ITEM NO. 23 Receive an educational presentation from Jamie King, Director of Pharmacy, regarding the 340B Program at UMC; and take any action deemed appropriate. (For possible action)

DOCUMENT(S) SUBMITTED:

PowerPoint Presentation

DISCUSSION:

Jamie King, Director of Pharmacy provided a high-level overview of the 340B drug pricing program.

The program requires pharmaceutical manufacturers to provide discounts to covered outpatient drugs and covered entities. The savings can be 40-60%. The purpose of the program is to allow hospitals to stretch scarce federal dollars to care for vulnerable populations. HRSA oversees this program.

UMC joined the 340B Program in 1994. UMC is a covered entity due to the disproportionate amount of uninsured and underinsured patients that are served at the hospital. Contract pharmacy arrangements allow us to retain savings for UMC and our patients. Referral prescriptions may be captured with appropriate follow up and documentation. UMC is transparent with the 340B program and in FY21 we received \$11.4 million in net savings. Ms. King explained how the contract pharmacy arrangement works.

The discussion continued regarding ongoing litigation regarding CMS decreased payments, attacks on contract pharmacies and the impacts these attacks have had on UMC, as well as the next steps for UMC in advocacy, education, transparency and work with legislators to protect the program.

Dean Kahn commented that this program is essential for building specialty services like oncology and rheumatology, both of which require the use of expensive medication.

A discussion ensued regarding the benefits of reopening an outpatient and wellness pharmacy at UMC and the impact of an evolving healthcare pharmacy business.

Chairman O'Reilly asked that Ms. Wakem provide a financial summary/report on pharmacy for a future discussion.

Two areas of opportunity for improvement are in orthopedic internal/external fixation and regenerative tissue wound care. Mr. Moser pointed out RIWC, Right Item Wrong Channel, which means we are buying the right product, but from the wrong vendor. This is being monitored daily on the HealthTrust site. This year the supply chain has realized \$1.2 million in rebates and savings. The discussion continued regarding the savings that are being pursued.

Inflationary outlook and market and pricing outlook for 2023 and 2024 was briefly discussed. UMC uses HealthTrust for approximately 87% of purchases. The discussion continued with a review of the goals that are in place for this year to improve performance. The overall compliance goal for the department is 90%.

On October 21, 2022, we presented an overview of our plan for the audit of the financial statements including the schedule of expenditure of federal awards ("SEFA") of University Medical Center of Southern Nevada ("UMC" or the "Hospital") as of and for the year ended June 30, 2022, including a summary of our overall objectives for the audit, and the nature, scope, and timing of the planned audit work.

This communication is intended to elaborate on the significant findings from our audit, including our views on the qualitative aspects of the Hospital's accounting practices and policies, management's judgments and estimates, financial statement disclosures, and other required matters.

We are pleased to be of service to the Hospital and look forward to discussing our audit findings, as well as other matters that may be of interest to you, and to answer any questions you might have.

Executive Summary

Status of Our Audit

We have substantially completed our audit of SEFA as of and for the year ended June 30, 2022. Our audit was conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards. This audit of the SEFA does not relieve management or those charged with governance of their responsibilities.

- ▶ The objective of our audit was to obtain reasonable - not absolute - assurance about whether SEFA is free from material misstatements.
- ▶ The scope of the work performed was substantially the same as that described to you in our earlier Audit Planning communications.
- ▶ We expect to issue an unmodified opinion on the Hospital's Single Audit report, including the Schedule of Expenditures of Federal Awards (SEFA) and on compliance requirements that could have direct and material effect on each major federal program and release our report on March 17, 2023.
- ▶ In planning and performing our audit of the SEFA, we considered the Hospital's internal control over compliance with requirements that could have a direct and material effect on its major federal program(s) to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with GAS and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.
- ▶ All records and information requested by BDO were freely available for our inspection.
- ▶ Management's cooperation was excellent. We received full access to all information that we requested while performing our audit, and we acknowledge the full cooperation extended to us by all levels of Company personnel throughout the course of our work.

Results of the Audit

ACCOUNTING PRACTICES, POLICIES, AND ESTIMATES

The following summarizes the more significant required communications related to our audit concerning the Hospital's accounting practices, policies, and estimates:

The Hospital's significant accounting practices and policies are those included in Note 1 to the SEFA. These accounting practices and policies are appropriate, comply with the applicable financial reporting framework and industry practice, were consistently applied, and are adequately described within Note 1 to the SEFA.

- ▶ There were no changes in significant accounting policies and practices during the year ended June 30, 2022.

Significant estimates are those that require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. There are no significant accounting estimates included in the SEFA.

Internal Control Over Financial Reporting

Internal Control Over Financial Reporting

In planning and performing our audit of the SEFA, we considered UMC’s internal control over SEFA and compliance with the types of compliance requirements applicable to the major federal programs (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the SEFA, but not for the purpose of expressing an opinion on the effectiveness of UMC’s internal control. Accordingly, we do not express an opinion on the effectiveness of UMC’s internal control.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

We are required to communicate, in writing, to those charged with governance all material weaknesses and significant deficiencies that have been identified in UMC’s internal control over financial reporting. The definitions of control deficiency, significant deficiency and material weakness follow:

Category	Definition
Control Deficiency	A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.
Significant Deficiency	A deficiency or combination of deficiencies in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.
Material Weakness	A deficiency or combination of deficiencies in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of UMC’s financial statements will not be prevented or detected and corrected on a timely basis.

In conjunction with our audit of the SEFA, we noted no material weaknesses.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the University Medical Center of Southern Nevada ("UMC"), a component unit of Clark County, Nevada, as of and for the year ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise UMC's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective net position of UMC, as of June 30, 2022 and 2021, and the respective changes in net position (deficit) and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of UMC and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 13 to the financial statements, UMC adopted the provisions of Governmental Accounting Standards Board Statement Number 87, Leases. Our Opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about UMC's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of UMC's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about UMC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of UMC's proportionate share of the net pension liability and contribution, schedules of changes in the total OPEB liability and the related ratios on pages 4 through 14, and 76 through 79, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the

basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise UMC's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the accompanying schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2022, on our consideration of UMC's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of UMC's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering UMC's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2022 AND 2021

Management's Discussion and Analysis

This section of the annual financial report of the University Medical Center of Southern Nevada (the Hospital) presents background information and our analysis of the Hospital's financial performance during the fiscal years ended June 30, 2022, and 2021, which management believes is relevant for an understanding of our financial condition and results of operations. This discussion should be read in conjunction with the basic financial statements and the related notes included in this report. This discussion and analysis is designed to focus on current activities, resulting change, and currently known facts. The financial statements, notes thereto, and this discussion and analysis are the responsibility of the Hospital's management.

Overview of the Financial Statements

This annual report consists of financial statements prepared in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis — for State and Local Governments* as amended by GASB Statement No. 37, *Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments: Omnibus* and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*. These standards establish comprehensive financial reporting standards for all state and local governments and related entities.

The Hospital's financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States as promulgated by the GASB. The Hospital is structured as a single enterprise fund with revenues recognized when earned, not when received. Expenses are recognized when incurred, not when paid. Capital assets are capitalized and are depreciated (except land and construction in progress) over their estimated useful lives. See the *Notes to Financial Statements* for a summary of the Hospital's significant accounting policies.

Following this discussion and analysis are the basic financial statements of the Hospital together with the notes, which are essential to a complete understanding of the data. The Hospital's basic financial statements are designed to provide readers with a broad overview of the Hospital's finances.

The *Statement of Net Position (Deficit)* presents information on all of the Hospital's assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of the Hospital's financial position; however, other nonfinancial factors such as change in economic conditions, population growth, including uninsured and underinsured patients, and new or changed government legislation should also be considered.

UNIVERSITY MEDICAL CENTER OF SOUTHERN NEVADA
(A COMPONENT UNIT OF CLARK COUNTY, NEVADA)

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2022 AND 2021

The *Statement of Revenues, Expenses, and Changes in Net Position (Deficit)* presents information showing how the Hospital's net position changed during each year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future periods.

The *Statement of Cash Flows* relates to the flows of cash and cash equivalents. Consequently, only transactions that affect the Hospital's cash accounts are presented in this statement. A reconciliation is provided at the bottom of the *Statement of Cash Flows* to assist in the understanding of the difference between cash flows from operating activities and operating income or loss.

The Hospital is the public health care facility for Clark County, Nevada (the County). The Board of County Commissioners is, ex officio, the Board of Hospital Trustees, per Chapter 450 of the Nevada Revised Statutes. The seven-member Board of Commissioners is elected from geographic districts on a partisan basis for staggered four-year terms. Commissioners elect a chairperson who serves as the Commission's presiding officer. In 2014 the Commissioners created the UMC Governing Board and selected 9 individuals from the community to serve on the board. The UMC Governing Board provides oversight of the hospital and reports back to the Board of Hospital Trustees.

In accordance with GASB Statement No. 14, *The Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, the Hospital's financial statements are included, as a blended component unit, in the County's Annual Comprehensive Financial Report (ACFR). A copy of the ACFR can be obtained from Anna Danchik, Comptroller, 500 South Grand Parkway, Las Vegas, Nevada 89155.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2022 AND 2021

Financial Analysis of the Hospital for June 30, 2022 and 2021

In fiscal 2022, net position increased \$77.8 million to a deficit of \$225.5 million, from a deficit of \$303.7 million in fiscal 2021, primarily due to gains from operations, and contributions from the County. In fiscal 2021, net position increased \$61.3 million to a deficit of \$303.7 million, from a deficit of \$365.0 million in fiscal 2020, primarily due to increased patient revenue resulting from increased patient days, increased other operating revenue, contributions from the County, non-operating revenue from Provider Relief Fund and Coronavirus Relief Fund, which was partially offset by a surge in supplies expense due to high demand in pharmaceuticals and reagents. A summary of the Hospital's Statements of Net Position (Deficit) as of June 30, 2022, 2021 and 2020 is presented in Table 1 below:

YEARS ENDED JUNE 30, 2022 AND 2021

Table 3 presents the relative percentages of gross charges billed for patient services by payer for the years ended June 30, 2022, 2021 and 2020.

During fiscal 2022, 2021 and 2020, the Hospital derived -1.1%, -0.2% and 1.6%, respectively, of its total revenues from interest income on its capital acquisition, debt service and malpractice funds. The Hospital's cash is deposited with the County Treasurer and funds in the custody of the County Treasurer are invested as a pool. Other non-operating revenues in fiscal 2022 and 2021 include \$31 million and \$15 million, respectively, in contributions from the County used primarily to defray operating, capital and debt service costs.

Fiscal 2022 Activity

In fiscal 2022, overall activity at the Hospital as measured by patient days adjusted for outpatient services increased by 20.5% to 236,741 compared to 196,435 in fiscal 2021. This increase was due primarily to a 23.1% increase in patient days.

In fiscal 2022, the Hospital had patient days and discharges of 157,055 and 21,901, respectively. This was an increase of 23.1% and 11.3%, respectively, as compared to fiscal 2021. Outpatient and emergency visits were 388,033 or 4.3% above 2021 levels. The increase in outpatient volume occurred primarily due to an increase in Primary Care and Quick Care registrations of 22.1%, and emergency registrations of 14.5%.

In fiscal 2022, net patient revenue increased compared to fiscal 2021 by \$32.5 million due primarily to increased patient days.

UNIVERSITY MEDICAL CENTER OF SOUTHERN NEVADA
(A COMPONENT UNIT OF CLARK COUNTY, NEVADA)

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2022 AND 2021

Excluded from net patient revenue are charges foregone for uncompensated and charity care patient services. Based on established rates, gross charges of \$128 million were foregone during fiscal 2022, a 18.2% increase from fiscal 2021. The Hospital's level of uncompensated and charity care continues to reflect the Hospital's status as a safety net facility in the County.

In fiscal 2022, total operating expenses including OPEB and pension decreased by \$45.0 million, or 5.6%. The decrease was mainly due to \$57.7M decrease in OPEB and pension provision, being offset by \$12.7M increase in operating expense.

In fiscal 2022, employee compensation and benefits increased \$47.3 million, or 10.9%, primarily due to increases in bonus pay, registered nurses, paid time off, contract labor to cover nursing shifts, overtime pay, and retirement contributions. The number of paid FTEs increased by 1.7% from 3,424 in fiscal 2021 to 3,482 in fiscal 2022. There was no cost of living increase in fiscal 2021, but there was a 4.5% cost of living increase in fiscal 2022.

Professional fees for contracted physician services to provide coverage for emergency services, trauma services, and for indigent patients increased \$0.5 million, or 1.0%, in fiscal 2022. This is primarily due to a higher negotiated contract for hospitalists.

In fiscal 2022, the cost of supplies decreased by \$39.7 million, or 21.8%, primarily due to decreases in reagents related to COVID.

Purchased services expense decreased by \$0.04 million or 0.1% in fiscal 2022 primarily due to decrease in patient service desk activation service, COVID-19 testing service, eligibility and claims management services, courier services, and janitorial services.

Non-operating revenue (expense) consists of loss on the change of the investments, interest of other bonds, interest of capital leases, and disposals of fixed assets.

The County contributed a total of \$31 million to the Hospital in fiscal 2022 for additional capital equipment and hospital operation.

Net position increased \$77.8 million to a deficit of \$225.5 million in fiscal 2022 primarily due to the revenue from Provider Relief Fund and Coronavirus Relief Fund, contributions from the County, and the operating income.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2022 AND 2021

Fiscal 2021 Activity

In fiscal 2021, overall activity at the Hospital as measured by patient days adjusted for outpatient services increased by 11.9% to 196,435 compared to 175,548 in fiscal 2020. This increase was due primarily to a 12.6% increase in patient days which was offset by decreased outpatient visits.

In fiscal 2021, the Hospital had patient days and discharges of 127,632 and 19,674, respectively. This was an increase of 12.6% and a decrease of 4.5%, respectively, as compared to fiscal 2020. The decrease in discharges was due to a decrease in patient admissions from 20,588 to 19,761. Outpatient and emergency visits were 372,155 or 8.9% below 2020 levels of 408,343. The decrease in outpatient volume occurred primarily due to a decrease in Primary Care and Quick Care registrations of 10.2%, and emergency registrations of 9.2%.

In fiscal 2021, net patient revenue increased compared to fiscal 2020 by \$181.7 million due primarily to increased patient days.

Excluded from net patient revenue are charges foregone for uncompensated and charity care patient services. Based on established rates, gross charges of \$108.4 million were foregone during fiscal 2021, a 6.2% increase from fiscal 2020. The Hospital's level of uncompensated and charity care continues to reflect the Hospital's status as a safety net facility in the County.

In fiscal 2021, total operating expenses including OPEB increased by \$79.1 million, or 10.8%. The increase in operating expenses was mainly supplies increase and purchase services increase, offset by increased efficiencies and expense management.

In fiscal 2021, employee compensation and benefits including OPEB increased \$9.5 million, or 2.2%, primarily due to increase in contract labor to cover nursing shifts, increase in nursing incentive pay related to COVID-19 outbreak, and increase in overtime pay, offset by decrease in the number of paid FTEs, and decrease in pension provision. The number of paid FTEs decreased by 1.3% from 3,470 in fiscal 2020 to 3,424 in fiscal 2021. There was no cost of living increase in fiscal 2021.

Professional fees for contracted physician services to provide coverage for emergency services, trauma services, and for indigent patients decreased \$0.3 million, or 0.6%, in fiscal 2021. This decrease is due primarily to a decrease in UNLV resident program.

In fiscal 2021, the cost of supplies increased by \$53.3 million, or 41.4%, primarily due to pharmaceuticals increases and reagents increases.

Purchased services expense increased by \$12.5 million or 17.5% in fiscal 2021 primarily due to increase in provision for complimentary credit monitoring service, patient service desk activation service, COVID-19 testing service, and UNLV resident salaries and academic mission support.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2022 AND 2021

Non-operating revenue (expense) consists of interest income, revenue from Provider Relief Fund, Coronavirus Relief Fund, and non-operating expenses such as interest expense.

The County contributed a total of \$15 million to the Hospital in fiscal 2021 for additional capital equipment and hospital operation.

Net position increased \$61.3 million to a deficit of \$303.7 million in fiscal 2021 primarily due to the revenue from Provider Relief Fund and Coronavirus Relief Fund, contributions from the County, offset by the operating loss.

Capital Assets

During fiscal 2022 and 2021, the Hospital invested \$20.6 million and \$24.0 million, respectively, in a broad range of capital assets. Gross capital assets increased in fiscal 2022 due to an increase in the purchase of Jack London Building at Southern Highlands Primary Care, Tenant Improvements at Aliante Quick Care and Primary Care, Round Building & South Building Sanitary Lines, Hospital Wide Reusable Curtains, Zimmer Rosa Robot Knee System and 3M 360 Encompass System Software. Gross capital assets increased in fiscal 2021 due to an increase in the purchase of Philips Patient Monitoring Equipment, Azurion 7 M12 and M20 Image Guided Therapy Systems, Nuclear Medicine Cameras, AVEA Ventilators, EPIC Software, Honeywell EBI Building Controls.

The Hospital's fiscal 2023 capital budget includes up to \$31 million for capital projects, consisting of critical patient-related equipment replacement items, facility remodeling & repairs, IT software and infrastructure upgrades, operational equipment, and service line enhancements.

The Hospital is subject to several contracts and commitments relating to construction projects and services. These commitments are not expected to significantly affect the availability of fund resources for future use.

Long-Term Debt

At June 30, 2022 and 2021, the Hospital had \$6.6 million and \$12.9 million, respectively, in long-term debt, excluding the current portion thereof. This represented a decrease of \$6.3 million and \$6.2 million, respectively, from the outstanding balances at June 30, 2021, and June 30, 2020. Total outstanding debt represents 1.7% and 1.9% of the Hospital's total liabilities as of June 30, 2022 and 2021, respectively.

Economic Factors

The most recent unemployment statistics, as of August 2022, indicated that the unemployment rate for the Las Vegas, Nevada metropolitan area was 5.8%, which was a 1.9% decrease from a year ago. The unemployment rate for the State of Nevada and the United States was 5.2% and 3.8%, respectively.

Inflationary trends in the County are comparable to the United States national indices.

All of these factors affected the fiscal year 2022 operating and financial performance. The focus of management in the near term is to develop a multi-year plan that will emphasize revenue generation, cost control, fiscal discipline, capital requirements, and financing in support of net asset stability and a focus on the core services provided to patients.

1. Description of Reporting Entity and Summary of Significant Accounting Policies

Reporting Entity

University Medical Center of Southern Nevada (the Hospital), the public health care facility for Clark County, Nevada (the County), is a blended component unit of the County, and is reflected as an enterprise fund of the County. The Hospital is organized and operated by The Board of County Commissioners, ex officio, the Board of Hospital Trustees, per Chapter 450 of the Nevada Revised Statutes. The seven-member commission is elected from geographic districts on a partisan basis for staggered four-year terms. Commissioners elect a chairperson who serves as the Commission's presiding officer. In 2014 the Commissioners created the UMC Governing Board and selected 9 individuals from the community to serve on the board. The UMC Governing Board provides oversight of the Hospital and reports back to the Board of Hospital Trustees. As the Hospital is a component unit of the County, it is exempt from income tax and, accordingly, no provision for income taxes is required.

In accordance with GASB Statement No. 14, *The Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, the Hospital's financial statements are included, as a blended component unit, in the County's Annual Comprehensive Financial Report (ACFR). A copy of the ACFR can be obtained from Anna Danchik, Comptroller, 500 South Grand Parkway, Las Vegas, Nevada 89155.

CARES Act and Enhancement Act Funds

On March 27, 2020, former President Trump signed into law the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act” in response to the COVID-19 pandemic. The CARES Act, among other things, includes emergency funding – referred to as the “Provider Relief Fund and Coronavirus Relief Fund” - in the form of higher payments for hospitals that respond to COVID-19 by using existing mechanisms to distribute \$100 billion to hospitals and healthcare providers and to provide payments to State, Local, and Tribal governments navigating the impact of the COVID-19 outbreak to cover necessary expenses incurred due to the public health emergency with respect to COVID-19 that were not accounted for in the budget approved as of March 27, 2020 for the State or government from March 1, 2020 through December 31, 2021.

On April 24, 2020, former President Trump signed into law the “Paycheck Protection Program and Health Care Enhancement (Enhancement) Act.” The Enhancement Act, among other things, includes \$75 billion of additional funding for hospitals and healthcare providers.

Together, the CARES Act and the Enhancement Act include \$175 billion in funding to be distributed to eligible providers through the Public Health and Social Services Emergency Fund (the “Provider Relief Fund” or “PRF”). HHS has allocated Provider Relief Fund among eligible health care providers through three completed phases of general distributions and a number of targeted distributions beginning in April 2020. In September 2021, HHS announced an additional \$17 billion general distribution from the Provider Relief Fund that considers financial losses and changes in operating revenues and expenses, including expenses attributable to COVID-19, and payments already received through PRF distributions. The amount the Hospital may receive from this PRF distribution is unknown as of the date of this report.

The Hospital received \$11.97 million through various distributions from the Provider Relief Fund and Coronavirus Relief Fund during fiscal year 2022, recorded all of them as other non-operating revenue in fiscal year 2022, and continues to monitor eligibility for additional Provider Relief Funds and Coronavirus Relief Fund during fiscal year 2023. As the Provider Relief Funds and Coronavirus Relief Fund have not yet been fully allocated, management is unable to determine the amount of Provider Relief Funds and Coronavirus Relief Fund available to the Hospital in fiscal year 2023.

The CARES Act also alleviates some of the financial strain on hospitals, physicians, other healthcare providers and states through a series of Medicare and Medicaid payment policies that temporarily increase Medicare and Medicaid reimbursement and allow for added flexibility, as described below.

- Effective May 1, 2020 through December 31, 2021, the 2% sequestration reduction on Medicare fee for service (“FFS”) and payments to hospitals, physicians and other providers is suspended and will resume effective January 2022 as authorized by the Act to Prevent Across-the-Board Direct Spending Cuts, and for Other Purposes, signed into law on April 14, 2021. The suspension is financed by a one-year extension of the sequestration adjustment through 2030.
- The CARES Act instituted a 20% increase in the Medicare Severity Diagnosis Related Groups (“MS-DRG”) payment for confirmed COVID-19 hospital admissions for the duration of the public health emergency as declared by the Secretary of HHS.
- The CARES Act eliminated the scheduled nationwide reduction of \$4 billion in federal Medicaid Disproportionate Share Hospital (“DSH”) allotments to States in federal fiscal year (“FFY”) 2020 mandated by the Affordable Care Act and decreased the FFY 2021 Medicaid DSH reduction from \$8 billion to \$4 billion effective December 1, 2020. Legislation passed in October 2020 delayed the 2021 reduction through December 11, 2020. However, the Consolidated Appropriations Act, 2021 (“CCA”) eliminated the \$4 billion reduction for FFY 2021, the \$8 billion reduction for FFY 2022, and the \$8 billion reduction for FFY 2023. The reductions mandated by the Patient Protection and Affordable Care Act were set to be terminated at the end of FFY 2025, but the CCA added additional reductions of \$8 billion per year for FFY 2026 and FFY 2027.
- A 6.2% increase in the Federal Medical Assistance Percentage (“FMAP”) matching funds was instituted to help states respond to the COVID-19 pandemic. The additional funds are available to states from January 1, 2020 through the quarter in which the public health emergency period ends, provided that states meet certain conditions. An increase in states’ FMAP leverages Medicaid’s existing financing structure, which allows federal funds to be provided to states more quickly and efficiently than establishing a new program or allocating money from a new funding stream. Increased federal matching funds support states in responding to the increased need for services, such as testing and treatment during the COVID-19 public health emergency, as well as increased enrollment as more people lose income and qualify for Medicaid during the economic downturn.

On June 11, 2021, HHS issued a Post-Payment Notice of Reporting Requirements for the PRF that were disbursed under the CARES Act. This notice changed guidance that had been previously communicated. Key differences include the timeline for reporting and deadlines for use of funds as follows:

	Payment Received	Deadline to Use Funds	Reporting Time Period
Period 1	From April 10, 2020 to June 30, 2020	June 30, 2021	July 1 to September 30, 2021 (later extended to November 30, 2021)
Period 2	From July 1, 2020 to December 31, 2020	December 31, 2021	January 1 to March 31, 2022
Period 3	From January 1, 2021 to June 30, 2021	June 30, 2022	July 1 to September 30, 2022
Period 4	From July 1, 2021 to December 31, 2021	December 31, 2022	January 1 to March 31, 2023

The definitions included in the Post-Payment Notice of Reporting Requirements may be subject to change or further interpretation. Management will continue to evaluate and monitor compliance with the terms and conditions.

HHS has also used funds appropriated to the Provider Relief Fund and the Families First Coronavirus Response Act (“FFCRA”) to provide claims reimbursement to health care providers for testing uninsured individuals for COVID-19, treating uninsured individuals with a primary COVID-19 diagnosis, and administering a COVID-19 vaccine to uninsured individuals. The COVID-19 uninsured program is administered through HHS’s Health Resources & Services Administration (“HRSA”) and began providing reimbursement in May of 2020. Generally, reimbursements under this program are set at Medicare FFS rates, exclusive of the 20% increase in the MS-DRG payment for confirmed COVID-19 hospital admissions under the CARES Act.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. The extent of its impact on the Hospital’s operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on patients, employees, and vendors, and the scope of the Federal response, all of which are uncertain and cannot be predicted. Given these uncertainties, management cannot reasonably estimate the related impact to the Hospital’s business, operating results, or financial condition in fiscal year 2023.

(continued)**

Summary of Significant Accounting Policies

The financial statements of the Hospital are prepared under accounting principles generally accepted in the United States applicable to state and local governmental entities on the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred. Substantially all revenues and expenses are subject to accrual.

The Hospital is accounted for as a proprietary fund (enterprise fund) using the flow of economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the Hospital's operations are included in the *Statement of Net Position (Deficit)*. Revenue is recognized in the period in which it is earned and expenses are recognized in the period in which incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates.

Cash, Cash Equivalents, and Investments

Cash equivalents include investments in highly liquid debt instruments with an original maturity of three months or less at date of purchase, excluding amounts held under trust agreements. The Hospital's restricted and unrestricted cash is deposited with the County Treasurer (the Treasurer) in a fund similar to an external investment pool that is reported at fair value. Because the amounts deposited with the Treasurer are sufficiently liquid to permit withdrawals in the form of cash at any time without prior notice or penalty, they are deemed to be cash equivalents. GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, requires the County to adjust the carrying amount of its investment portfolio to reflect the change in fair or market values. Interest revenue is increased or decreased in relation to this adjustment of unrealized gain or loss. Net interest income reflects this positive or negative market value adjustment. Financial information required by GASB Statement No. 3, No. 40 and No. 72 regarding the accounting and financial reporting for the Hospital's investment pool, held by the Clark County Treasurer, has been disclosed in the Clark County Annual Comprehensive Financial Report (ACFR) for the years ended June 30, 2022, and June 30, 2021.

Inventories

Inventories, consisting primarily of medical supplies and pharmaceuticals, are stated at the lower of cost or market, generally determined on the first-in, first-out method.

Restricted Assets

Restricted assets are cash and cash equivalents and investments whose use is limited by legal or other requirements. Restricted cash and cash equivalents represent monies received from donors or grantors to be used for specific purposes, as well as the Hospital's proportionate share of collateral assets held under securities lending transactions and those whose purpose was limited by the contributor and/or grantor. The Hospital has elected to use restricted assets before unrestricted assets when an expense is incurred for a purpose for which both resources are available.

Capital Assets

Capital assets are stated at historical cost or, if donated, at estimated fair value at the date of the gift. Capital assets are defined by the Hospital as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Depreciation and amortization of assets are recorded in amounts sufficient to amortize the cost of the related assets over their estimated useful lives using the straight-line method. The following are the most commonly used estimated useful lives:

Buildings	10-40 years
Building improvements	5-20 years
Equipment	3-20 years
Land improvements	15 years
Furniture and fixtures	5 years

Expenditures that substantially increase the useful lives or functionality of existing assets are capitalized. Routine maintenance, repairs, and minor improvements are expensed as incurred. The cost of property retired and related accumulated depreciation is removed from the accounts, and any gain or loss recognized in non-operating revenues (expenses).

Management reviews the recoverability of its capital assets in accordance with the provisions of GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and Insurance Recoveries*. GASB Statement No. 42 requires recognition of impairment of long-lived assets in the event the asset's service utility has declined significantly and unexpectedly. Accordingly, management evaluates assets' utility annually or when an event occurs that may impair recoverability of the asset. No impairments were identified as of June 30, 2022.

Leases

Lessee:

The Hospital is party to multiple leases of nonfinancial assets as a lessee. The Hospital recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the financial statements.

At the commencement of a lease, the Hospital initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the Hospital determines (1) the discount rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The Hospital uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Hospital generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Hospital is reasonably certain to exercise.

The Hospital monitors changes in circumstances that would require a remeasurement of its leases and will remeasure lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of any lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor:

The Hospital has leased to third-parties multiple nonfinancial assets. The Hospital recognizes a lease receivable and a deferred inflow of resources in its financial statements where applicable.

At the commencement of the lease, the Hospital initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments receivable. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the Hospital determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts. The Hospital uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee. The Hospital monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Bond and Debt Issue Costs

Financing costs represent debt issuance expenses on long-term debt obligations and are expensed as incurred in accordance with GASB No. 65.

Cost of Borrowing

Interest costs incurred on debt during the construction or acquisition of assets are capitalized as a component of the cost of acquiring those assets. No capitalized interest was recorded in fiscal 2022 and 2021.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period and is not recognized as expense until then. In the Hospital financial statements, unamortized loss on refunding and pension and OPEB contributions are reported as a deferred

outflow of resources. The unamortized loss on refunding results from the difference between the reacquisition price and the net carrying amount of the refunded debt. This amount is deferred and amortized over the life of the refunding debt. The pension and OPEB contributions in deferred outflows are related to those contributions made after the measurement period.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources until that time. In the Hospital financial statements, future resources yet to be recognized in relation to the pension and OPEB actuarial calculations are reported as deferred inflow of resources. These future resources arise from differences in the estimates used by the actuary to calculate the pension and OPEB liability and the actual results. The amounts are amortized over a predetermined period.

Postemployment Benefits Other Than Pensions

For purposes of measuring the Hospital's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Plans and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Compensated Absences

It is the Hospital's policy to permit employees to accumulate earned, but unused vacation and sick leave benefits. Such benefits were accrued when incurred as a current liability in both fiscal 2022 and 2021.

Self-Insured Liability

The self-insured liability represents the provision for estimated self-insured professional liability claims, general liability claims, and workers' compensation claims. The provision includes estimates of the ultimate costs for both reported claims and claims incurred but not reported based on the recommendations of an independent actuary.

Net Position (Deficit)

GASB Statement No. 34 requires the classification of net position (deficit) into three components: net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- Net investment in capital assets: This component of net position (deficit) consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted: This component of net position (deficit) results from restrictions placed on net position (deficit) use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted: This component of net position (deficit) consists of all net position (deficit) that do not meet the definition of restricted or net investment in capital assets.

Statements of Revenues, Expenses, and Changes in Net Position (Deficit)

All revenues and expenses directly related to the delivery of health care services are included in operating revenues and expenses in the *Statements of Revenues, Expenses, and Changes in Net Position (Deficit)*. Nonoperating revenues and expenses consist of those revenues and expenses that are related to financing and investing activities, non-exchange transactions, or investment income.

Net Patient Revenue, Accounts Receivable, and Allowance for Uncollectible Accounts

Net patient revenue is reported at the estimated realizable amount from patients, third-party payers, and others for services provided including the provision for bad debts and includes estimated retroactive adjustments under reimbursement agreements with third-party payers. Revenue under certain third-party payer agreements is subject to audit, retroactive adjustments, and significant regulatory actions. Provisions for third-party settlements and adjustments are estimated in the period the related services are provided and adjusted in future periods as additional information becomes available and as final settlements are determined.

As part of the Hospital's mission to serve the community, the Hospital provides care to patients even though they may lack adequate insurance or may participate in programs that do not pay established rates. Uncompensated care is defined as write-offs on patient accounts without insurance payment. Charity care is a subset of uncompensated care representing those patients that are approved by the Hospital for a discount under its charity policy guidelines. Throughout the admission, billing, and collection processes, certain patients are identified by the Hospital as indigent or qualifying for charity care. The Hospital provides care to these patients without charge or at amounts less than its established rates or actual costs. Net patient revenue is reflected net of the charity care reserves. Charity care reserves are based on gross revenue foregone. The actual costs for charity care in accordance with the Hospital's charity care policy aggregated approximately \$25,285,501 and \$23,730,686 for the years ending June 30, 2022 and 2021, respectively. The Hospital has estimated the cost of charity care based on a ratio of cost to charges of operating expenses excluding interest expense.

The Hospital has agreements with third-party payers that provide for payment at amounts different from established charge rates. A summary of the basis of payment by major third-party payers follows:

- Medicare and Medicaid: The Hospital renders services to patients under contractual arrangements with the U.S. Federal Medicare and the State of Nevada (State) Medicaid programs. Inpatient acute care services rendered to Medicare and Medicaid program beneficiaries and Medicare capital costs are paid at prospectively determined rates-per-discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. As an academic medical center, medical education payments in addition to disproportionate share entitlements are received from Medicare and Medicaid. Medicare utilizes a prospective payment system for inpatient rehabilitation services and psychiatric services.

Medicare outpatient claims are reimbursed under the Ambulatory Payment Classification based prospective payment system. The payments are based on patient assessment data classifying patients into one of the Medicare Ambulatory Payment Classifications. Inpatient rehabilitation and psychiatric services are reimbursed at a prospectively determined per diem rate. Certain outpatient services related to Medicare beneficiaries and capital costs for Medicaid beneficiaries are reimbursed based on a cost-based methodology subject to certain limitations. The Hospital is reimbursed for cost reimbursable items at tentative rates with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare and Medicaid fiscal intermediaries.

The Hospital's classification of patients under the Medicare and Medicaid programs and the appropriateness of their admission, and therefore, the revenues received are subject to an independent review and retroactive adjustment. Differences between the estimated amounts accrued at interim and final settlements are reported in the *Statement of Revenues, Expenses, and Changes in Net Position (Deficit)* in the year of settlement. Medicare cost reports have been finalized through fiscal year 2018. Provisions for estimated retroactive adjustments for cost report years that have not been finalized have been provided, where applicable. The Hospital recorded a favorable adjustment \$3,120,752 in fiscal 2022, and a favorable adjustment of \$2,356,520 in fiscal 2021, respectively, due to prior year retroactive adjustments to amounts previously estimated and changes in estimates.

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, governmental program participation, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as repayment of patient services previously billed. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs unknown or unasserted at this time. As a result, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Management believes that the Hospital is in compliance with fraud and abuse statutes, as well as other applicable government laws and regulations, and that adequate provision has been made in the financial statements for any adjustments that may result from final settlements.

- Upper payment limit: On September 22, 2002, the amendment to the State Medicaid program to allow for supplemental Medicaid payments as provided under federal regulations, referred to as the Upper Payment Limit program (UPL), was approved by the Center for Medicare and Medicaid Services (CMS). Effective January 1, 2003, the amendment revised the State's plan to provide access to supplemental Medicaid payments up to 100% of the Medicare upper payment limits for inpatient hospital services rendered by public hospitals in the State to State Medicaid consumers. The State fiscal 2015 budget also included an expansion of the UPL program to outpatient services.

These funds are distributed prospectively on a quarterly basis. Funding for the UPL program is generated through intergovernmental transfers and matching funds from the federal government. The gross amount recorded in net patient revenue for UPL and Indigent Accident Fund (IAF) was \$99,580,500 and \$96,229,511 in fiscal 2022 and 2021, respectively. As of June 30, 2022 and 2021, \$40,914,417 and \$85,603,296, respectively, were recorded as receivable.

- Disproportionate share: As a public health care provider, the Hospital renders services to residents of the County and others regardless of ability to pay. The Hospital is classified as a disproportionate share provider by the Medicare and Medicaid programs due to the volume of low-income patients it serves. Accordingly, the Hospital receives additional payments from these programs as a result of this status totaling \$67,320,016 and \$65,405,579 in fiscal 2022 and 2021, respectively, which are included in net patient revenue. As of June 30, 2022 and 2021, the Hospital has reserved approximately \$46,989,417 and \$87,481,348, respectively, for possible future adjustments, which is reflected in intergovernmental liabilities on the accompanying statements of net position (deficit). Normal estimation differences between final settlements and amounts accrued in previous periods are reflected in net patient revenues in the period of settlement. These estimation differences between final settlements and amounts previously accrued results in an increase of \$6,042,873 and a decrease of \$14,711,401, respectively, in net patient revenues during the years ended June 30, 2022 and 2021. Funding for the disproportionate share program is generated through intergovernmental transfers and matching funds from the federal government. The Hospital also provides major trauma services to the region, and the ability to continue these levels of service and programs is contingent upon the continuation of various funding sources.
- Other payers: The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes prospectively-determined rates-per-discharge, discounts from established charges, and prospectively-determined per diem rates.

The approximate percentage of gross patient revenues by major payer group for the fiscal years ended June 30 follows:

	2022	2021
Medicare	30 %	28 %
Medicaid, and self-pay	43	43
Commercial, HMO, PPO	22	24
Other	5	5
Total	100 %	100 %

The provision for bad debts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payer category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for bad debts to establish an appropriate allowance for uncollectible accounts. Extensive efforts are made to collect all amounts owed to the Hospital. Several avenues are pursued including direct collections efforts, assistance in finding pay sources, and assistance in compliance with the County's uninsured discount program. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Hospital follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by the Hospital. These accounts are then followed up by collection agencies.

For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for bad debts, allowance for contractual adjustments, provision for bad debts, and contractual adjustments on accounts for which the third-party payor has not yet paid or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely. For receivables associated with self-pay patients or with balances remaining after the third-party coverage has already paid, the Hospital records a significant provision for bad debts in the period of services on the basis of its historical collections, which indicates that many patients ultimately do not pay the portion of their

bill for which they are financially responsible. The difference between the discounted rates and the amounts collected after all reasonable collection efforts have been exhausted is charged off against the allowance for bad debts. The change in the allowance for bad debts was as follows for the fiscal years ended June 30:

	2022	2021
Reserve-Beginning Balance	\$ (117,230,581)	\$ (116,761,520)
Provision	(183,355,767)	(157,708,462)

Reserve-Ending Balance	<u>\$ (142,568,563)</u>	<u>\$ (117,230,581)</u>

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer arrangements. Significant concentrations of patient accounts receivable at June 30, 2022 and 2021 include:

	2022	2021
Medicare	20 %	20 %
Medicaid, and self-pay	46	42

Grants and Contributions

The Hospital receives financial assistance from federal agencies, the State, and the County, in the form of grants, as well as contributions from individuals and private organizations. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes and are reported as other operating revenues.

Other such audits could be undertaken by federal and state granting agencies and result in the disallowance of claims and expenditures; however, in the opinion of management, any such

disallowed claims or expenditures will not have a material effect on the overall financial position of the Hospital.

Defined Benefit Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (NVPERS) and additions to/deductions from NVPERS fiduciary net position have been determined on the same basis as they are reported by NVPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Concentrations of Credit and Economic Risks and Uncertainties

Financial instruments that potentially subject the Hospital to concentrations of credit risk consist principally of cash and cash equivalents, patient accounts receivable, and investments.

The Hospital's cash and cash equivalents on deposit with financial institutions, including cash and cash equivalents in the custody of the Treasurer or a fiscal agent, are often in excess of federally insured limits, and the risk of losses related to such concentrations may be increasing as a result of continuing economic conditions including, but not limited to, weakness in the commercial and investment banking systems. The extent of a future loss, if any, to be sustained as a result of uninsured deposits in the event of a future failure of a financial institution; however, is not subject to estimation at this time.

Concentration of credit risk relating to patient accounts receivable is limited to some extent by the diversity and number of the Hospital's patients and payers. Patient accounts receivable consist of amounts due from government programs, commercial insurance companies, private pay patients, and other group insurance programs. One payer source, self-pay, comprises approximately 17% and 17% of gross patient accounts receivable at June 30, 2022 and 2021, respectively. The Hospital maintains an allowance for losses based on the expected collectability of patient accounts receivable.

Because the Hospital operates in the health care industry exclusively in southern Nevada, realization of its receivables, inventories, and its future operations could be affected by adverse economic conditions in the area. In addition, the Hospital receives the majority of its supplies

from a limited number of suppliers and any reduction or interruption of such sources could adversely affect future operations. The majority of the Hospital's employees are covered by collective bargaining agreements entered into with the Service Employee International Union (SEIU) and the International Union of Operating Engineers (IUOE). The SEIU updated contract was ratified, effective on November 3, 2020 and will expire on June 30, 2024. The IUOE contract was updated and ratified on April 13, 2017, and was retroactively effective on July 1, 2016. The IUOE contract expired on June 30, 2020, however the Hospital and the IUOE are currently in negotiations to update the contract.

Subsequent Events

The Hospital evaluates the impact of subsequent events, which are events that occur after the statement of net position (deficit) date but before the financial statements are issued, for potential recognition in the financial statements as of the statement of net position date. For the year ended June 30, 2022, the Hospital evaluated subsequent events through December 2, 2022, representing the date the accompanying audited financial statements were issued. During this period the Hospital determined there were no subsequent events that needed to be disclosed.

2. Recent Accounting Pronouncements

The GASB has recently issued the following statements, which the Hospital is assessing the impact of the implementation, if any, on its financial statements.

Statement No. 91, *Conduit debt obligations*

- This standard will provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.
- A conduit debt obligation is defined as a debt instrument having all of the following characteristics:
 - There are at least three parties involved: (1) an issuer, (2) a third-party obligor, and (3) a debt holder or a debt trustee.
 - The issuer and the third-party obligor are not within the same financial reporting entity.
 - The debt obligation is not a parity bond of the issuer, nor is it cross-collateralized with other debt of the issuer.
 - The third-party obligor or its agent, not the issuer, ultimately receives the proceeds from the debt issuance.
 - The third-party obligor, not the issuer, is primarily obligated for the payment of all amounts associated with the debt obligation (debt service payments).
- All conduit debt obligations involve the issuer making a limited commitment.
- An issuer should not recognize a conduit debt obligation as a liability. However, an issuer should recognize a liability associated with an additional commitment or a voluntary commitment to support debt service if certain recognition criteria are met.
- This statement also addresses arrangements-often characterized as leases-that are associated with conduit debt obligations.
- This statement requires issuers to disclose general information about their conduit debt obligations.
- Expected effective date: Year ending June 30, 2023, and Management is still evaluating the impact of this Statement.

2. Recent Accounting Pronouncements (continued)

GASB Statement No. 94, Public-private and Public-public partnerships and availability payment arrangements

- This statement will improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs).
- A PPP is an arrangement in which a government contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction.
- Some PPPs meet the definition of a service concession arrangement (SCA), which is a PPP in which (1) The operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.
- This statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.
- This Statement is effective for reporting periods beginning after June 15, 2022 which will be the Hospital's fiscal year ending June 30, 2023. Management is still evaluating the impact of this Statement.

GASB Statement No. 96, Subscription-Based information Technology Arrangements

- This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments).
- A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.
- A government generally should recognize a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2022 AND 2021

2. Recent Accounting Pronouncements (continued)

- Activities associated with a SBITA, other than making subscription payments, should be grouped into the following three stages, and their costs should be accounted for accordingly: (1) Preliminary Project Stage, including activities such as evaluating alternatives, determining needed technology, and selecting a SBITA vendor. Outlays in this stage should be expensed as incurred; (2) Initial Implementation Stage, including all ancillary charges necessary to place the subscription asset into service. Outlays in this stage generally should be capitalized as an addition to the subscription asset; (3) Operation and Additional Implementation Stage, including activities such as subsequent implementation activities, maintenance, and other activities for a government's ongoing operations related to a SBITA. Outlays in this stage should be expensed as incurred unless they meet specific capitalization criteria. If a SBITA contract contains multiple components, a government should account for each component as a separate SBITA or nonsubscription component and allocate the contract price to the different components.
- This Statement provides an exception for short-term SBITAs, those having a maximum possible term of 12 months (or less), including any options to extend, regardless of their probability of being exercised. These SBITAs should be recognized as outflows of resources.
- This Statement requires a government to disclose descriptive information about its SBITAs other than short-term SBITAs, such as the amount of the subscription asset, accumulated amortization, other payments not included in the measurement of a subscription liability, principal and interest requirements for the subscription liability, and other essential information.
- This Statement is effective for reporting periods beginning after June 15, 2022 which will be the Hospital's fiscal year ending June 30, 2023. Management is still evaluating the impact of this Statement.

GASB Statement No. 97, Certain component unit criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans

- This Statement (1) requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities.

As a result, investments of all Section 457 plans should be measured as of the end of the plan's reporting period in all circumstances.
- This Statement is effective for reporting periods beginning after December 15, 2021 which will be the Hospital's fiscal year ending June 30, 2023. The Hospital participates in a State Pension Plan and Management has determined there is no impact of this Statement.

GASB Statement No. 99, *Omnibus 2022*

- This Statement address practice issues identified during implementation and application of certain GASB Statements and accounting and financial reporting for financial guarantees.
- Effective Upon Statement Issuance – April 2022:
 - Extension of the period during which LIBOR is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt
 - Accounting of benefits distributed as part of the Supplemental Nutrition Assistance Program (SNAP)

- As part of those descriptions, for (1) certain changes in accounting principles and (2) certain changes in accounting estimates that result from a change in measurement methodology, a new principle or methodology should be justified on the basis that it is preferable to the principle or methodology used before the change. That preferability should be based on the qualitative characteristics of financial reporting—understandability, reliability, relevance, timeliness, consistency, and comparability.
- This Statement also addresses corrections of errors in previously issued financial statements.
- This Statement requires that:
 - changes in accounting principles and error corrections be reported retroactively by restating prior periods,
 - changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and
 - changes in accounting estimates be reported prospectively by recognizing the change in the current period.

 - the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means.
- Leave that is more likely than not to be settled through conversion to defined benefit postemployment benefits should not be included in a liability for compensated absences.
- Statement No. 101 requires that a liability for certain types of compensated absences, including parental leave, military leave, and jury duty leave, not be recognized until the leave commences.

- This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary-related payments that are directly and incrementally associated with payments for leave also should be included in the measurement of the liabilities.
- With respect to financial statements prepared using the current financial resources measurement focus, Statement No. 101 requires that expenditures be recognized for the amount that normally would be liquidated with expendable available financial resources.
- Statement No. 101 amends the existing requirement to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (as long as they identify it as a net change). 3. Cash, Cash Equivalents, and Investments

Substantially all cash (including cash equivalents) and investments of the Hospital are under control of the Treasurer and are included in the Treasurer's investment pool. The Hospital's cash and investments generally are reported at fair value, as discussed in note 1. As of June 30, 2022 and 2021, these amounts were as follows:

	2022	2021
Clark County investment pool	\$ 262,417,859	\$ 220,356,087
Cash on hand	16,636	16,600
Total cash and investments	<u>\$ 262,434,495</u>	<u>\$ 220,372,687</u>

The Treasurer invests monies held both by individual funds and through a pooling of monies. The pooled monies, referred to as the investment pool, are invested as a whole and not as a combination of monies from each fund belonging to the pool. In this manner, the Treasurer is able to invest the monies at a higher interest rate for a longer period of time. Interest is apportioned monthly to each fund in the pool based on the average daily cash balance of the fund for the month.

According to Statutes, County monies must be deposited with federally insured banks, credit unions, or savings and loan associations within the County. The Treasurer is authorized to use demand accounts, time accounts, and certificates of deposit. Statutes do not specifically require collateral for demand deposits, but do specify that collateral for time deposits may be of the same type as those described for permissible investments. Permissible investments are similar to allowable County investments described below, except that statutes permit a longer term and include securities issued by municipalities within Nevada. The County's deposits are fully covered by federal depository insurance or collateral held by the County's agent in the County's name. The County has written custodial agreements with the various financial institutions' trust banks for demand deposits and certificates of deposit. These custodial agreements pledge securities totaling 102% of the deposits with each financial institution. The County has a written agreement with the State Treasurer for monitoring the collateral maintained by the County's depository institutions.

Due to the nature of the investment pool, it is not possible to separately identify any specific investment as being that of the Hospital. It is not feasible to allocate the level of risk to the various component units of the County, including the Hospital, due to the co-mingling of assets in the investment pool. Details on the County investment policies including the level of risk are included in the Clark County Annual Comprehensive Financial Report. Instead, the Hospital owns a proportionate share of each investment, based on the Hospital's participation percentage in the investment pool. As of June 30, 2022 and 2021, \$262,417,859 and \$220,356,087, respectively, of Hospital investments in the investment pool were as follows:

Credit Risk

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's investment policy applies a prudent-person rule, which is: "In investing the County's monies, there shall be exercised the judgment and care under the circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

As of June 30, 2022 and 2021, the County's investments were rated by Standard and Poor's and Moody's Investors Service, respectively, as follows:

The County investments in U.S. Treasury obligations carry no measurable credit risk because they are backed by the U.S. federal government. The State Investment Pool does not have a credit rating.

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's investment policy limits the amount that may be invested in obligations of any one issuer, except direct obligations of the U.S. government or federal agencies, to be no more than 5% of the County investment pool. At June 30, 2022 and 2021, the following investments exceeded 5% of the investment pool:

Interest Rate Risk

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of an investment. Through its investment policy, the County manages its exposure to fair value losses arising from increasing interest rates by limiting the weighted average duration of its investment portfolio to less than 2.5 years. Duration is a measure of the present value of a fixed income's cash flows and is used to estimate the sensitivity of a security's price to interest rate changes. Accordingly, the County's investment policy limits investment portfolio maturities for certain investment instruments as follows: U.S. Treasury and U.S. agencies to less than ten years; bankers' acceptances to 180 days; commercial paper to 270 days; certificates of deposit to one year; corporate notes and bonds to five years; and repurchase agreements to 90 days.

Interest Rate Sensitivity

At June 30, 2022 and 2021, the County invested in the following types of securities that have a higher sensitivity to interest rates, which represented 27% and 13%, respectively, of total investment securities.

- Callable securities are directly affected by the movement of interest rates. Callable securities allow the issuer to redeem or call a security before maturity, generally on coupon dates.
- Step-up/step-down securities have fixed rate coupons for a specific time interval that will step-up or step-down a predetermined number of basis points at scheduled coupon or other reset dates. These securities are callable one time or on their coupon dates.
- Fix-to-floating rate notes have fixed rate coupons for a specified period of time, then a variable rate coupon for the remaining life of the security. The variable rate is generally based on the three-month LIBOR plus 125 basis points. In some cases, interest rate caps are reset higher annually. These securities are callable, generally on their coupon dates.
- CPI floaters have variable rate coupons based on the Consumer Price Index Year-Over-Year index plus 114 basis points. This rate resets and pays a coupon monthly.
- Range notes have fixed rate coupons based on the three-month LIBOR staying within a range for a time period, generally one year. If the three-month LIBOR is within the predetermined range for a specified time period, the coupon rate is reset at a higher rate at periodic intervals. If the three-month LIBOR is out of the predetermined range, then coupon rate is reset to a floor rate of 1%. These securities are also callable on their coupon dates.

On September 9, 2013, Clark County, Nevada issued \$26,065,000 in General Obligation (Limited Tax) Hospital Refunding Bonds (the 2013 Bonds) with an interest rate of 3.10%, which are collateralized with pledge gross revenues. The proceeds of the bonds were used to: (i) refund \$8,585,000 aggregate principle amount of the County's General Obligation Hospital Improvement and Refunding Bonds, Series 2003; (ii) refund \$17,920,000 aggregate principle amount of the County's General Obligation Hospital Refunding Bonds, Series 2007; (iii) pay the cost of issuing the 2013 Bonds. As a result, the previously outstanding refunded bonds are considered to be defeased and the liabilities for those bonds have been extinguished. The aggregate difference in debt service between the refunded debt and the refunding debt was \$125,000. As a result of the advance refunding, the Hospital reduced its total debt service requirements by \$2,884,644 which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$2,455,999. The issuance of the 2013 Bonds resulted in a deferred loss of \$513,998, which will be amortized over the life of the new bonds. Principal and interest of the 2013 Bonds are due semiannually on March 1st and September 1st. All required payments on the bonds are guaranteed by Clark County, Nevada in the event that the Hospital is unable to make required payments. The Bonds mature in fiscal 2024.

The Hospital's general obligation bond ordinances contain the usual and customary covenants associated with such bonds. Management believes it is in compliance with all such covenants.

The Tax Reform Act of 1986 imposes an arbitrage rebate requirement with respect to bonds issued by the County. Under this act, an amount may be required to be rebated to the United States Treasury, so that all interest on the bonds qualifies for exclusion from gross income for federal income tax purposes. The Hospital is current on all required arbitrage payments. As of June 30, 2022 and 2021, there is no estimated potential arbitrage liability.

Liability Insurance

The Hospital is exposed to various risks of loss related to theft of, damage to and destruction of assets, errors and omissions, injuries to employees and patients, and natural disasters. These risks are covered by the Hospital's self-insured professional and general liability insurance policy, commercial insurance purchased from independent third parties, and the County's worker's compensation program. Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years.

On January 20, 1987, the Board approved self-insured professional and general liability and workers' compensation insurance programs. In lieu of maintaining insurance coverage, the Board created the professional and general liability fund and the workers' compensation fund. The Hospital has accrued an undiscounted liability for estimated future settlements and claims losses for professional liability, general liability, and workers' compensation using its best estimate of these losses in accordance with actuarially determined amounts. Included in internally designated restricted assets, the Hospital has funded \$15,686,622 and \$15,844,640 at June 30, 2022 and 2021, of the accrued liability of \$13,874,305 and \$12,285,224, respectively. In the opinion of management, there are no claims or lawsuits asserted or unasserted that would not be adequately covered by insurance and/or the professional and general liability accrual.

For the years ended June 30, 2022 and 2021, the Hospital received \$1,696,203 and \$2,471,943, respectively, for such care. 10. Employee Benefits Plans

Retirement Plan

Substantially all of the Hospital's employees are participants in a retirement plan (the Plan) that is part of the Public Employees' Retirement System (PERS) for public employees in the State. The Plan was established on July 1, 1948, by the Legislature and is governed by the Public Employees' Retirement Board whose seven members are appointed by the Governor. All public employees who meet certain eligibility requirements may participate in the Plan. The Plan is a cost sharing, multiple-employer, defined benefit plan of PERS.

The Hospital does not exercise any control over the Plan and NRS 286.110 states, "Respective participating public employers are not liable for any obligation of the system." Benefits, as required by State Statute, are determined by the number of years of credited service at the time of retirement and the participants' highest average compensation in any 36 consecutive months. Benefit payments to which participants may be entitled under the Plan include pension benefits, disability benefits, and death benefits.

Monthly benefit allowances for regular participants are computed at 2.25% (on or after July 1, 2015), 2.5% (January 1, 2010 – June 30, 2015), 2.67% (July 1, 2001 – December 31, 2009), and 2.5% (prior to July 1, 2001) of average compensation (average of 36 consecutive months of highest compensation) for each credited year of service prior to retirement up to a maximum of 90% of the average compensation for employees entering the system prior to July 1, 1985, and 75% for those entering after that date. The Plan offers several alternatives to the unmodified service retirement benefit which, in general, allows the retired employee to accept a reduced service retirement benefit payable monthly during the employee's life and various optional monthly payments to a named beneficiary after the employee's death. Regular members entering the system prior to January 1, 2010 are eligible for retirement benefits at age 65 with 5 years of service, at age 60 with 10 years of service or at any age with 30 years of service. Regular members entering the system on or after January 1, 2010 are eligible for retirement benefits at age 65 with 5 years of service, or age 62 with 10 years of service or at any age with 30 years of service. Regular members entering the system on or after July 1, 2015 are eligible for retirement benefits at age 65 with 5 years of service, at age 62 with 10 years of service or at age 55 with 30 years of service or at any age with 33 1/3 years of service.

NRS 286.410 establishes the required contribution rates and provides for yearly increases until such time as the actuarially determined unfunded liability of the Plan is reduced to zero. The Hospital is obligated to contribute all amounts due under the Plan. The contribution rate, based on covered payroll, was 29.75%, 29.25% and 29.25% for each of three years ended June 30, 2022, 2021, and 2020, respectively.

Pension Liabilities

At June 30, 2022, the Hospital reported a liability of \$313,924,210 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Hospital's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At June 20, 2021, the Hospital's proportion was 3.44 percent.

At June 30, 2021, the Hospital reported a liability of \$510,283,540 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Hospital's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Investment Rate of Return	7.25%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.20% to 9.10%, depending on service, Rates include inflation and productivity increases

Actuarial assumptions used in the June 30, 2021 valuation were based on the results of the experience review completed in 2020.

The discount rate used to measure the total pensions liability was 7.25%, 7.50%, and 7.50% as of June 30, 2021, June 30, 2020, and June 30, 2019, respectively. The projection of cash flow used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on the assumption, the pensions plans' fiduciary net position at June 30, 2021, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension

Postemployment Benefits Other Than Pensions (OPEB)

Plan Description: The Hospital subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), a non-trust, agent multiple-employer defined benefit postemployment healthcare plan administered by the State of Nevada. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to future retirees, however, district employees who previously met the eligibility requirement for retirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under the PEBP with a subsidy provided by the Health District as determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV, 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm.

The Retiree Health Program Plan (RHPP) is a non-trust, single-employer defined benefit postemployment healthcare plan administered by Clark County, Nevada. Retirees may choose between Clark County Self-Funded Group Medical and Dental Benefits Plan (Self-Funded Plan) and a health maintenance organization (HMO) plan.

- The trend rates were reset to an initial rate of 6.75% (5.75% for post-Medicare), grading down by 0.25% per year until reaching the ultimate rate of 4.00% based on current Healthcare Analytics (HCA) Consulting trend study; current economic environment suggests a longer period until reaching the ultimate rate.
- The mortality tables were updated to utilize the Pub-2010 table with the MP-2020 improvement scales (previously the RP-2014 with MP-2018 scales).
- The marriage assumption is updated to 30% based on the current retiree population data.

Litigation

The Hospital is involved in litigation and regulatory investigations arising in the ordinary course of business. The Hospital does not accrue for estimated future legal and defense costs, if any, to be incurred in connection with outstanding or threatened litigation and other disputed matters, but rather records such as period costs when services are rendered.

HIPAA

The Health Insurance Portability and Accountability Act ("HIPAA") was enacted on August 21, 1996, to assure health insurance portability, reduce healthcare fraud and abuse, guarantee security and privacy of health information, and enforce standards for health information. Effective August 2009, the Health Information Technology for Economic and Clinical Health Act ("HITECH Act") was introduced imposing notification requirements in the event of certain security breaches relating to protected health information. Organizations are subject to significant fines and penalties if found not to be compliant with the provisions outlined in these laws and accompanying regulations.

Cyber Security Incident

During June 2021 the Hospital's cyber security team recognized suspicious activity on the Hospital's computer network and responded by immediately restricting external access to its computer servers. The Hospital worked with law enforcement and cyber-security professionals to investigate this activity. Based upon this investigation, the Hospital believes cybercriminals accessed a server used to store data. This type of attack has become increasingly common in the health care industry, with hospitals across the world experiencing similar situations. The cyber-attack and internal response did not result in disruptions to patient care of the Hospital's clinical systems.

Although the Hospital has no reason to believe cybercriminals accessed any clinical systems, in accordance with applicable federal regulations, the Hospital notified patients and employees that their personal information may be at risk. The Hospital provided patients and staff with access to complimentary identity protection and credit monitoring services and contacted patients and staff directly to provide information about how to access the complimentary services.

11. Commitments and Contingencies (continued)

As of June 30, 2021, a \$5.0 million liability was accrued for potential future expense related to this incident. As of the date of this report, a total of \$1,544,980 in expense related to the Cyber Security Incident has been incurred since June 30, 2021, leaving \$3.5 million as liability as of June 30, 2022.

Subsequent to June 30, 2021, there were two class action lawsuits filed, against the Hospital, as a result of the cyber incident. The Hospital has filed a motion to dismiss in both cases. The liability is not probable or estimable at the time the financial statements are available to be issued, and as such, the Hospital cannot predict whether it will have a material impact on the financial statements.

12. Revision of Previously Issued Financial Statements for Correction of Immaterial Errors

Subsequent to the issuance of the Hospital's audited financial statements for the year ended June 30, 2021, the Hospital discovered an inconsistency in classification of the \$16 million Coronavirus Relief Funds received from Clark County for expenditures incurred due to the public health emergency with respect to Coronavirus Disease 2019 (COVID-19). The Hospital was informed by Clark County that it was determined to be a subrecipient of the \$16 million of Coronavirus Relief Funds received from Clark County, whereas the Hospital had determined itself as a contractor. The Hospital revised the accompanying statements of revenues, expenses, and changes in net position (deficit) and statements of cash flows for the year ended June 30, 2021 to reflect the correction of these immaterial errors.

The reclassification reduced the Hospital's previously reported transfers in by \$16 million and increased other nonoperating revenue by \$16 million for the year ended June 30, 2021. Other than the impact as stated, there was no balance sheet impact noted. The following table summarizes the impact from the revision on the previously reported audited financial statement line items:

13. New Accounting Pronouncements

The Hospital has retroactively implemented GASB Statement Number 87, Leases (GASB 87) effective for the Hospital's fiscal year beginning July 1, 2020. GASB 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about leasing activities.

**Independent Auditor's Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With Government Auditing Standards**

UMC Governing Board
University Medical Center of Southern Nevada
Las Vegas, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the University Medical Center of Southern Nevada ("UMC"), a component unit of Clark County, Nevada, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise UMC's basic financial statements as listed in the table of content, and have issued our report thereon dated December 2, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered UMC's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of UMC's internal control. Accordingly, we do not express an opinion on the effectiveness of UMC's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of UMC's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether UMC's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of UMC's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering UMC's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major Federal Program; Report on Internal Control Over Compliance Required by the Uniform Guidance

UMC Governing Board
University Medical Center of Southern Nevada
Las Vegas, Nevada

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the University Medical Center of Southern Nevada's ("UMC"), a component unit of Clark County, Nevada, compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of UMC's major federal programs for the year ended June 30, 2022. UMC's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, UMC complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of UMC and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of UMC's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to UMC's federal programs

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on UMC's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about UMC's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding UMC's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of UMC's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of UMC's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2022

1. Reporting Entity

The Hospital is a blended component unit (enterprise fund) of, owned and operated by, Clark County, Nevada (the County). The reporting entity is defined in Note 1 to the financial statements. The accompanying schedule includes federal financial assistance received directly from federal agencies as well as passed through other government agencies.

2. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of UMC under programs of the federal government for the year ended June 30, 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in the Schedule may differ from amounts presented in the financial statements. Because the Schedule presents only a selected portion of the operations of UMC, it is not intended to and does not present the financial position, changes in net position or cash flows of UMC.

3. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

4. Indirect Cost Rule

UMC has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

5. Subsequent Event

The Hospital evaluates the impact of subsequent events, which are events that occur after the statement of net position (deficit) date but before the financial statements are issued, for potential recognition in the financial statements as of the statement of net position date. For the year ended June 30, 2022, the Hospital evaluated subsequent events through December 2, 2022, representing the date the accompanying audited financial statements were issued, except for our report on the schedule of expenditures of federal awards, for which the subsequent event date is March 17, 2023. During these periods the Hospital determined there were no subsequent events that needed to be disclosed.

Summary Schedule of Prior Audit Findings For the Year Ended June 30, 2022

Status of Prior Year Findings

2021-001: Financial Statements Finding – Material Weakness in Internal Control Over Financial Reporting

Prior Year Finding:

The Hospital was inconsistent in how it recognized the Coronavirus Relief Fund ("CRF Fund") received from Clark County based on determination by Clark County of the sub-award relationship classifying the Hospital as a sub-recipient.

Current Year Status:

Corrective action has been taken for this.

2021-002: Federal Award Finding – Material Weakness in Internal Control Over Major Federal Program (Coronavirus "COVID-19" Relief Fund)

Information on Federal Program - COVID-19 Coronavirus Relief Fund (CRF), 21.019, fiscal year 2021, and Clark County Department of Finance

Prior Year Finding:

The \$16 million of CRF expenditure was not included in the SEFA and therefore not reflected as a major federal program based on major program determination which was required due to evaluation by Clark County of the sub-award relationship classifying the Hospital as a sub-recipient.

Current Year Status:

Corrective action has been taken for this.

	POLICY TITLE: Family and Medical Leave
MANUAL: Human Resources	POLICY OWNER: Human Resources
EFFECTIVE DATE: 7/1995	FINAL APPROVAL DATE: 8/2022 January 2023

PURPOSE

To set forth UMC's procedures to request and receive approval for family and medical leave through the third party administrator (FMLA Source) in accordance with the Family Medical Leave Act (FMLA). ~~See attached "Leave of Absence Claim Submission Checklist" for general guidance.~~

Formatted: Strikethrough

ORGANIZATIONS AFFECTED:

All departments

PROCEDURE

A. Employee Notification Requirements for Initial and/or Renewal of Expired Approvals. In all cases absent extenuating circumstances, the employee must comply with UMC's procedures regarding absences and contact FMLA Source directly (phone: 877-462-3652 or on line at fmlasource.com) as identified below:

Foreseeable Leave: Any employee who feels that he/she may have a FMLA qualifying event requiring leave must provide his/her management and FMLA Source at least a 30-day advance notice before the FMLA leave is to begin. If the need is foreseeable but not known more than 30-days in advance, the employee must provide notice as soon as practicable generally meaning that day or next business day from when need is known. Failure to provide appropriate notice may result in leave being delayed up to 30 days after notice was given depending on specific circumstances of the situation. Notification not provided in accordance with UMC procedures for leave may also result in delayed or denied FMLA leave.

Unforeseeable Leave: If need for leave is not foreseeable, the employee must provide notice to his/her management and FMLA Source as soon as practicable under facts and circumstances of the particular case. It is generally practicable to provide notice either the same day or next business day after becoming aware of the event and within the time prescribed by UMC's notice requirements for leave.

Notification not provided in accordance with UMC procedures for leave (including contacting FMLA Source) may result in delayed or denied FMLA leave.

Content of Notice: The notice does not have to include the term FMLA but must include sufficient information to put FMLA Source on notice of a potential FMLA qualifying event (i.e. parent is hospitalized, son or daughter has been called to active duty, nature of the employee or covered family member's medical condition rendering them unable to work and/or perform daily activities, and duration of leave needed). Failure to provide sufficient information (i.e., simply saying "sick") does not trigger FMLA Source's obligation to notify the employee of FMLA

	POLICY TITLE: Family and Medical Leave
---	---

rights. The employee must also respond to FMLA Source's questions designed to determine if the absence(s) is potentially FMLA qualifying. Failure to respond to such inquiries and/or failure to provide sufficient information may result in a denial of FMLA protection.

B. Medical Certification Requirements: FMLA Source will work directly with the employee and/or employee's physician. FMLA Source will initially provide the employee with written notice of his/her general rights and obligations (as well as eligibility status) under the FMLA for each separate potentially qualifying event based on information provided by the employee (thereafter only once in each six- month period that an employee gives notice of the need for FMLA leave).

Included in the initial notification will be the certification form (depending on reason for request). Failure to return the necessary certification documentation by the deadline listed in the notification may result in the FMLA leave being denied and/or delayed until certification is received. Prior to approving the FMLA, FMLA Source may also require second and/or third opinions on the certification provided as allowed by law. In the event second and/or third opinions are required, FMLA Source will notify the employee in writing.

C. Approvals/Denials: The employee will be notified, in writing, of the status of any FMLA application (including those not specifically requested by the employee but sent by FMLA Source based on information provided). If denied, the employee will receive a denial notification including a brief description of why the application and/or request was denied. If approved, the employee will receive an approval letter including details regarding the circumstances of the approved leave, including but not limited to type of leave, dates of leave, requirement to use accrued paid leave (in accordance with relevant policy or CBA), potential requests for recertification, and requirement to provide a certification of release to full duty at end of FMLA leave.

D. Accessing FMLA Time: To access FMLA leave for an approved qualifying event, the employee is required to provide timely notification to UMC that he/she will not be reporting to work within the contractual or policy notice requirements. The employee is also required to contact FMLA Source within 24 hours of the start of the absence absent extenuating circumstances and specifically reference the qualifying reason or the need for FMLA. Where multiple approvals exist, FMLA Source may require information to determine which approval is the cause for the current absence. Failure to provide sufficient information in a timely manner to FMLA Source may lead to leave being denied under the FMLA. FMLA Source may require periodic reports on the FMLA status, including intent to return to work and anticipated return date. In addition, FMLA Source may also require recertification of current approved FMLA conditions. The employee will be notified, in writing, regarding the specifics of the recertification. Recertification will be requested in the frequency and manner allowable by law and UMC preference. FMLA leave need not be taken in one block but may be taken intermittently or on a reduced leave schedule if medically necessary. Employees needing intermittent FMLA leave, or leave on a reduced leave schedule, must attempt to schedule their leave so as to not unduly disrupt UMC's operations. Intermittent leave may also be taken due to qualifying exigencies. In addition, UMC may assign an employee to an alternative position that better accommodates the employee's intermittent or reduced leave schedule. Prior to returning to work from FMLA leave occasioned by the employee's own serious health condition, the employee will be required to provide a fitness for duty certification with regard to his/her serious health condition. Employees will be required to use accrued paid leave for unpaid FMLA leave in accordance with the current Collective Bargaining Agreements (CBA), or policy and procedure manual covering his/her classification. Failure to comply with the procedural requirements in the relevant CBA or policy manuals will result in the approved FMLA leave not

	POLICY TITLE: Family and Medical Leave

qualifying for paid status. Once leave banks are exhausted, the employee will be placed in a leave without pay status (LWOP) until his/her return or expiration of FMLA allotment. During FMLA leave, the employer must maintain the employee's health coverage under any "group health plan" on the same terms as if the employee had continued to work. Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms. An employee who has exhausted FMLA or does not qualify for FMLA may also request leave for his or her own physical or mental impairment as a reasonable accommodation under the Americans with Disabilities Act (ADA) through the Equal Opportunity Program Manager.

E. Unlawful Acts:

Employer:

- Interfere with, restrain, or deny the exercise of any right provided under FMLA;
- Discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

Employee:

- Fraudulently obtains or uses FMLA leave

F. **Enforcement:** An employee may file a complaint with Human Resources, with the U.S. Department of Labor or bring a private lawsuit against an employer. FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

Health Plan of Nevada, Inc.

**MEDICAID / NEVADA ✓CHECK-UP
CONSULTING PROVIDER AGREEMENT**

THIS AGREEMENT is made and entered into by and between Health Plan of Nevada, Inc., a corporation organized under the laws of the State of Nevada (hereinafter referred to as "HEALTH PLAN") and University Medical Center an acute care hospital, which employs physician specialists licensed to practice medicine in the State of Nevada (hereinafter referred to as "Consulting Provider").

NOW THEREFORE, in consideration of the promises and the agreements herein contained, it is mutually agreed as follows:

ARTICLE I. DEFINITIONS

- A. "Aberrant Bedday" means one in which a patient is kept at a level of care (ICU, telemetry, med-surg, transitional, SNF) when a lower level of care or a discharge would have been appropriate given the medical necessity, including extraneous beddays resulting from delayed procedures and/or reporting of results.
- B. "Member(s)" or "Subscriber(s)" means those persons who are designated by the Division of Health Care Financing and Policy (DHCFP) as eligible for Medicaid / Nevada ✓Check-up and who have selected or are enrolled in Health Plan of Nevada, Inc.
- C. "CONSULTING PROVIDER" means a duly licensed and/or certified practitioner of the health care specialty listed in this Article, Paragraph D, and who, through the execution of this Agreement, shall provide Consultant Services to Members upon appropriate referral from a Primary Care Physician (if Agreement is with a group practice, then "CONSULTING PROVIDER" includes those providers listed on Attachment A).
- D. "Consultant Services" means those Covered Services provided to Members by CONSULTING PROVIDER, in the specialty field of Anesthesia and Orthopedic Surgery, upon appropriate referral of a Primary Care Physician.
- E. "Primary Care Physician" means a duly licensed doctor of medicine or osteopathy who has entered into an agreement with HEALTH PLAN to provide certain Covered Services to Members who have selected or been assigned to him/her, and to assume primary responsibility for arranging and coordinating the overall health care of such Members.
- F. "Plan Provider" means a health professional or any other entity or institutional health care provider which has entered into a written agreement with HEALTH PLAN or is otherwise approved by HEALTH PLAN to provide Covered Services to Members.
- G. "Covered Services" means those medical, hospital and other health care services and benefits to which Members are entitled under the terms of the applicable group or individual medical and hospital service certificates of coverage which may be amended by HEALTH PLAN from time to time.
- H. "Medical Director" means a duly licensed physician whom has been designated by HEALTH PLAN to monitor the provision of, and the appropriate utilization of, Covered Services to Members.
- I. "Medically Necessary" services and/or supplies means the use of services or supplies as provided by a hospital, skilled nursing facility, CONSULTING PROVIDER or any other health care provider required to identify or treat a Member's illness or injury and which, as determined by the HEALTH PLAN are:

1. Consistent with the symptoms and signs, or diagnosis and treatment of the Member's condition, disease, ailment or injury;
2. Appropriate with regard to standards of good medical practice;
3. Not solely for the convenience or preferences of the Member, his or her CONSULTING PROVIDER, Primary Care Physician, Plan Provider, hospital or any other health care provider; and
4. The most appropriate supply or level of service, which can be safely provided to the Member. When specifically applied to an inpatient, it further means that the Member's medical symptoms or condition requires that the diagnosis or treatment cannot be safely provided to the Member as an outpatient.

Services, supplies and accommodations will not automatically be considered Medically Necessary because they were prescribed by a physician. HEALTH PLAN may consult with professional medical consultants, peer review committees, and other appropriate sources for recommendations regarding the Medical Necessity of the services, supplies and accommodations a Member receives.

- J. "Managed Care Program" means the prior authorization process by which HEALTH PLAN determines medical necessity and directs care to the most appropriate setting so as to provide health care in the most cost-effective manner.
- K. "Emergency Services" means health care services provided to a Member after the sudden onset of a medical condition that manifests itself by symptoms of sufficient severity that a prudent person would believe that the absence of immediate medical attention could result in:
 1. Serious jeopardy to the health of a Member; or
 2. Serious jeopardy to the health of an unborn child; or
 3. Serious impairment of a bodily function; or
 4. Serious dysfunction of any bodily organ or part.
- L. "Joint Operations Committee" means a committee made up of four (4) representatives, two (2) representatives each appointed by HEALTH PLAN and CONSULTING PROVIDER. The number of committee members may be increased or decreased by mutual agreement of HEALTH PLAN and CONSULTING PROVIDER. The committee may be called by any Committee member on at least seven (7) days prior notice; the Committee shall conduct business only when all four (4) representatives are present at any such meeting, either in person, telephonically, or by proxy. The Committee shall ordinarily discuss and make recommendations to resolve routine operating problems, and such as shall be determined by HEALTH PLAN and CONSULTING PROVIDER; provided, however, that the committee shall not have the power to make decisions binding upon the parties hereto.
- M. "Clean Claim" is a claim that has no defect or impropriety, including lack of required substantiating documentation, or particular circumstances requiring special treatment that prevents timely payment from being made on the claim, including, but not limited to, claims where coordination of benefits is actively pursued; or medical claims review is necessary; or pre-existing conditions may exist.

ARTICLE II. AGREEMENTS OF HEALTH PLAN

- A. Administrative Procedures. HEALTH PLAN shall make available to CONSULTING PROVIDER the HEALTH PLAN's administrative procedures, required under this Agreement. - B. Hospital Admissions. In cases where a Member requires non-emergency hospital admission, CONSULTING PROVIDER agrees to have the referring Primary Care Physician secure prior authorization for such admission from the Medical Director or his/her designee, certifying the Covered Services and the number of inpatient days authorized under the Managed Care Program. Any payment for Covered Services is subject to Member eligibility, Primary Care Physician referral, compliance with HEALTH PLAN'S Managed Care Program, contractual limitations and exclusions, and coordination of benefits.

E. Physician-Patient Communication.

2. CONSULTING PROVIDER's obligations not to disclose Proprietary Information do not apply to any disclosures made to a patient determined by CONSULTING PROVIDER to be necessary or appropriate for the diagnosis and care of a patient, except to the extent such disclosure would otherwise violate CONSULTING PROVIDER's legal or ethical obligations.
3. CONSULTING PROVIDER is encouraged to discuss reimbursement methodology with his or her patients, subject only to CONSULTING PROVIDER's general contractual and ethical obligations not to make false or misleading statements. Accordingly, proprietary information does not include descriptions of the Compensation System methodology under which CONSULTING PROVIDER is reimbursed, although such Proprietary Information does include the specific rates paid by HEALTH PLAN due to their competitively sensitive nature.

This section shall supersede any other written or oral contrary agreement between CONSULTING PROVIDER and Member that conflict with this section of the Agreement.

GENERAL BUSINESS PRACTICES

Any attempt by a Vendor to influence Company employees to purchase goods or services other than on the basis of quality, services, and competitive pricing, may result in the loss of future business with the Company. If a Company employee suggests to you that you may obtain business with the Company in return for a personal benefit to that employee, you must report this incident immediately to the Corporate Compliance Officer. You are also expected to fully disclose to the Company any information regarding potential conflicts of interest you may have, which could impact the Company's decision to do business with you.

There shall be no retaliation against the Vendor as a result of such good faith reporting. In the event of an investigation by any state or federal government agency, the Vendor will respond promptly and with complete honesty as requested by government investigators. The Company requests that if government representatives with regards to the Company's operations contact you, that you immediately notify the Corporate Compliance Officer. COMPLIANCE FACT SHEET

Sierra Health Services, Inc., and its subsidiaries (the "Company"), have adopted a Corporate Compliance Program. The purpose of this Program is to ensure that the Company conducts its business with honesty and integrity, and in accordance with the highest moral, legal, and ethical standards. As a Vendor of the Company and/or one of its subsidiaries, you are also required to conduct your business with the Company in accordance with these standards. Set forth below is a summary of the standards of conduct for which you will be held accountable. If you have any questions or concerns, or if you wish to report a violation of these policies, you are instructed to immediately contact the Corporate Compliance Officer at (702) 242-7186. As used below, the term "Vendor" includes providers of goods or services, medical providers, or agents and brokers doing business with the Company or one of its subsidiaries, or the employees, agents, or representatives of such entity.

DUTY TO NOTIFY REGARDING LEGAL STATUS

The Company will not willingly contract with or retain any Vendor who has been listed by a state or federal agency as debarred, excluded or otherwise ineligible for federal or state program participation or whose license had been revoked or suspended. If either of these situations apply to you, or if they become applicable subsequent to the commencement of your relationship with the Company, you must notify the Corporate Compliance Officer as soon as possible. Failure to do so may result in the termination of your relationship with the Company and its subsidiaries.

The Violent Crime Control and Law Enforcement Act of 1994 places limitations on the Company's ability to conduct business with persons who have been convicted of certain types of felonies. If you have ever been convicted of a felony or if you are convicted of a felony subsequent to the receipt of the Compliance Fact Sheet, you have an affirmative duty to notify the Corporate Compliance Officer regarding the details of your conviction. However, conviction of a felony is not an automatic bar to conducting business with the Company. Convictions will be reviewed on case by case basis.

FRAUD AND ABUSE

It is the policy of the Company to consistently and fully comply with all laws and regulations pertaining to the delivery and billing for services which apply to the Company on account of its participation in Medicare, Medicaid, TRICARE, the Federal Employees Health Benefits Program and other government programs. As a Vendor of the Company, it is your responsibility to understand and comply with those state and federal regulations which apply to you and your relationship with the Company, and to support the Company's compliance efforts by reporting any suspected violations and cooperating in any investigation related to these issues.

GENERAL BUSINESS PRACTICES

Any attempt by a Vendor to influence Company employees to purchase goods or services other than on the basis of quality, services, and competitive pricing, may result in the loss of future business with the Company. If a Company employee suggests to you that you may obtain business with the Company in return for a personal benefit to that employee, you must report this incident immediately to the Corporate Compliance Officer. You are also expected to fully disclose to the Company any information regarding potential conflicts of interest you may have which could impact the Company's decision to do business with you.

CONFIDENTIALITY

As a result of your relationship with the Company, you may have access to information concerning Company operations and procedures which are confidential and proprietary to the Company. Company acknowledges that PROVIDER is public county-owned hospital which is subject to the provisions of the Nevada Public Records Act, Nevada Revised Statutes Chapter 239, as may be amended from time to time, and as such its contracts are public documents available to copying and inspection by the public. This Agreement shall not become effective until it is presented to, and approved during a public meeting of PROVIDERS governing board. If PROVIDER receives a demand for the disclosure of any information related to this Agreement which Company has claimed to be confidential and proprietary, such as Company's programs, services, business practices or procedures, PROVIDER will immediately notify Company of such demand and Company shall immediately notify PROVIDER of its intention to seek injunctive relief in a Nevada court for protective order. Company shall indemnify and defend PROVIDER from any claims or actions, including all associated costs and attorney's fees, demanding the disclosure of Company document in PROVIDERS custody and control in which Company claims to be confidential and proprietary.

PROHIBITED RECEIPTS AND PAYMENTS

Vendors are prohibited from engaging in the following transactions in order to obtain business, retain business or direct business to others, or to induce Company employees, government officials or others, to fail to perform or to improperly perform their official functions:

- Payment or offer to pay anything of value, directly or indirectly, to any government official or Company employee.
- Payment or offer to pay anything of value, directly or indirectly, to any party in the form of a commercial bribe, influence payment or kickback.
- Receipt or acceptance of anything of value, directly or indirectly, from any party in the form of a commercial bribe, influence payment or kickback.

POLICY VIOLATIONS AND REPORTING REQUIREMENTS

Vendors must report all suspected, actual or potential violations of the standards and policies outlined in this Compliance Fact Sheet to the Corporate Compliance Officer and must cooperate in all investigations relating to such violations where the Vendor has any personal knowledge of the facts. There shall be no retaliation against the Vendor as a result of such good faith reporting. In the event of an investigation by any state or federal government agency, the Vendor will respond promptly and with complete honesty as requested by government investigators. The Company requests that if you are contacted by government representatives with regards to the Company's operations, that you immediately notify the Corporate Compliance Officer. Iron Mountain will process an estimated 186,365 cubic feet and an additional 29,470 linear feet of patient records through the SmartSort workflow. Re: Request for competitive bidding information regarding Document Shredding And Media Destruction.

Dear Mr. Goodnow:

This letter is provided in response to the University Medical Center of Southern Nevada's ("UMC") request for information about HealthTrust Purchasing Group, L.P.'s ("HealthTrust") competitive bidding process for Document Shredding And Media Destruction. We are pleased to provide this information to UMC in your capacity as a Participant of HealthTrust, as defined in and subject to the Participation Agreement between HealthTrust and UMC, effective August 3, 2016.

HealthTrust's bid and award process is described in its Contracting Process Policy [HT.008] available on its public website (<http://healthtrustpg.com/about-healthtrust/healthcare-code-of-ethics/>). As described in the policy, HealthTrust operates a member-driven contracting process. Advisory Boards are engaged to determine the clinical, technical, operational, conversion, business and other criteria important for each specific bid category. The boards are comprised of representatives from HealthTrust's membership who have appropriate experience, credentials/licensures, and decision-making authority within their respective health systems for the board on which they serve.

HealthTrust's requirements for specific products and services are published on its Contract Schedule on its public website. HealthTrust's requirements for vendors are outlined in its Supplier Criteria Policy [HT.010]. A listing of the minimum Supplier Criteria is also published on HealthTrust's public website, as well as an on-line form for prospective vendor submission.

The Contracting Process Policy includes criteria for the selection of contract products and services and documents and the procedures followed by HealthTrust's contracting team to select vendors for consideration. HealthTrust's Advisory Boards may provide additional requirements or other criteria that would be incorporated into the RFP (request for proposals) process, where appropriate. Vendor proposals submitted in response to RFPs are analyzed using an extensive clinical/technical review as described above, as well as a financial/operational review.

The above-described process was followed with respect to the Document Shredding And Media Destruction category. HealthTrust issued RFPs and received proposals from identified suppliers in the Document Shredding And Media Destruction category. A contract was executed with Iron Mountain, Vital Records Control, and National Records Center in March of 2020. I hope this satisfies your request. Please contact me with any additional questions.

Sincerely,

Craig Dabbs

**AGREEMENT FOR TRANSPLANT SERVICES
BETWEEN
TRANSPLANT COORDINATORS OF AMERICA, INC.
AND
UNIVERSITY MEDICAL CENTER OF SOUTHERN NEVADA**

This Agreement for Transplant Services ("Agreement"), made effective on the last date of signature set forth below ("Effective Date"), is by and between University Medical Center of Southern Nevada, a publicly owned and operated hospital created by virtue of Chapter 450 of the Nevada Revised Statutes and located at 1800 West Charleston Boulevard, Las Vegas, NV 89102 ("UMC"), and Transplant Coordinators of America, Inc., a South Carolina corporation with its principal office at 636 G, Long Point Road, Suite 96, Mount Pleasant, SC 29464 ("TCOA").

WHEREAS, TCOA provides certain transplant services to assist with the location and procurement of human organs for transplant, as further set forth below; and

WHEREAS, UMC, as part of its operations, performs transplant surgeries and is desirous of the services offered by TCOA.

NOW, THEREFORE, in consideration of the mutual covenants set forth herein, the parties agree as follows:

1. SERVICES TO BE PERFORMED

- (a) Service Type: TCOA will provide to UMC the following on-call coverage as described in this Section 1 and in **Attachment 1**, during the hours specified (the "Services"). On-call coverage is defined as: TCOA is available to receive electronic organ offers from the United Network for Organ Sharing (UNOS) DonorNet ® system, and to respond to such electronic organ offers in accordance with the specific organ quality criteria as agreed to with the Transplant Center at the time of the request ("Criteria").
- (b) Service Hours: 7:00 am - 7:00 am Pacific Standard Time, Monday - Monday (24 hours a day, 7 days a week, including all holidays).
- (c) Service Procedure:
Whenever TCOA receives an electronic organ offer for an evaluation from DonorNet ®, TCOA shall review such offer(s) in accordance with the Criteria. If TCOA determines the offer has met the Criteria, then TCOA shall enter a "provisional yes" to DonorNet ® and await further information in regards to such organ offer. TCOA will also inform the hospital Transplant Center physician attending on-call, and the hospital Transplant Center in-house clinical coordinator. It is the responsibility of the hospital Transplant Center physician attending on-call, following review of the information provided by DonorNet ®, to determine the acceptance or rejection of such organ.

After the electronic offer is made to the Transplant Center (i.e., UMC), and if the organ offer falls out of the Criteria for acceptance, then TCOA will decline such an offer and record its rationale for doing so via DonorNet ®. TCOA reserves the right to

discuss with the hospital Transplant Center physician those organs that TCOA's transplant coordinator(s) consider "borderline" with the unique goal to optimize organ acceptance.

2. RESPONSIBILITIES OF UMC AS TRANSPLANT CENTER

UMC is a member of UNOS and is an approved Transplant Center (also known as a Transplant Hospital) in which transplants are performed. It is the responsibility of the transplanting surgeon at the Transplant Center receiving the organ offer for the surgeon's candidate to ensure the medical suitability of donor organs for transplantation into the potential recipient, including compatibility of donor and candidate by ABO blood type. Upon receipt of an organ, and prior to implantation, the Transplant Center is responsible for verifying the recorded donor ABO with the recorded ABO of the intended recipient, and UNOS Donor ID number. These actions must be documented by the Transplant Center and are subject to review upon audit.

3. PAYMENT AND INVOICING TERMS

- (a) Payment. TCOA's rate for the Services, which includes the on-call coverage described in Section 1, is \$30 per hour for up to 350 calls per month. Transportation charges, if any, are not included in this rate for on-call coverage and are billed separately at \$3,500 per set up with flight monitoring.

If UMC cancels a scheduled flight set up (with pilots activated), a \$1,000 cancellation fee will be charged by TCOA and a separate cancellation fee from the charter company. The charter company charges will be billed directly from the airline company.

UMC agrees to pay TCOA for the performance of Services described in this Agreement for the not-to-exceed amount of **\$262,800 per year**.

- (b) Invoicing. Invoices will be submitted on a monthly basis by TCOA for payment by UMC. Payment is due upon receipt of a correct invoice and will be past due sixty (60) days from the date of the invoice. If UMC has any valid reasons for disputing any portion of an invoice, UMC will notify TCOA within fourteen (14) calendar days of receipt of invoice by UMC. If no such notification is given by UMC, the invoice will be deemed valid. The portion of TCOA's invoice that is not in dispute shall be paid in accordance with the procedures set forth herein.

4. RELATIONSHIP OF PARTIES

It is understood by both parties that TCOA is an independent contractor with respect to UMC and is not an employee of UMC. UMC will not provide fringe benefits, including health insurance, paid vacation, or any other employee benefit, for the benefit of TCOA or its employees.

5. CONFIDENTIALITY

TCOA will not at any time or in any matter, either directly or indirectly, use for its benefit, or divulge, disclose, or communicate in any manner any information that is propriety to UMC. TCOA will exercise all reasonable steps to protect such information and treat it as

strictly confidential. This provision shall continue to be effective after the termination of this Agreement. Upon termination of this Agreement, TCOA will return to UMC all documentation and other items that were used, created, or otherwise controlled by TCOA during the term of this Agreement.

6. COVENANT NOT TO COMPETE.

In consideration of its contractual agreement with TCOA and other valuable consideration provided herein, UMC covenants and agrees that for a period commencing on the date of termination of this Agreement for any reason, and ending twenty-four (24) months thereafter, UMC is prohibited from engaging in certain competitive activities against TCOA. During this period, UMC will not directly or indirectly: (a) induce or attempt to induce any independent contractor of TCOA to leave TCOA's employment, (b) in any way interfere with the relationship between TCOA and any of its independent contractors, (c) employ, or otherwise engage as an independent contractor, employee or otherwise, any independent contractor of TCOA, (d) induce or attempt to induce any customer, supplier, licensee or business relation of TCOA to cease doing business with TCOA, or (e) in any way interference with the relationship between any customer, supplier, licensee or business relation of TCOA. Employment arising from inquiries via advertisements in newspapers, job fairs, unsolicited resumes or applications for employment with UMC shall not be construed to be a violation of this Section.

7. TERM AND TERMINATION

(a) Term. This Agreement shall commence on the Effective Date and continue for one (1) year (the "Initial Term"). This Agreement will automatically renew for successive one (1) year increments at the end of the Initial Term (each a "Renewal Term"), up to a total of no more than four (4) Renewal Terms. The Initial Term and all Renewal Terms shall be referred to herein collectively as the "Term".

(b) Termination. Either party may terminate this Agreement by giving the other party at least thirty (30) days written notice.

8. SEVERABILITY

If any of the provisions of this Agreement shall be held to be invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable. If a court finds that any provision of this Agreement is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision shall be deemed to be written, construed and enforced as so limited.

9. PUBLICATION AND ADVERTISEMENT

Each party agrees that it will not use the names or logos of, or make any reference to, the other party and/or any of its components in any advertising or publications of any kind, including, but not limited to, brochures, letterhead, business cards, or office plaques, without the express written permission of the other party.

10. INDEMNIFICATION AND INSURANCE

To the extent expressly authorized by Nevada law, each party agrees to indemnify and hold harmless the other party, its officers, agents and employees with respect to any and all claims, damages, judgments, actions, and causes of action arising out of the acts or omissions of the Indemnifying Party's officers, agents and employees during the term of this Agreement, including all costs, expenses and attorneys' fees incurred in the defense of any and all claims and/or litigation. UMC explicitly retains all defenses to indemnification that may exist under Nevada law and any indemnification by UMC under this section shall be subject to and limited by the provisions of Chapter 41 of the Nevada Revised Statutes. Both parties agree to secure and maintain sufficient insurance coverage, in the minimum amount of \$1 million per occurrence and \$3 million aggregate, in order to adequately fulfill its obligations under this Section. Proof of such insurance coverage will be provided by a party upon request of the other party.

11. COMPLIANCE WITH LAWS

Each party represents and warrants that it shall comply with all applicable federal and state laws and regulations, including, without limitation, the federal Anti-Kickback Statute, 42 U.S.C. § 1320a-7b, and all implementing regulations; the federal False Claims Act, 31 U.S.C. § 3729 *et seq.*; the federal Physician Payment Sunshine Act, 42 U.S.C. § 1320a-7h, and all implementing regulations; as well as all comparable state and local laws and regulations relating to this Agreement. The parties acknowledge and agree that nothing contained in this Agreement shall require either party to refer business to the other party or take into account the volume or value of referrals, nor has any unlawful remuneration been solicited or received for the furnishing, arranging or recommending the purchase, lease or ordering of any goods or services reimbursable under any state or federal health care programs.

12. DISPUTE RESOLUTION

- (a) Escalation. The parties will attempt to resolve disputes between them arising out of or relating to this Agreement: (i) in a timely and constructive manner that reflects the concerns and commercial interests of each party; and (ii) at the appropriate levels of authority within each party, including escalating issues that cannot be otherwise resolved in accordance with the terms and conditions of this Agreement prior to pursuing legal proceedings.
- (b) Mediation. The parties agree that they shall seek mediation as their preferred method of handling claims, disputes, or other matters in question which may arise between them. The mediation process may be initiated by any party at such times as the parties have been unable to reach a mutually agreed upon resolution to a problem within a reasonable period of time, and at such time as it appears that such a resolution is not likely to be obtainable.
- (c) Arbitration. Any issues that remain unresolved following mediation shall be resolved by arbitration between the parties before a single arbitrator under the American Arbitration Association (AAA) rules, but not the administration of the AAA if the parties can agree to use a self-administered arbitrator and procedure. If the parties are unable to agree on an arbitrator, one will be appointed by the AAA. Any decision or award of the arbitrator will be final and binding on the parties, and judgment may

be entered in any court having jurisdiction over the party against which the decision and award run.

This Agreement shall terminate and UMC's obligations under it shall be extinguished at the end of any of its fiscal years in which its governing body fails to appropriate monies for the ensuing fiscal year sufficient for the payment of all amounts which could then become due under this Agreement. UMC agrees that this Section shall not be utilized as a subterfuge or in a discriminatory fashion as it relates to this Agreement. In the event this Section is invoked, this Agreement will expire on the thirtieth (30th) day of June of the then current fiscal year. Termination under this Section shall not relieve UMC of its obligations incurred through the thirtieth (30th) day of June of the fiscal year for which monies were appropriated.

No modifications or amendments to this Agreement shall be valid or enforceable unless mutually agreed to in writing by the parties.

16. GOVERNING LAW

If UMC receives a demand for the

disclosure of any information related to this Agreement which TCOA has claimed to be confidential and proprietary, UMC will immediately notify TCOA of such demand and TCOA shall immediately notify UMC of its intention to seek injunctive relief in a Nevada court for protective order. TCOA shall indemnify, defend and hold harmless UMC from any claims or actions, including all associated costs and attorney's fees, regarding or related to any demand for the disclosure of TCOA documents in UMC's custody and control in which TCOA claims to be confidential and proprietary.

18. ENTIRE AGREEMENT

No failure by any party to insist upon the strict performance of any covenant, duty, agreement or condition of this Agreement or to exercise any right or remedy consequent upon a breach thereof shall constitute waiver of any such breach of any other covenant, duty, agreement or condition. BACKGROUND:

Since June 2017, UMC has had an agreement with UNLV to grant the latter with access and use of UMC's electronic medical system, Epic, when caring for its ambulatory patients.

This request is to enter into a new agreement with UNLV for their continued EMR system access where UMC will provide Epic access and use, third party software use as applicable to UNLV, consulting and training services as contracted by both parties, and maintenance and support to a maximum of 450 UNLV authorized users. UNLV will reimburse UMC an annual estimated fee of \$556,985.88 based on usage, applicable Epic module access, hosting, outpatient encounters, maintenance and pass-through fees which are subject to adjustments, at any time, upon third-party increases.

The Agreement term is from June 1, 2022 through May 31, 2025 with the option to renew for two, 1-year periods. Either party may terminate this Agreement with at least a 45-day notice prior to the expiration of the renewal period. Staff also requests authorization for the Hospital CEO to execute any extension options and amendments at his discretion if deemed beneficial to UMC.

UMC's Chief Information Officer has reviewed and recommends approval of this Agreement. This Agreement has been approved as to form by UMC's Office of General Counsel.

The Department of Business License has determined that UNLV is not required to obtain a Clark County business license nor a vendor registration since UNLV is part of the Nevada System of Higher Education, which is an entity of the State of Nevada.

This Agreement was reviewed by the Governing Board Audit and Finance Committee at their March 22, 2023 meeting and recommended for approval by the Governing Board.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing Recitals (which are hereby incorporated herein) and the mutual covenants and agreements set forth herein, and other good and valuable consideration, the sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Definitions.

- 1.1 Ambulatory Visits: Ambulatory Visits are calculated based on each face-to-face encounter, or other encounter that substitutes for a face-to-face encounter as technology develops, between a Medical Provider (as defined in Section 3.2) and a patient that results in the Medical Provider entering information into the EMR System at a UNLV Health facility/clinic (a “UNLV Health Clinic”); provided however multiple encounters with Medical Providers in the same scheduled appointment at a UNLV Health Clinic will count as one Ambulatory Visit.
- 1.2 Priority 1 Error: A priority 1 error is a problem or a series of problems that leaves the system or material program functionality unusable or severely impacts normal processing.
- 1.3 Priority 2 Error: A priority 2 error means a problem or a series of problems in the system which causes serious disruption of a major business function and which cannot be temporarily solved by a workaround.
- 1.4 Reasonable Efforts: For any Priority 1 Errors UMCSN will respond to UNLV SOM or UNLV Health, as applicable, within 4 hours of receiving call. For Priority 2 Errors UMCSN will respond to UNLV SOM or UNLV Health, as applicable, within 24 hours during normal business hours and 48 hours during weekends and holidays.
- 1.5 Service Period: The Service Period shall be equal to the term of this Agreement (as set forth in Section 7.1). During this period, any additional support or training needs by UNLV SOM or UNLV Health, as applicable, shall, upon request, be provided by UMCSN as Additional Services (as defined in Section 3.4) based upon the nature of the Additional Services requested and a rate consistent with those rates set forth on **Exhibit A**.
- 1.6 Super User(s): This category of UNLV SOM or UNLV Health employee and/or contractors is intended to provide services at a UNLV Health Clinic(s) after having undergone the training set forth in the Project Plan as provided by UMCSN and after such contractors having completed any requirements of Epic Systems Corporation (hereinafter referred to as “Epic”) related to confidentiality and non-disclosure obligations. Such Super Users are expected to demonstrate additional expertise obtained during such learning process. Once fully trained by UMCSN, the Super User will have additional responsibilities and access in order to function as a first line trainer and support for the Authorized Users (as defined in Section 3.2); however final approval of administrator or privileged access to the EMR System is at the sole discretion of UMCSN, which shall not be unreasonably withheld.
- 1.7 Entities User Data: The electronic data inputted into the EMR System by Authorized Users, to include ePHI, medical, demographic, billing and insurance information and associated financial records.

2. **EMR System.** In order to better meet its mission to serve the public and its patients, UMCSN has invested in an electronic medical record system from Epic and certain related components as further described on **Exhibit A** (the “EMR System”). UMCSN has also obtained the right to offer to Entities the use of the EMR System. The items and services provided under this Agreement do not include hardware, software with functionality other than listed in **Exhibit A** (Section III), or staffing of Entities office(s), and may not be used primarily to conduct personal business or business unrelated to Entities.

3. **Provision of EMR System.**

- 3.1 **Training.** UMCSN shall provide training materials and train-the-trainer services to credentialed trainers of Entities’ staff to provide training to Authorized Users (*after receipt of appropriate approval of such Authorized Users from Epic*) regarding use of the EMR System. UMCSN may provide access to UMCSN training facilities if desired at mutually agreed upon times. In addition to live, in-person training, UMCSN agrees to provide any available on-line or digital training protocols or presentations and/or ambulatory training programs, which are determined by UMCSN to be appropriate learning tools. UNLV Health will be responsible for providing staff to become credentialed trainers and completing the credentialed training process. These staff members may be the same individuals as identified to be Super Users.

- 3.2 **Grant of Access to EMR System.** Subject to the terms and conditions of this Agreement, UMCSN hereby grants to Entities nontransferable and non-exclusive access to the EMR System to permit no more than the maximum number of medical providers (each a “Medical Provider”) set forth in **Exhibit A** and their office administrators and other authorized support staff (collectively “Authorized Users”), to electronically access and use the EMR System for storing, processing, documenting and displaying medical records and other information, images and content related to the provision of healthcare to patients of such Medical Providers. This grant of access will include as Authorized Users, those individuals involved in the treatment, payment or operations for Entities. The number of Authorized Users accessing the EMR System concurrently may not exceed the maximum number of Authorized Users listed on **Exhibit A**. Any desired increase or decrease to the maximum number of Authorized Users as described on Exhibit A shall be done pursuant to Section II of Exhibit A. The selection and/or modification of Authorized Users, and the implementation and maintenance of security relating to access to the EMR System at UNLV Health Clinics shall be the sole responsibility of UMCSN with input as required from Entities.

- 3.3 **Maintenance.** UMCSN shall provide the following maintenance and support services (the “Maintenance and Support Services”) to Entities:

- a. **Technical Support.** UMCSN shall make available to Entities telephone and email access to UMCSN’s technical support staff (“Technical Support”) to answer questions and/or assist in resolving problems regarding the general use of the EMR System.

- b. *Error Correction.* UMCSN shall use best efforts, to correct or provide a workaround for any reproducible Priority 1 Error or Priority 2 Error that causes the EMR System to (i) fail to operate, (ii) generate error messages or (iii) generate errors in automatic data creation or calculations, provided such error is reported to UMCSN by UNLVSOM or UNLV Health in a writing that describes such error in detail. UMCSN shall have no obligation to provide corrections or workarounds if the error is caused in whole or in part by persons other than UMCSN, including without limitation, Entities' network service provider, or the error is caused in whole or in part by Entities' use of the EMR System in association with operating environments and platforms other than those specified by UMCSN.
 - c. *System Availability.* Except in the event of emergencies as reasonably determined by UMCSN, the downtime as described in this Sub-section 3.3(c) shall be scheduled with seventy-two (72) hour advance notice (to include attempted direct telephone contact and follow-up email) to both the UNLVSOM's Chief Information Officer and UNLV Health's Executive Director of Business Operations and the related maintenance services shall be performed outside of the regular business hours of UNLV Health Clinics (i.e., M-F 8am-5pm).
 - d. *System Updates.* UMCSN shall make available to Entities, without cost, any updates, upgrades and enhancements to the EMR System as may be made generally available by Epic during the term of this Agreement. Except in the event of emergencies as reasonably determined by UMCSN, any downtime of the EMR System associated with such updates, upgrades and enhancements described in this sub-section 3.3(d) shall be scheduled with seventy-two (72) hour advance notice (to include attempted direct telephonic contact and follow up email) to both the UNLVSOM's Chief Information Officer and UNLV Health's Executive Director of Business Operations, and the related updates, upgrades and enhancements shall be performed outside of the regular business hours of UNLV Health Clinics (i.e., M-F 8am-5pm).
 - e. *Service Level Credits.* The Parties agree that to the extent there is downtime of the EMR System that is reimbursed by the EMR System licensor, UMCSN will provide Entities with their prorated share of any such service level credits. Payments shall occur within thirty (30) day of receipt by UMCSN of the service level credits.
- 3.4 Changes to EMR System. UMCSN may, from time to time, change the components and functionality of the EMR System, provided however, UMCSN shall notify Entities in advance with direct telephone contact and at least fourteen (14) days' written notice to both the UNLVSOM's Chief Information Officer and UNLV Health's Executive Director of Business Operations of such changes if they will materially impact Entities use of the EMR System. In the event that any such changes materially and adversely impact UNLVSOM or UNLV Health's use of the EMR System, and if UMCSN cannot reasonably mitigate the impact, then the Parties will meet to discuss options for resolution. If the Parties are unable to resolve the issue, UNLVSOM or UNLV Health may terminate this Agreement consist with Section 7.1 through Section 7.5. In the event of such termination under this Section

3.4, UNLV SOM/UNLV Health shall have the right to receive a refund of any unearned portion of prepaid or advance monies.

4. Entities Obligations.

- 4.1 Third Party Components. Entities agree that in order to ensure that the EMR System will perform satisfactorily, proper connectivity and hardware must be in place. Entities acknowledge and agree that the hardware, software, network access and other components specified under the heading Necessary Third Party Components on **Exhibit A** (the “Necessary Third Party Components”) are necessary in order for Entities to access and use the EMR System and must be obtained separately by Entities. Entities agree that the Necessary Third Party Components are not the subject of this Agreement, and UMCSN shall not be responsible for the procurement, installation or maintenance of the Necessary Third Party Components, and UMCSN makes no representations or warranties regarding the Necessary Third Party Components whatsoever. Any fees for the Necessary Third Party Components shall be borne by Entities and paid directly to the vendors of the Necessary Third Party Components, unless otherwise agreed to in writing by the Parties. No additional Third Party Components will be installed in or interfaced to the EMR System without UMCSN’s prior written approval, which shall not be unreasonably withheld.
- 4.2 Staffing Resources. Entities will be required to provide two (2) full-time dedicated team members with a clinical background to participate in the design and build of specialties unique to Entities. Entities will be required to provide one (1) full-time dedicated team member for the Resolute module. Entities will also provide one (1) full-time dedicated team member to focus on infrastructure improvements.
- 4.3 Use of the EMR System. Entities are responsible for all use of the EMR System by Authorized Users, including all those individuals involved in treatment, payment or operations through UNLV Health, while using their user IDs and passwords assigned to or chosen by Entities. Entities shall use the EMR System in accordance with any network security policies (the “Security Policies”) issued by UMCSN from time to time. UMCSN agrees to provide Entities with sufficient notice of these Security Policies and requirements, with such adequate time to respond and implement these changes, as may be necessary. Entities agree to use the EMR System in compliance with UMCSN’s established workflows. If Entities fail to comply with this Section 4.3, UMCSN reserves the right to terminate access to the EMR System. If Entities desire to amend a workflow or create a new workflow, all submissions must be through the account manager or other authorized designated UMCSN personnel, and may only be implemented upon the prior approval of UMCSN. Entities understand and acknowledge that the EMR System is for the purpose of creating an integrated community patient medical record. All financial data and patient scheduling data for Entities will be accessible solely to Entities personnel; however, all patient medical data will be accessible to all authorized users of the EMR System.
- 4.4 Compliance with Laws. Entities shall not use or permit the EMR System to be used (i) in violation of any applicable export laws and regulations (including without limitation any U.S. export laws and regulations); (ii) in violation of any applicable national, state or local

laws or regulations, including without limitation any laws governing access to the EMR System or governing Entities use of patient medical records and other information and materials uploaded to the EMR System by Authorized Users; or (iii) in ways that infringe the rights of others, or interfere with other users of the EMR System or other networks. All Parties shall at all times comply with the provisions of the Nevada law, as applicable, including but not limited to any laws related to patient privacy.

- 4.5 Restrictions. Entities shall not, nor shall it permit Authorized Users to, disassemble, decompile, reverse engineer, copy, modify, create or add interfaces to, transcribe, store, translate, sell, lease, authorize third parties to access, or otherwise transfer or distribute any of the EMR System, the user documentation provided with the EMR System (the “Documentation”) or any of the software applications used to provide the EMR System, in whole or in part, except as expressly permitted under this Agreement. Entities shall not use the EMR System for the benefit of third parties or in a “service bureau” capacity. Entities shall not attempt to interface the EMR System with any non-UMCSN third party system without the express written consent of UMCSN in its discretion.

5. Ownership.

- 5.1 EMR System. Except for the express rights granted to Entities under this Agreement, all right, title and interest to the EMR System, the software applications used to provide the EMR System, the Documentation and any other information, software or materials provided to Entities by UMCSN under this Agreement, including all intellectual property rights therein, shall at all times remain solely with UMCSN and/or its licensors and vendors. Entities shall reproduce all copyright and trademark notices appearing on all copies of the Documentation.
- 5.2 Third-Party Software. If UMCSN licenses any third-party software on Entities behalf, should it be necessary, Entities shall execute any required third-party license agreements prior to delivery or installation of the third-party software. If UMCSN installs third-party software at Entities request and acceptance of license terms is affected electronically, Entities authorize UMCSN to accept the third-party license terms on Entities behalf.
- 5.3 Entities User Data. As between Entities and UMCSN, all rights titles and interest in and to the Entities User Data shall at all times remain solely with Entities and shall only be used by UMCSN to the extent necessary to provide the services as set forth under this Agreement.

6. License and Support Services Fees.

- 6.1 Ongoing Annual Fees. Entities will pay UMCSN a monthly fee for licensing, maintenance, subscription and support services as set forth on **Exhibit A**. Once per calendar year, UMCSN will review Entities’ business volume and Medical Provider count and shall adjust the fees accordingly.

6.2 Optional Modules, Interfaces and Customizations. In addition to core system components as detailed on Exhibit A, Entities may have the option or may request acquiring EPIC and/or third party additional modules, interfaces or specialized customizations in support of operations with implementation to be completed by UMCSN in a timely manner. Implementation requests by Entities for new Epic modules, interfaces to/from Epic, or additional capabilities/functionality within the EMR System must be contracted through UMCSN. Requests will be submitted in writing to the UMC Director of EHR Services and will be reviewed by UMCSN, UNLV Health and Epic to determine feasibility, level of effort, cost, and other impacts. Approved requests will be evaluated and prioritized in compliance with UMCSN's EHR Governance Program. UMCSN reserves the right to deny any request that could negatively impact UMCSN's operational, clinical or financial viability. UMCSN retains and will exercise final approval of any and all changes to or within the EMR System environment. Entities will be responsible for implementation costs, if applicable, to be calculated using the number of annual outpatient encounters consumed by Entities against the total number of outpatient encounters included in UMCSN's contract with Epic. Additionally, the new Epic modules, interfaces or additional capabilities/functionality may result in an increase in monthly expense to Entities which may require a written amendment to this Agreement.

6.3 No Payment for Referrals. Neither the fees charged to Entities under this agreement nor Entities eligibility to enter into this Agreement were determined in a manner that takes into account the volume or value of referrals or other business generated between the Parties. Except as otherwise set forth in Exhibit A, all undisputed invoices shall be due and payable within thirty (30) days of receipt.

6.4 Late Payments. All undisputed payments not made within thirty (30) days after they become due shall be subject to late charges of one and one-half percent (1.5%) per month, not to exceed five percent (5%) per annum. In addition to any other remedies that may be available, UMCSN may suspend access to the EMR System in the event that payment remains outstanding for more than fifteen (15) days after written notification to the Entities.

7. Term; Termination.

7.1 Term; Renewal. This Agreement shall be effective as of the Effective Date and shall continue, unless earlier terminated as provided herein, for a period of three (3) years. This Agreement may be renewed by mutual written agreement of the Parties for two (2) additional terms of one (1) year each (each a "Renewal Service Period"), unless either Party, by notice in writing given at least forty-five (45) days prior to the expiration of the Initial Service Period or any Renewal Service Period, advises the other Party of its desire to terminate as provided in this Agreement.

7.2 Termination by A Party. Any Party may terminate this Agreement (i) in the event another Party commits a material breach of this Agreement and such breach continues for a period of thirty (30) days following written notice of such breach; or (ii) immediately if another Party makes any assignment of assets or business for the benefit of creditors, or a trustee or receiver is appointed to conduct its business or affairs, or it is adjudged in any legal

proceeding to be in either voluntary or involuntary bankruptcy. If Entities should terminate this Agreement without cause then Entities shall have the obligation to reimburse UMCSN for any out-of-pocket advances or costs advanced by UMCSN on Entities behalf and which Entities have not repaid, subject, however, to UMCSN's obligation to mitigate its loss through alternate uses of the services for which such advances were made or costs incurred.

7.3 Termination by UMCSN. UMCSN may terminate the access granted to any component of the EMR System in the event that any license or other agreement under which UMCSN acquires rights to such component expires or terminates, in which event UMCSN shall refund to Entities any prepaid fees attributable to such component for the terminated portion of the Service Period in which such termination occurs.

7.4 Data Transition upon Termination. Upon receiving written notice from UNLV SOM or UNLV Health or Entities, which shall be delivered within ninety (90) days of an effective termination date, UMCSN will (i) provide UNLV SOM or UNLV Health or Entities, as applicable, with a tape(s) or disk(s) (or other such data access processes) containing files with a copy of all of that Party(s) User Data. Alternatively, UNLV SOM or UNLV Health (or Entities) shall be provided archived access in a text-based or other available format, such as a MySQL database export, a set of CSV files or another machine readable format agreed to by that Party(s) in writing. Any necessary informational archiving or extracting of information shall be granted for such time as is necessary (but in no event longer than 180 days) for UNLV SOM, UNLV Health or any third party vendor to complete the work requiring such access to this data. The costs arising out of this Section 7.4 shall be considered to be Additional Services and will be consistent with the UMC EHR Services Consulting rates set forth on Exhibit A.

7.5 Effect of Termination. Upon expiration or termination of this Agreement (i) all rights granted under this Agreement shall terminate, (ii) all Parties shall return all copies of the other Parties Confidential Information, and (iii) Entities shall promptly return all hardware, software and other materials provided by UMCSN under this Agreement. Termination shall not affect obligations that accrued prior to the effective date of termination. The obligations of the Parties under Sections 4, 6.4, 8, 9, 10, 11, 12 and 13 shall survive any expiration or termination of this Agreement.

8. Warranties.

8.1 By UMCSN. UMCSN represents and warrants to Entities that: (i) UMCSN has the full right, power and authority to enter into this Agreement, including all applicable licenses to license the software, services, and EMR System; (ii) it shall perform all services in a professional and workmanlike manner; (iii) the eligibility of Entities for the provision of the EMR System has not been determined in a manner that directly takes into account the volume or value of referrals or other business generated between the Parties; and (iv) neither it nor any person acting on its behalf has taken action to limit or restrict the use, compatibility, or interoperability of the EMR System.

8.2 By Entities. Entities represent and warrant to UMCSN that: (i) Entities have the full right, power and authority to enter into this Agreement; (ii) the Entities data will not infringe or violate the rights of any third party including, but not limited to, intellectual property rights; will not be abusive; will not be defamatory or obscene; and will not violate any applicable law; (iii) all Medical Providers in UNLV Health's medical practice who currently are and for new additional Providers, if appropriate, shall remain as members of UMCSN's active medical staff throughout the term of this Agreement; (iv) Entities have not made and will not make the provision of the services provided to it under this Agreement a condition of continuing to utilize the health facilities and services offered by UMCSN; (v) the EMR System will be used for no purpose prohibited by the laws or ordinances of the United States or the State of Nevada as now in force or hereinafter enacted; and (vi) the services provided to Entities under this Agreement are not technically or functionally equivalent to items and services that Entities already possesses or has obtained.

8.3 DISCLAIMER. THE WARRANTIES STATED IN THIS SECTION 8 ARE THE ONLY WARRANTIES MADE BY THE PARTIES. THE PARTIES EXPRESSLY DISCLAIM ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, ACCURACY AND FITNESS FOR A PARTICULAR PURPOSE. UMCSN DOES NOT WARRANT THAT ENTITIES USE OF THE EMR SYSTEM SHALL BE UNINTERRUPTED OR ERROR-FREE. NO REPRESENTATION OR STATEMENT SHALL BE BINDING UPON UMCSN AS A WARRANTY OR OTHERWISE UNLESS EXPRESSLY CONTAINED IN THIS AGREEMENT.

9. Disclaimer and Limitation of Liability.

IN NO EVENT SHALL ANY PARTY BE LIABLE FOR ANY LOST OR ANTICIPATED PROFITS, OR ANY INCIDENTAL, EXEMPLARY, SPECIAL, RELIANCE, CONSEQUENTIAL OR PUNITIVE DAMAGES, REGARDLESS OF WHETHER ANY PARTY WAS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. UMCSN'S ENTIRE LIABILITY TO ENTITIES FOR DAMAGES UNDER OR RELATED TO THIS AGREEMENT, WHETHER BASED IN CONTRACT, TORT OR OTHERWISE, SHALL NOT EXCEED THE AMOUNT ACTUALLY PAID TO UMCSN UNDER THIS AGREEMENT. ENTITIES ENTIRE LIABILITY TO UMCSN FOR DAMAGES UNDER OR RELATED TO THIS AGREEMENT, WHETHER BASED IN CONTRACT, TORT OR OTHERWISE, SHALL NOT EXCEED THE AMOUNT ACTUALLY DUE AND OWING TO UMCSN UNDER THIS AGREEMENT AT THE TIME OF THE OCCURRENCE GIVING RISE TO SUCH CLAIM.

10. Privileges and Immunities Not Waived.

Notwithstanding any other provision of this Agreement, it is acknowledged by and between the Parties that (1) NSHE is a constitutional entity of the State of Nevada, and (2) UMCSN is a county hospital organized pursuant to Chapter 450 of the Nevada Revised Statutes. Nothing contained in this Agreement shall be construed as a waiver or relinquishment by any Party of

any right to claim any exemption, privilege or immunity provided to that Party by law (including Nevada Revised Statutes Chapter 41), including without limitation, any right to terminate (1) this Agreement or (2) any agreement between the Parties contemplated by this Agreement in the event any funding authority fails to appropriate funds to enable the Party to fulfill its obligations under such agreements.

11. Medical Records Obligations/HIPAA Business Associate Agreement.

The Parties agree to be bound by the terms and conditions of the Business Associate Agreement attached hereto as **Exhibit B** (the “Business Associate Agreement”). It is additionally agreed and established that, UMCSN is not nor shall ever be considered the “Custodian of Records” for any Entities generated records. Any need, obligation or request to produce Entities generated medical records shall rest with Entities, whether legally requested or otherwise and Entities shall designate an employed individual to be recognized as the Custodian of Records. It is additionally agreed that all responsibilities for adherence to HIPAA or HITECH record reproduction timeframes and responsibilities related to Entities records only, shall rest and be the responsibility solely of Entities. UMCSN shall have sole responsibility for all legal and functional issues associated with UMCSN medical records.

12. Confidentiality.

12.1 Confidentiality. Except as otherwise provided in the Business Associate Agreement, each Party shall retain in confidence and shall not, without the prior written consent of the other Party(s) (the “Disclosing Party”), disclose in any manner or use, except in performance of its obligations or enjoyment of its rights under this Agreement, any information disclosed to a Party (the “Receiving Party”) by the Disclosing Party and either marked at the time of disclosure as being confidential or identified in writing by the Disclosing Party within thirty (30) days of disclosure to the Receiving Party as being confidential (“Confidential Information”). The EMR System and the Documentation shall be deemed Confidential Information of UMCSN, regardless of how marked or identified. This section shall impose no obligation upon the Receiving Party with respect to any information that: (i) is publicly available at the time received by Receiving Party; (ii) becomes publicly available other than by breach of the Receiving Party’s obligations hereunder; (iii) is known to the Receiving Party prior to receipt from the Disclosing Party; (iv) is received by Receiving Party from a third party if such third party has the right to make such disclosure; (v) is independently developed by the Receiving Party without use of Confidential Information; or (vi) is required to be disclosed by law.

Notwithstanding the preceding, the Parties acknowledge and agree that UMCSN is a public county-owned hospital and UNLV SOM is a constitutionally created entity of the State of Nevada, and both entities are subject to the provisions of the Nevada Public Records Act, Nevada Revised Statutes Chapter 239, and as such, both Parties’ respective contracts are public documents available to copying and inspection by the public. Match Day!!!

The Matching Process

Application for Training

Applicants do not apply to programs through the NRMP.

Most programs use the ERAS application or, if not, they provide their own applications.

Applicant Interviews

Programs determine the criteria for applicant eligibility and interviews.

NRMP Runs the Matching Algorithm

The algorithm matches applicants and programs to their most preferred ranked choices to make the best possible match for all participants.

NRMP REGISTRATION

Applicants Register for the Match in the R3 System

Registration dates vary by Match.

Applicants must register by the specified deadline.

RANKING

Programs and Applicants Submit Rank Order Lists Through R3

Applicants rank their true preferences in order of their most preferred program(s). Rank Order Lists must be certified by the deadline.

MATCH RESULTS

Applicants and Programs Receive Match Results

Once matched, applicants and programs have entered into a binding commitment.

Unmatched applicants and programs may participate in SOAP (Supplemental Offer and Acceptance Program).

For Fellowship participants, unmatched applicant and unfilled program lists are provided so applicants and programs can fill remaining positions.

VISITATION GUIDELINES

Visitors are an important part of the healing process, and we encourage family and friends to visit patients during their hospital stays. Some departments may have additional visitation guidelines, so please check with your nurse if you have any questions. For the well-being of our patients, visitors are asked to please observe the following guidelines:

General Visiting Hours: 24 hours a day, seven days a week

After 8 p.m., entry into the hospital is available only through the UMC Children's Hospital/Trauma entrance at 800 Hope Place.

General Guidelines

- ▶ No visitors or parents/guardians with cold or flu-like symptoms.
- ▶ All visitors must check in at the concierge desk and obtain a visitor badge. Visitors must always wear their visitor badges during their visits.
- ▶ At 8 p.m., UMC enters a "quiet zone" until 5 a.m., seven days a week, to promote a healing environment for our patients. Thank you for helping us maintain a quiet, relaxing environment during these hours.
- ▶ Most patients may have up to two visitors at a time during general visiting hours, except during the quiet hours of 8 p.m. to 5 a.m., daily. We ask all other visitors to relax in one of our comfortable waiting areas.
- ▶ Visitors under the age of 14 must be accompanied and supervised by an adult (other than a patient) and may not be left unattended in waiting rooms or other public areas.
- ▶ UMC may allow additional visitors and extended visiting hours for extenuating circumstances.
- ▶ When providing direct patient care, our clinical team members may ask visitors to step out of the room for a brief time.
- ▶ UMC may limit visitation based on the patient's clinical status.
- ▶ Visiting hours for double occupancy rooms are limited to 8 a.m. to 8 p.m., with exceptions for extenuating circumstances.
- ▶ Please remember that hospital-provided masks are optional in all areas, including patient rooms. Masks are available at the concierge desks near the main entrance and UMC Children's Hospital/Trauma Center entrance. Practice good hand hygiene, including always using hand sanitizer when entering and exiting a patient room.
- ▶ Visitors must cooperate with all directives from UMC staff when visiting.
- ▶ Visitors must always wear their visitor badges during their visits.
- ▶ To respect the dietary restrictions of all patients, visitors are not allowed to bring food or drinks into patient rooms.
- ▶ Visitors are not allowed to share or use unoccupied patient beds.
- ▶ To promote the highest level of safety and reduce the risk of falls, your care team may utilize cameras to monitor your health and well-being in between room visits. Please be aware you could be viewed/recorded indirectly to support your care. Do not interfere or tamper with these cameras.

Unit-Specific Guidelines

Adult & Trauma Emergency Departments

- ▶ One visitor may accompany the patient.
- ▶ Exceptions for extenuating circumstances will be addressed on a case-by-case basis.

Labor & Delivery

- ▶ One visitor (in addition to the significant other) at a time is allowed during active labor (two visitors total).
- ▶ After the baby is delivered, the significant other and two visitors are allowed in most cases during patient-approved hours.
- ▶ Significant others must wear the provided blue wrist bands at all times.
- ▶ During flu season, visitors must be at least 10 years old to visit patients in this area of the hospital.

Neonatal Intensive Care Unit

- ▶ One parent or legal guardian may visit at a time.

Adult Intensive Care Units

- ▶ One visitor will be allowed at a time.

General Pediatrics and Pediatric Intensive Care Unit

- ▶ Two visitors are allowed at a time during general visiting hours, and one parent or legal guardian may stay overnight.
- ▶ During flu season, visitors must be at least 10 years old to visit patients in this area of the hospital.
