remedy all damage or loss to any property, including property of OWNER, caused in whole or in part by Prime Contractor, any subcontractor or anyone employed, directed or supervised by Prime Contractor. Prime Contractor is responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the work.

Prime Contractor shall indemnify, defend and hold harmless OWNER and others specified from any attorney's fees or other costs of defense, even if the allegations of the claim are groundless, false or fraudulent.
- Q. Prime Contractor agrees that its officers, employees, subcontractors at every tier and suppliers shall perform all work in accordance with any and all current and adopted local, state, and federal building, demolition, and fire codes as applicable to jurisdiction and shall be held liable for any actions, damages, or costs caused by or arising from non-conformance with this requirement.
- R. Any conflict between adopted codes and standards shall be resolved by using the more stringent requirement unless specifically directed otherwise by the applicable governments entity

EXHIBIT F - EXAMPLE
Infection Control Risk Assessment for Construction
(ICRA)

Site:
Date of evaluation:

Step One:

Using the following table, identify the type of construction activity:

TYPE A	Inspection and Non-Invasive Activities. Includes, but is not limited to: ▪ removal of ceiling tiles for visual inspection, limited to 1 tile per 50 square feet ▪ painting (but not sanding) ▪ wall covering, electrical trim work, minor plumbing, and activities which do not generate dust or require cutting of walls or access to ceilings other than for visual inspection.
TYPE B	Small scale, short duration activities which create minimal dust Includes, but is not limited to: ▪ installation of telephone and computer cabling ▪ access to chase spaces ▪ cutting of walls or ceiling where dust migration can be controlled.
TYPE C	Work that generates a moderate to high level of dust or requires demolition or removal of any fixed building components or assemblies Includes, but is not limited to: ▪ sanding of walls for painting or wall covering ▪ removal of floor coverings, ceiling tiles and casework ▪ new wall construction ▪ minor duct work or electrical work above ceilings ▪ major cabling activities ▪ any activity which cannot be completed within a single work shift.
TYPE D	Major demolition and construction projects Includes, but is not limited to: ▪ activities which require consecutive work shifts ▪ requires heavy demolition or removal of a complete cabling system ▪ new construction.

Step Two:

Using the following table, identify the patient risk groups that will be affected. If more than one risk group will be affected, select the higher risk group:

Low Risk	Medium Risk	High Risk	Highest Risk
- Office areas - Unoccupied Space	- Cardiology - Echocardiography - Endoscopy - Nuclear Medicine - Physical Therapy - Radiology/MRI - Respiratory Therapy	- CCU - Emergency Room - Labor & Delivery - Laboratories (specimen) - Newborn Nursery - Outpatient Surgery - Pediatrics - Pharmacy - Post Anesthesia Care Unit - Surgical Units - Maternity	- Any area caring for immunocompromised patients - Cardiac Cath Lab - Central Sterile Supply - Intensive Care Units - Medical Unit - Negative pressure isolation rooms - Oncology - Operating rooms, including C-section rooms

Step Three:

Match the patient risk group (low, medium, high, highest) with the planned project type (A, B, C, D) on the following matrix, to find the level of infection control activities which are required. The color-coded precautions are delineated on the next page.

i. Construction Activity/Infection Control Matrix

Construction Project Type

Patient Risk Level	TYPE A	TYPE B	TYPE C	TYPE D
Low Risk Group	I	II	II	III/IV
Medium Risk Group	I	II	III	IV
High Risk Group	I	II	III/IV	IV
Highest Risk Group	II	III/IV	III/IV	IV

Note: Infection Control approval will be required when the Construction Activity and Risk Level indicate that Class IV Type C control procedures are necessary.

Infection Control Precautions

During Construction Project

Upon Completion of Project

CLASS I	Execute work by methods to minimize raising dust from construction operations. Immediately replace a ceiling tile displaced for visual inspection	
CLASS II	1. Provide active means to prevent airborne dust from dispersing into atmosphere. 2. Water-mist work surfaces to control dust while cutting. 3. Seal unused doors with duct tape. 4. Block off and seal air vents. 5. Place dust mat at entrance and exit of work area. 6. Remove or isolate HVAC system in areas where work is being performed.	1. Wipe work surfaces with disinfectant. 2. Contain construction waste before transport in tightly covered containers. 3. Wet mop and/or vacuum with HEPA filtered vacuum before leaving work area. 4. Remove isolation of HVAC system in areas where work is being performed.
CLASS III	1. Remove or Isolate HVAC system in area where work is being done to prevent contamination of duct system. 2. Complete all critical barriers, i.e. sheetrock, plywood, plastic, to seal area from non-work area or implement control cube method (cart with plastic covering and sealed connection to work site with HEPA vacuum for vacuuming prior to exit) before construction begins. 3. Maintain negative air pressure within work site, utilizing HEPA equipped air filtration units. 4. Contain construction waste before transport in tightly covered containers. 5. Cover transport receptacles or carts. Tape covering unless solid lid.	1. Do not remove barriers from work area until completed project is inspected by the owner's Safety Department and Infection Control Department and thoroughly cleaned by the owner's Environmental Services Dept. 2. Remove barrier materials carefully to minimize spreading of dirt and debris associated with construction. 3. Vacuum work area with HEPA filtered vacuums. 4. Wet mop area with disinfectant. 5. Remove isolation of HVAC system in areas where work is being performed.
CLASS IV	1. Isolate HVAC system in area where work is being done to prevent contamination of duct system. 2. Complete all critical barriers, i.e. sheetrock, plywood, plastic, to seal area from non-work area, or implement control cube method (cart with plastic covering and sealed connection to work site with HEPA vacuum for vacuuming prior to exit) before construction begins. 3. Maintain negative air pressure within work site, utilizing HEPA equipped air filtration units. 4. Seal holes, pipes, conduits, and punctures appropriately. 5. Construct anteroom and require all personnel to pass through this room so they can be vacuumed using a HEPA vacuum cleaner before leaving work site, or they can wear cloth or paper coveralls that are removed each time they leave the work site. 6. All personnel entering work site are required to wear shoe covers. Shoe covers must be changed each time the worker exits the work area. 7. Do not remove barriers from work area until completed project is inspected by the owner's Safety Department and Infection Control Department and thoroughly cleaned by the owner's Environmental Services Department.	1. Remove barrier material carefully to minimize spreading of dirt and debris associated with construction. 2. Contain construction waste before transport in tightly covered containers. 3. Cover transport receptacles or carts. Tape covering unless solid lid 4. Vacuum work area with HEPA filtered vacuums. 5. Wet mop area with disinfectant. 6. Remove isolation of HVAC system in areas where work is being performed.

Step Four: Identify the areas surrounding the project area, assessing potential impact.

Unit Below	Unit Above	North	South	East	West
Risk Group	Risk Group	Risk Group	Risk Group	Risk Group	Risk Group

Step Five: Identify specific site of activity, e.g. Patient room, medication room, etc.

Step Six: Identify issues related to ventilation, plumbing, electrical – in terms of the possible/probable occurrences of outages:

Step Seven: Identify containment measures, using prior assessment.

What types of barriers? (e.g. solid wall barriers) Will HEPA filtration be required?

(Note: Renovation/construction area shall be isolated from the occupied areas during construction and shall be negative with respect to surrounding areas.)

Step Eight: Consider potential risk of water damage. Is there a risk due to compromising structural integrity? (e.g. wall, ceiling, roof)

Step Nine: Work hours: Can or will the work be done during non-patient care hours?

Step Ten: Do plans allow for adequate number of isolation/negative airflow rooms?

Step Eleven: Do the plans allow for the required number & type of hand washing sinks?

Step Twelve: Does the infection control staff agree with the minimum number of sinks for this project?

Step Thirteen: Does the infection control staff agree with the plans relative to clean and soiled utility rooms?

Step Fourteen: Plan to discuss the following containment issues with the project team. (examples: traffic flow, housekeeping, debris removal (how & when))

Note: Identify and communicate the responsibility for project monitoring that includes infection control concerns and risks. The ICRA may be modified throughout the project. Revision must be communicated to the Project Manager.

Re: Request for competitive bidding information regarding Bulk Oxygen & Medical Gas Cylinders.

Dear Ms. Heiy:

This letter is provided in response to the University Medical Center of Southern Nevada's ("UMC") request for information about HealthTrust Purchasing Group, L.P.'s ("HealthTrust") competitive bidding process for Bulk Oxygen & Medical Gas Cylinders. We are pleased to provide this information to UMC in your capacity as a Participant of HealthTrust, as defined in and subject to the Participation Agreement between HealthTrust and UMC, effective August 3, 2016.

HealthTrust's bid and award process is described in its Contracting Process Policy [HT.008] available on its public website (<http://healthtrustpg.com/about-healthtrust/healthcare-code-of-ethics/>). As described in the policy, HealthTrust operates a member-driven contracting process. Advisory Boards are engaged to determine the clinical, technical, operational, conversion, business and other criteria important for each specific bid category. The boards are comprised of representatives from HealthTrust's membership who have appropriate experience, credentials/licensures, and decision-making authority within their respective health systems for the board on which they serve.

HealthTrust's requirements for specific products and services are published on its Contract Schedule on its public website. HealthTrust's requirements for vendors are outlined in its Supplier Criteria Policy [HT.010]. A listing of the minimum Supplier Criteria is also published on HealthTrust's public website, as well as an on-line form for prospective vendor submission.

The Contracting Process Policy includes criteria for the selection of contract products and services and documents and the procedures followed by HealthTrust's contracting team to select vendors for consideration. HealthTrust's Advisory Boards may provide additional requirements or other criteria that would be incorporated into the RFP (request for proposals) process, where appropriate. Vendor proposals submitted in response to RFPs are analyzed using an extensive clinical/technical review as described above, as well as a financial/operational review.

The above-described process was followed with respect to the Bulk Oxygen & Medical Gas Cylinders category. HealthTrust issued RFPs and received proposals from identified suppliers in the Bulk Oxygen & Medical Gas Cylinders category. A contract was executed with Airgas, Linde Gas & Esprigas in June of 2019. I hope this satisfies your request. Please contact me with any additional questions.

Sincerely,

Craig Dabbs

Rider 1. Supplemental Disinfection – Chlorine (Domestic Hot and Cold Water)

Nalco recommends the use of liquid chlorine to economically “re-engineer” the lost oxidant residual supplied in the incoming city water in Domestic Hot Water systems. Continuous feed, monitoring, control and communication of residual allows for trouble-free consistent operation.

▪ Public Water System Permitting and Support

Operating a Supplemental disinfection system in Nevada requires that the operator obtain a permit to operate a Public Water System and comply with its requirements. Nalco has years of experience working with the state and local regulatory agencies to accomplish this process. Several submittals must accompany the Permit Application, and once the permit is obtained, remaining in compliance with the water testing regimen requires a knowledgeable team and diligent oversight.

Supplemental Disinfection Using Chlorine

1. OVERVIEW

1.1 Introduction

Published guidelines (e.g., The Joint Commission, CDC, OSHA, ASHRAE) and experts agree that precautions must be taken to prevent or control exposure to waterborne bacteria. These precautions include water treatment techniques and eliminating vectors of transmission, among others. Essentially, if risk cannot be eliminated, emphasis must be placed on implementing control measures to control the potential hazards and on monitoring the control measures to confirm control of the hazard. Supplemental disinfection when managed within the context of a water management program can form the foundation of an effective strategy to reduce risk of waterborne pathogens in building water systems and sustain potable water quality.

The objective of Supplemental disinfection is to maintain a residual disinfectant throughout the water distribution system. Success requires diligent monitoring and control of the applied disinfectant and managing stagnant conditions or dead-legs throughout the water distribution system. Water turnover is essential to maintain an effective disinfectant throughout the building water distribution system.

While there are many choices for Supplemental disinfection, decades of use continue to prove chlorine (Cl) to be safe and effective. Nalco Environmental Hygiene Services specializes in the continuous disinfection of domestic water services with Chlorine as part of a managed response to the health-related risks associated with waterborne pathogens. When using chlorine, the facility is essentially “re-engineering” the chlorine residual that entered with the City Water (Primary Disinfectant), but that has been degraded during heating/heat transfer. Periodic culturing for bacteria is also essential to confirm and document the program is effective.

1.2 Chlorine Supplemental Disinfection

The application is intended to cover the domestic water systems utilizing the injection of NSF potable approved chlorine (Sodium Hypochlorite) from NSF approved chemical injection pumps. This configuration we recommend as the most effective application for the facility. We are using dosing controlled from a chemical set point controller which also delivers continuous chemical monitoring to ensure validation of chlorine residuals. These controls plus the integral safety controls within the equipment and installation design will provide a safe and effective application.

The installation proposal will cover a complete turnkey service from Nalco to install the equipment and commission the injection, monitoring and control equipment. Site requirements are covered in detail including all plumbing and

electrical requirements plus life safety. Outputs from the control and monitoring equipment can be tied to BMS through Nalco 360 wireless management service. Additionally, we will be supplying corrosion monitoring coupons for one (1) system to monitor the effects of the chlorine on your system integrity.

1.3 Monitoring and Control

The Nalco Chlorine system also has patented controller technology with a chlorine residual sensor incorporated into the system for web-based data logging, monitoring, alarming, and 24/7 reporting.

Continuous data logging allows Nalco Services the best feedback for optimizing the Supplemental disinfection process. 24/7 monitoring and reporting offers the end user unparalleled documentation and confidence that their waterborne pathogen risk management program is functioning as intended – this system is Nalco 360.

Nalco 360: Benefits

2. STATEMENT OF WORK

2.1 Description of Application

Liquid Chlorine (sodium hypochlorite, 12.5%) will be used as the Supplemental disinfectant in the Domestic Hot Water systems (DHW). This solution is injected into the potable water systems via a monitoring, dosing and control system. The chlorine and the monitoring, dosing and control package compose the Supplemental disinfection system (the "System").

2.1.1 Domestic Hot Water Systems

Liquid Chlorine (Nalco 7360) will be delivered and stored in a Nalco PORTA-FEED tank (PF). The PF is equipped with an ultra-sonic Tank Level Monitor (TLM) that detects and communicates tank liquid inventory wirelessly to the internet. A chemical metering pump is used to inject the Chlorine into the DHW system at a location that provides ample mixing. The chemical injection pump is controlled by an online chlorine analyzer that maintains the desired chlorine residual, typically 1.0 to 1.5 mg/L, not to exceed 4.0 mg/L.

The following maintenance and service (the "**Service**") is required.

4.1 Preventative Maintenance

The Service during the contract period shall include minor parts for preventive maintenance and consumables required for continuous system operation. A certified Nalco Technician or a Nalco qualified service specialist shall provide (2) separate service visits per month to perform required Service. Travel and sustenance expenses shall be included.

Service visits shall be documented and service reports shall be provided in hard copy or in PDF format equivalent by e-mail communication. Program maintenance logs or equivalent program documentation shall also be reviewed and verified.

Any replacement parts required during the contract period which are outside of the normal preventative maintenance contract shall be provided by Nalco, except if the need for such equipment is determined to be outside of the normal wear and tear, parameters outside the operating specifications for the system, or customer caused failure. Nalco will quote the additional equipment and will be paid on a ship and bill basis. Warranties may apply at the discretion of Nalco.

4.2 Consumables

The following consumables are included during the contract period for each complete System*.

1. PROGRAM DESCRIPTION

Nalco Water's *Legionella* Water Management Program ("Program") assists customers with building a program for managing risk associated with legionellosis across their facilities. The service includes a comprehensive assessment of a facility's water systems for potential hazardous system conditions and the identification of control measures to reduce risk. The Program is designed to (1) examine and manage the systems above and beyond a performance standard to a health and safety standard, (2) help identify risk of waterborne disease by controlling the hazards which cause them, and (3) help establish a defined defensible water management program. The Program supports, in part, the requirements described in ASHRAE Standard 188. In any event, Nalco's liability for any and all claims, damages and causes of action arising out of the sale, use, storage, delivery or non-delivery of any Product or equipment, performance of any services or any warranty shall be limited to the price (including freight charges if paid by Customer) paid to Nalco for such Product.**
 - (h) **EXCEPT FOR THE TITLE WARRANTY, THE FOREGOING WARRANTIES ARE EXCLUSIVE AND NALCO MAKES NO OTHER WRITTEN, ORAL, EXPRESS OR IMPLIED WARRANTIES. In the event this section is invoked, this Agreement will expire on the 30th day of June of the then-current fiscal year. Cepheid EZ Agreement Terms and Conditions

This agreement is entered into by Customer and Cepheid as of the Effective Date and consists of the Cover Page, these Cepheid EZ Agreement Terms and Conditions, the Standard Terms (defined below), and any Addenda attached hereto and/or incorporated herein by reference (collectively, this “Agreement”). Capitalized terms used, but not defined below, shall have the meanings ascribed to them in the Cover Page.

1. **Supply Commitment.** Notwithstanding anything to the contrary in the Standard Terms, Cepheid agrees to provide Customer with the Supply Commitment. The Supply Commitment will be measured and tracked on a quarterly basis, subject to an initial grace period of one month from the Effective Date. If Cepheid does not meet the Supply Commitment during any quarter, Cepheid will reduce Customer’s Purchase Commitment for that year in a proportional amount. Such reduction shall be Customer’s exclusive remedy in the event Cepheid does not meet the Supply Commitment.

2. **Purchase Commitment.** Customer agrees to purchase the Purchase Commitment. The annual Purchase Commitment will be measured and tracked quarterly, subject to an initial grace period from the Effective Date through the first full calendar quarter. After the grace period, if Customer is not in compliance with the Purchase Commitment after any quarter, Customer shall make up the shortfall during the following quarter. If Customer fails to do so, Cepheid may invoice Customer for the shortfall for the preceding quarter. If, after the end of a calendar year, Customer is not in compliance with the annual Purchase Commitment (taking into account all of Customer’s purchases during the year and any shortfall fees paid by Customer during the year), Cepheid shall contact Customer to place an order for the shortfall for the year. If Customer does not place such order within 30 business days thereafter, Cepheid may terminate the Agreement upon written notice to Customer and invoice Customer for a fee equal to 60% of the amount Customer would have paid if Customer had met the Purchase Commitment throughout the then-current Term. Customer shall pay all invoices issued pursuant to this section within 30 days after the invoice date. In addition, Customer may terminate this Agreement upon at least ninety (90) days prior written notice to Cepheid if it loses funding from its governing body. In the event of such termination, Cepheid shall invoice Customer for 60% of the amount Customer would have paid if Customer had met the Purchase Commitment through the termination date, less Customer’s actual purchases during such time.

3. **Standard Terms.** This Agreement is subject to Cepheid’s standard terms and conditions available on the Support page of Cepheid’s website (https://www.cepheid.com/en_US/support/order-management) on the Effective Date (the “Standard Terms”), which Standard Terms are attached to this Agreement as Exhibit 1.

4. **Orders and Pricing.** All orders for Reagent Products shall be subject to the Standard Terms, and pricing shall be as set forth in the Cover Page, except to the extent the following applies to a particular Reagent Product ordered:

- (i) **Reagent Products Available Under GPO Agreement:** If a particular Reagent Product is available for purchase pursuant to a purchasing agreement between Cepheid and any GPO identified on the Cover Page: (i) orders for that Reagent Product shall be subject to the applicable terms, including pricing, of the GPO agreement; and (ii) the terms of the GPO agreement shall control as to those orders. Customer acknowledges that a Reagent Product may not be available for purchase pursuant to a GPO agreement.
- (ii) **Reagent Products Purchased From a Cepheid-Authorized Distributor:** If a particular Reagent Product is available for purchase from any Distributor identified on the Cover Page: (i) orders for that Reagent Product shall be subject to the terms, including pricing, agreed upon between Customer and Distributor; and (ii) such terms shall control as to those orders. Customer acknowledges that any pricing included in this Agreement shall only apply to Reagent Products purchased directly from Cepheid.

5. **Term and Termination.** The term of this Agreement shall commence on the Effective Date, and unless earlier terminated in accordance with its terms or extended by mutual written agreement of the parties, shall remain in effect for the Initial Term (the “Term”). A party may terminate this Agreement upon written notice to the other party if such other party materially breaches this Agreement and fails to cure such breach within 30 days after written notice thereof from the nonbreaching party.

6. **Addenda.** If agreed by the parties in each case, the parties may enter into an Addendum after the Effective Date. In such cases, the Addendum shall be fully executed by the parties, upon which time, the Addendum shall become part of this Agreement.

7. **Amendments.** This Agreement may only be modified by a written amendment signed by both parties. If agreed by the parties in each case, information in the tables appearing in the Cover Page or in any exhibit to any Addenda may be amended upon mutual agreement of the parties, in which case: (i) the parties shall amend and replace the entire Cover Page, exhibit, or table with a sequentially-numbered version; (ii) Cepheid shall prepare the final amended version; (iii) Cepheid’s Contracts Department shall initial or sign such version prior to sending it to Customer; and (iv) Customer shall confirm the final amended version within a reasonable time thereafter (or earlier date indicated by Cepheid). Unless specified therein, the amended version shall be effective on the date of Customer’s confirmation.

8. **Miscellaneous.** This Agreement constitutes the entire agreement between the parties concerning the subject matter hereof and supersedes all prior written and oral agreements, representations, and understandings between the parties concerning such subject matter, including the letter agreement between the parties, with an effective date of November 13, 2020. Customer must sign and return an executed copy of this Agreement, along with any other documents specifically required by this Agreement, to Cepheid on or before the “Sign by” date identified in the Cover Page.

INSTRUMENTS ADDENDUM

This addendum (this “Addendum”) is entered into by University Medical Center of Southern Nevada (“Customer”) and Cepheid as of the Effective Date of the Agreement (defined below). This Addendum supplements and modifies the Cepheid EZ Agreement to which it is attached (the “Agreement”) and is incorporated into and made a part thereof. Capitalized terms used but not defined herein shall have the meanings ascribed to them in the Agreement. In the event of any conflict between the terms and conditions of the Agreement and those of this Addendum, the terms and conditions of this Addendum shall control to the extent of such conflict.

CEPHEID TERMS AND CONDITIONS

1. **Purchase Orders.** These Cepheid Terms and Conditions (these "Terms"), as posted on Cepheid's website at the time the purchaser ("Customer") submits its purchase order ("PO") to Cepheid, shall apply to such PO. All POs are subject to acceptance by Cepheid, which acceptance shall be limited to the terms and conditions of the Agreement (defined below). Upon Cepheid's acceptance of Customer's PO, such PO, together with these Terms and the applicable Cepheid Sales Quote ("Quote"), shall constitute a contract between the Customer and Cepheid, which shall exclusively govern the accepted PO (collectively, the "Agreement"). Notwithstanding the foregoing, unless otherwise agreed to by the parties in a writing signed by both parties, the following shall be void, shall have no binding effect, and are expressly rejected by Cepheid:
(i) any shipment or delivery dates in Customer's PO; (ii) any other terms or conditions in Customer's PO, other than Customer contact, bill-to, and ship-to information and quantities of Products (defined below); and (iii) any other agreement, document, terms, or conditions concerning the subject matter of the Agreement. By submitting its PO, Customer expressly agrees to the Agreement.
2. **Customer Contract.** Notwithstanding anything to the contrary in Section 1, if Customer has a written agreement with Cepheid that incorporates these Terms by specific reference ("Customer Contract"), these Terms shall apply to and form part of such Customer Contract, and all references in these Terms to the "Agreement" shall refer to these Terms and such Customer Contract, collectively.
3. **Cleared, EUA, RUO, and IUO Products.** As used in these Terms, "Reagent Products" means Cepheid reagent and ancillary consumable products, "Instruments" means Cepheid instruments and instrument accessories, and "Products" means Reagent Products and Instruments. Customer may purchase Products that have been cleared or approved by the United States Food and Drug Administration ("FDA") and/or Products that have not received clearance or approval by FDA as cleared or approved medical devices, but: (i) have received Emergency Use Authorization from FDA permitting certain distribution and use; or (ii) are distributed by Cepheid for purposes of "research use only" (RUO) or "investigational use only" (IUO). Customer acknowledges that: (a) requirements under Applicable Law (defined below) for Products described in this section under (i) and (ii) may differ, or be exempt from, those applicable to medical devices cleared or approved by FDA; and (b) Products labeled "research use only" or "investigational use only" are not being sold by Cepheid for Customer's use for clinical diagnostic purposes.
4. **Price.** The sales prices for the Products shall be the prices stated in the Quote or Customer Contract, as applicable. The following shall be added to the invoice: (i) the reasonable cost of packing, crating, shipping, and insurance, which shall be prepaid; and (ii) applicable taxes, including any sales, use, or other local taxes required to be collected on the sale. If Customer is eligible for a tax exemption, Customer must maintain a valid tax exemption certificate on file with Cepheid.
5. **Delivery, Title, and Risk of Loss.** Products shall be packed in Cepheid's standard shipping packages and shipped by method and carrier to be selected by Cepheid, unless otherwise permitted in writing by Cepheid. Cepheid shall use reasonable efforts to effect shipment of Products on or before quoted, estimated, or requested dates, but makes no representations, warranties, or guarantees as to shipment or delivery dates. Cepheid may make deliveries in installments, and each installment shall be deemed a separate sale, for which a separate invoice shall be rendered by Cepheid. Deliveries shall be made F.O.B. Origin. Title and risk of loss with respect to the Products, except software, shall pass from Cepheid to Customer upon transfer of possession to a common carrier.
6. **Supply.** Except as otherwise provided in the Customer Contract, Cepheid makes no guarantees or representations concerning the availability of the Products at any time and reserves the right, in its sole discretion, to: (i) reject or cancel any PO; (ii) apportion among its various customers the Products then available for delivery; (iii) determine shipment and delivery dates, which may be before or after any shipment or delivery dates included in Customer's PO; and (iv) offer Customer alternate quantities of the Products or substitute products of substantially similar functionality as the Products ordered, which offer Customer may reject in Customer's sole discretion. In the event of any of the foregoing, Cepheid shall promptly notify Customer in writing (email acceptable). Customer acknowledges and agrees that in no event shall any of the foregoing constitute a breach of any obligation to Customer by Cepheid.
7. **Acceptance of Products.** Customer shall inspect all Products within thirty (30) days of receipt thereof. Any Instrument that is defective may be rejected by Customer, provided: (i) it is (or has been) a standard product offered by Cepheid; and (ii) it has not been used, abused, or damaged by the Customer or Customer's agents. Any Reagent Product shipped by Cepheid in damaged packaging, or with damage to the Reagent Product's container, in each case that compromises the integrity of the Reagent Product, may be returned to Cepheid. Any Product shipped by Cepheid in error shall be purchased by Customer (unless Cepheid informs Customer that it does not agree to sell such Product to Customer) or returned to Cepheid unused, in its original packaging, and in its original condition. To reject or return a Product described in this section, Customer must notify Cepheid in writing of the reason for the rejection or return within thirty (30) days of receipt of the Product. If Cepheid determines in its reasonable discretion that the Product may be rejected or returned for the reasons set forth in this section, obtain a Return Material Authorization number, and promptly return the Product to Cepheid, freight collect. Except with respect to Products shipped in error, Cepheid shall promptly repair or replace the Product with conforming Product or return the purchase price of the Product (which return may be in the form of a credit). Any Products not properly and timely rejected and/or returned in accordance with this section, including Products shipped in error, shall be deemed accepted by Customer, and Customer shall be invoiced accordingly. Except as expressly set forth in this section, all sales are final, and Products are not returnable or refundable.
8. **Payment Terms.** Payment terms are cash on delivery, except where Customer has established and maintained open account credit to Cepheid's satisfaction. Cepheid reserves the right to require alternative payment mechanisms, including without limitation, prepayment, sign draft, or letter of credit. Payment terms for sales on open account are net thirty (30) days from date of Cepheid's invoice to Customer. Customer's obligation to pay for Products is not conditioned on Customer's inspection of the Products. Any invoiced amount not paid when due shall accrue interest at the rate of one and one-half percent (1.5%) per month or the maximum allowed by law, if less.
9. **Customer's Financial Condition.** Cepheid's obligations under the Agreement are subject to Cepheid's approval at all times of Customer's financial condition. If the financial condition of Customer at any time becomes unsatisfactory to Cepheid or if Customer fails to make any payment when due, Cepheid may: (i) defer or decline to provide any Product to Customer; and/or (ii) revoke any open account credit of Customer.
10. **Confidential Information.** Each party to a Customer Contract shall keep confidential the terms of the Agreement (other than these Terms). Neither party shall disclose such information to any third party or use such information for any reason other than in connection with the performance of the Agreement; provided, however, that Cepheid may disclose such information to its affiliates for internal reporting purposes.
11. **PUBLIC RECORDS:** Cepheid acknowledges that Customer is a public county-owned hospital which is subject to the provisions of the Nevada Public Records Act, Nevada Revised Statutes Chapter 239, as may be amended from time to time, and as such its records are public documents available to copying and inspection by the public. If Customer receives a demand for the disclosure of any information related to the Agreement which Cepheid has claimed to be confidential and proprietary, Customer will immediately notify Cepheid of such demand and Cepheid shall immediately notify Customer of its intention to seek injunctive relief in a Nevada court for protective order. Cepheid shall indemnify, defend and hold harmless Customer from and against any third party claims or actions, including all associated costs and attorney's fees, regarding or related to any demand for the disclosure of Cepheid documents in Customer's custody and control in which Cepheid claims to be confidential and proprietary, except to the extent the claims are a result of Customer's failure to respond to such demand, negligent act or omissions of Customer or its employees.
12. **Limited Warranty.** Cepheid warrants that the GeneXpert® instruments: (i) shall be free from defects in material and workmanship for a period of one year after shipment; (ii) conform to Cepheid's published specifications for the GeneXpert instruments; and (iii) are free of liens and encumbrances when shipped. Cepheid does not warrant any defects in any GeneXpert instruments caused by: (a) improper use, installation, removal, or testing; (b) Customer's failure to provide a suitable operating environment for the GeneXpert instruments; (c) use of the GeneXpert

instruments for purposes other than that for which they were designed; (d) unauthorized attachments; (e) unusual physical or electrical stress; (f) modifications or repairs performed by anyone other than Cepheid or a Cepheid authorized service provider; or (g) any other abuse, misuse, or neglect of the GeneXpert instruments. It is Customer's responsibility to determine, and Customer shall assume the risk for the suitability of Products for Customer's use and distribution and Customer's use and distribution of the Products in compliance with all applicable laws, rules, regulations, regulatory guidance, and industry codes, including, without limitation, the Social Security Act and all state and federal fraud and abuse laws (collectively, "Applicable Law"), the Products' labeling, inserts, and manuals, and other Product-related information and materials published by Cepheid or any regulatory authority. This warranty extends to Customer only, and not to Customer's customers or any other third party. Except as expressly set forth in these Terms, Products are sold "AS IS." THERE ARE NO WARRANTIES AS TO PRODUCTS WHICH EXTEND BEYOND THE FACE HEREOF. CEPHEID DISCLAIMS ALL OTHER REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, REGARDING PRODUCTS, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NONINFRINGEMENT. CEPHEID SHALL HAVE NO STRICT LIABILITY, GOODS LIABILITY, OR NEGLIGENCE, WHETHER ACTIVE OR PASSIVE. CUSTOMER'S EXCLUSIVE REMEDY UNDER THIS WARRANTY IS LIMITED TO REPAIR OR REPLACEMENT OF THE INSTRUMENT. In the event of any conflict between the terms of the warranty in the Agreement, including the limitations of liability set forth in the Agreement, and those in any other document, the more restrictive terms shall apply as to the extent of such conflict.

13. **LIMITATION OF LIABILITY.** IN NO EVENT SHALL EITHER PARTY BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL CONSEQUENTIAL, OR EXEMPLARY LOSS OR DAMAGE (INCLUDING, WITHOUT LIMITATION, LOSS OF USE, DATA, PROFITS OR GOODWILL) ARISING OUT OF OR IN CONNECTION WITH THE AGREEMENT, WHETHER ARISING IN CONTRACT, TORT (INCLUDING ACTIVE, PASSIVE, OR IMPUTED NEGLIGENCE AND STRICT LIABILITY), OR OTHERWISE. THE FOREGOING LIMITATION APPLIES EVEN IF A PARTY WAS ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGE OR ANY REMEDY HAS FAILED OF ITS ESSENTIAL PURPOSE. IN NO EVENT SHALL CEPHEID'S AGGREGATE LIABILITY ARISING OUT OF OR IN CONNECTION WITH THE AGREEMENT EXCEED THE AMOUNT ACTUALLY PAID TO CEPHEID BY CUSTOMER FOR THE PRODUCTS THAT ARE THE SUBJECT OF OR GAVE RISE TO THE CLAIM.

14. **Patents.** Cepheid shall settle or defend any suit or proceeding brought against Customer if and to the extent the suit or proceeding is based on a claim that any Cepheid Products as sold directly infringe any issued United States patent. Cepheid shall pay all damages and costs finally awarded against Customer on account of any actual infringement. Customer shall: (i) within ten days after receipt by Customer of a communication, notice, or other action relating to an alleged infringement, inform Cepheid in writing of the event and furnish to Cepheid a copy of any communication; and (ii) give Cepheid all authority (including the right to exclusive control of the defense of any suit or proceeding), information and assistance necessary to settle or defend the suit or proceeding. Cepheid shall not be bound in any manner by any settlement made without its prior express written consent. In the event Cepheid Products are held to constitute infringement and their use is enjoined, Cepheid may, at its option: (a) obtain for Customer the right to continue using the Cepheid Products; (b) modify the Cepheid Products so that they become non-infringing; or (c) remove the Cepheid Products and grant Customer a credit. Cepheid has no obligations under this section if the alleged infringement arises out of: (1) Cepheid's compliance with Customer's specifications; (2) Customer's addition to or modification of a Cepheid Product; or (3) Customer's use of a Cepheid Product with products provided by parties other than Cepheid. Cepheid's obligations under this section do not apply to any alleged infringement occurring after Customer has received notice of the alleged infringement unless Cepheid subsequently gives Customer express written consent for the continuing alleged infringement. Cepheid shall not be liable for any incidental or consequential damages arising out of a patent infringement. Cepheid's liability hereunder shall not exceed the purchase price paid by Customer for the allegedly infringing Cepheid Products. The foregoing states the sole and exclusive liability of Cepheid with respect to patent infringement and is in lieu of any and all other warranties, expressed or implied, in regard thereto.

15. **Disclosure Requirements.** The parties intend and believe the Agreement, and any discounts in price, rebates, and other price reductions (collectively, "Discounts") provided hereunder, comply with the federal Anti-Kickback Statute at 42 U.S.C. § 1320a-7b(b) and discount safe harbor at 42 C.F.R. § 1001.952(h). Each party will maintain all documents concerning the Discounts and provide such documents and other related information upon request by any state or federal agency. Customer acknowledges that Cepheid may supply Instruments and other Products and/or services identified in the Agreement as part of Customer's purchase of Products under the Agreement. Customer agrees to fully and accurately report all Discounts when required and as appropriately allocated among equipment, products and/or services, as applicable. Upon Customer's request, Cepheid will provide Customer with further information regarding the Discounts and the allocation of Customer's purchase price for products and services, as applicable.

16. **Compliance with Applicable Law.** Each party represents and warrants to the other party that it shall perform its obligations under the Agreement, and the activities contemplated hereunder, including any use or distribution of the Products, in compliance with Applicable Law, the Products' labeling, inserts, and manuals, and other Product-related information and materials published by Cepheid or any regulatory authority. To the extent authorized by law, Customer shall indemnify and hold Cepheid from and against any third party claims, losses, liabilities, and expenses (including reasonable attorneys' fees and costs) to the extent arising from noncompliance with Applicable Law.

17. **Force Majeure.** Neither party shall be liable, nor be deemed to have defaulted under or breached the Agreement, for any failure or delay in fulfilling or performing any obligation under the Agreement when such failure or delay arises or results from acts beyond a party's reasonable control, including, without limitation, the following: (i) acts of God, (ii) flood, fire, earthquakes, pandemics, or epidemics; (iii) shortages of supplies, infrastructure, or transportation; (iv) law, rule, regulation, or action by any governmental authority; (v) national, regional, or global emergency; or (vi) labor stoppages or slowdowns or other industrial disturbances. For clarification, Customer's obligations to pay shall not be subject to a delay based upon Force Majeure.

18. **Governing Law and Venue.** The parties have agreed to remain silent as to governing law and venue.

19. **Assignment.** Neither party may transfer or assign the Agreement or any of its rights, duties, or obligations under the Agreement, without the prior written consent of the other party, which consent shall not be unreasonably withheld.

20. **Entire Agreement; Modification.** The Agreement: (i) constitutes the final, complete, and exclusive agreement of the parties concerning the subject matter of the Agreement; (ii) supersedes all prior written and oral agreements, representations and understandings between Cepheid and Customer concerning such subject matter, other than as set forth in a signed written agreement between the parties that, by its terms, is intended to supplement the Agreement; (iii) supersedes all terms and conditions set forth in a PO, except as expressly set forth in these Terms; and (iv) may be modified only by a writing signed by the parties. Each party represents to the other party that in entering the Agreement, it is not relying upon any representation, agreement, warranty, or statement, other than those expressly set forth in the Agreement.

21. **BUDGET ACT AND FISCAL FUND OUT:** In accordance with the Nevada Revised Statutes (NRS 354.626), the financial obligations under the Agreement between the parties shall not exceed those monies appropriated and approved by Customer for the then current fiscal year under the Local Government Budget Act. The Agreement shall terminate and Customer's obligations under it shall be extinguished at the end of any of Customer's fiscal years in which Customer's governing body fails to appropriate monies for the ensuing fiscal year sufficient for the payment of all amounts which could then become due under the Agreement. Customer agrees that this Section shall not be utilized as a subterfuge or in a discriminatory fashion as it relates to the Agreement. Customer shall give Cepheid ninety (90) days prior written notice, in the event this Section is invoked, the Agreement will expire on the 30th day of June of the then current fiscal year. Termination under this Section shall not relieve Customer of its obligations incurred through the 30th day of June of the fiscal year for which monies were appropriated.

22. **NON-EXCLUDED HEALTHCARE PROVIDER:** Cepheid represents and warrants to Customer that it (a) is not excluded from participation in any federal health care program, as defined under 42 U.S.C. § 1320a-7b (f), for the provision of goods or services for which payment may be made under such federal health care programs and (b) to the best of its knowledge, has arranged or contracted (by employment or otherwise) with any employee, contractor or agent that such know or should know are excluded from participation in any federal health care program, to provide goods or services

hereunder. Cepheid represents and warrants to Customer that no final adverse action, as such term is defined under 42 U.S.C. §1320a-7e (g), has occurred or is pending or threatened against Cepheid or to the best of its knowledge against any employee, contractor or agent engaged to provide goods or services under the Agreement. (collectively "Exclusions / Adverse Actions").

INTERLOCAL AGREEMENT

This INTERLOCAL AGREEMENT herein after referred to as "AGREEMENT" is entered into on this _____ day of _____, 2022 by and between CLARK COUNTY, Nevada, hereinafter referred to as "COUNTY" and UNIVERSITY MEDICAL CENTER OF SOUTHERN NEVADA, hereinafter referred to as "UMC" for Rapid Start Program.

WITNESSETH:

WHEREAS, NRS 277.180 authorizes public agencies to contract with any one or more other public agencies to perform any governmental service, activity, or undertaking which any of the public agencies entering into the contract is authorized by law to perform;

NOW, THEREFORE, the parties mutually agree as follows:

ARTICLE I: SCOPE OF WORK

AGREEMENT sets forth:

1.0 Overview

Ending the HIV Epidemic: A Plan for America (EHE) is a bold and ambitious initiative to reduce the number of new HIV infections in the United States by 90% by 2030. The plan leverages critical scientific advances in HIV prevention, diagnosis, treatment, and outbreak response by coordinating the highly successful programs, resources, and infrastructure.

To achieve the goal of reducing new HIV infections in the United States by 75% by 2025 and 90% by 2030, *Ending the HIV Epidemic: A Plan for America* focuses on four key strategies that together can end the HIV epidemic in the U.S.

1. Diagnose all individuals with HIV as early as possible after infection.
2. Treat people with HIV rapidly and effectively to reach sustained viral suppression.
3. Prevent new HIV transmissions by using proven interventions.
4. Respond quickly to potential HIV outbreaks to get needed prevention and treatment services to people who need them.

Phase 1 of the initiative (2020-2025) is focused in 57 regions hardest hit by the HIV epidemic and Clark County; NV is one of these priority jurisdictions.

As an EHE funding recipient, Clark County has developed an EHE plan that includes the Rapid stART program as a key strategy to Diagnose (1) and Treat (2). Rapid stART refers to starting a patient on HIV antiretroviral therapy (ART) treatment as soon as possible after the diagnosis of HIV infection, preferably on the first clinic visit (and even on the same day the HIV diagnosis is made). Rapid stART may serve to decrease time to viral suppression by removing obstacles to care; supporting equitable access to treatment; and reducing new HIV infections.

2.0 Scope of Project

Rapid stART Early Intervention Services (EIS) aims to increase individuals' awareness of their HIV status, and if needed, facilitate early access to the health care system. Early antiretroviral treatment (ART) is key to better health outcomes and prevention of HIV transmission. The UMC first implemented the Rapid stART Project in 2019 and has been able to expedite the early initiation of antiretroviral treatment (ART), preferably the same day as HIV diagnosis or receipt of referral. Rapid stART consolidates the diagnosis, initial assessment and counseling, medical evaluation and ART prescription in one day. The primary goal of same-day referral is early linkage to a medical provider for evaluation and early initiation of ART. Inherent in this process is an emphasis in client engagement and long-term retention in HIV care as a means to achieve effective and durable community viral suppression.

The PROGRAM is intended to provide at least 350-650 service units to a minimum of 60-80 unduplicated individuals living with HIV.

3.0 Definitions

AIDS (Acquired Immune Deficiency Syndrome) is the late stage of HIV infection that occurs when the body's immune system is badly damaged because of the virus. In the U.S., most people with HIV do not develop AIDS because taking HIV medicine every day as prescribed stops the progression of the disease. A person with HIV is considered to have progressed to AIDS when the number of their CD4 cells falls below 200 cells per cubic millimeter of blood (200 cells/mm³). (In someone with a healthy immune system, CD4 counts are between 500 and 1,600 cells/mm³.) OR they develop one or more opportunistic infections regardless of their CD4 count.

Antiretroviral Therapy (ART) is the treatment for HIV. ART involves taking a combination of HIV medicines (called an HIV treatment regimen) every day. ART is recommended for everyone who has HIV. ART can't cure HIV, but HIV medicines help people with HIV live longer, healthier lives. ART also reduces the risk of HIV transmission.

CAREWare is a free, electronic health and social support services information system for HRSA's Ryan White HIV/AIDS Program recipients and providers. CAREWare was developed by HRSA's HIV/AIDS Bureau and first released in 2000.

Early Intervention Services include 1) targeted HIV testing to help the unaware learn of their HIV status and receive referral to HIV care and treatment services if found to be HIV-infected; 2) referral services to improve HIV care and treatment services at key points of entry; 3) access and linkage to HIV care and treatment services; and 4) Outreach Services and Health Education/Risk Reduction related to HIV diagnosis.

Epic is the PROGRAM's electronic health record. Epic contains key administrative and clinical data such as medical history, demographics, and other data relevant to the patient's care in UMC Wellness.

HIV (*human immunodeficiency virus*) is a virus that attacks cells that help the body fight infection, making a person more vulnerable to other infections and diseases. It is spread by contact with certain bodily fluids of a person with HIV, most commonly during unprotected sex (sex without a condom or HIV medicine to prevent or treat HIV), or through sharing injection drug equipment. If left untreated, HIV can lead to the disease AIDS.

Rapid stART refers to starting a patient on HIV antiretroviral therapy (ART) treatment as soon as possible after the diagnosis of HIV infection, preferably on the first clinic visit (and even on the same day the HIV diagnosis is made). Rapid stART may serve to decrease time to viral suppression by removing obstacles to care; support equitable access to treatment; and reduce new HIV infections.

Viral Suppression is defined as having less than 200 copies of HIV per milliliter of blood. If taken as prescribed, ART reduces the amount of HIV in the body (viral load) to a very low level which keeps the immune system working and prevents illness.

Note: In this document, "client" and "patient" are used interchangeably.

4.0 Target Population and Eligibility Criteria

- a. Individuals who have been newly diagnosed with HIV; or
- b. Individuals who have previously been diagnosed with HIV and are returning to care.

2. Utilize best practices as a guide in developing and implementing a process of same-day referral to a prescribing health care provider on the same day an HIV diagnosis is given. (Same-day referral consolidates the diagnosis, initial assessment and counseling, medical evaluation and ART prescription in one day.).
3. Provide each patient with culturally and linguistically appropriate individual and/or group health education/risk reduction services, delivered by trained personnel, to help patients:
 - a. understand and self-manage their diagnosis;

 - o External partners - Ryan White funders, Community Based Organizations, community partners (both RW and non-RW funded agencies in the community), and other resources that provide assistance to people living with HIV (PLWH).
- Take factors into consideration that can increase the time from diagnosis to first clinic visit including both systemic and individual factors, such as delayed referral to the clinic; lack of resources needed for immediate linkage and ART start such as uninsured or underinsured status; pending RW eligibility status; and patient request for confidential services/not to use insurance.
- Support and integrate inclusion of client preferences as an essential priority of the PROGRAM. Client-specific factors may include client readiness for initiation of care and/or other special circumstances.
