FY2025 Preliminary Operating Budget

#### DISCUSSION:

Ms. Wakem provided an overall summary of the budget and the process of building the budget. This is the first review.

The projected key indicators for the FY24 budget were reviewed. Volumes were lower than anticipated. Admissions were down 6.7%. AADC was lower than expected. Length of stay was down 12.9%. Hospital acuity was consistent to budget. Inpatient surgical volume was down 14%. Outpatient surgery was up 7%. ER visits down 10%. Quick cares were up, but primary care visits were down 37%.

The committee focused on the budget vs. projection of the adjusted patient days and primary care statistics. Mr. Marinello responded that construction challenges have affected volumes and reduced physician staff at the primary care locations have had an impact. Plans are in place to increase recruitment for the primary care locations.

Ms. Wakem next reviewed the projected income statement for FY24. Adjusted net patient revenue was down due to volume decreases. Receipt of supplemental payments have shown improvement and are above expectation. Overall total operating revenue was below budget \$8.3 million. SWB and operating expenses were below budget \$4.5 million. Income from ops before depreciation and amortization is expected \$69 million on a budget of \$66 million; expecting to make budget for the year.

Capital allocation for FY 24 was reduced to \$5 million from \$31 million, due to the increase in the directed payment program.

The key assumptions slide showed the process that was followed for the FY25 budget, consistent with prior years.

The FY25 high impact strategies discussed included Length of Stay Management, Expense Management/Efficiencies, Revenue Enhancement and Strategic Service Line Initiatives. Strategies of implementing AI technology and employing hospitalists and emergency medicine providers will improve length of stay and admission criteria. Improvement in efficiencies in the OR is key. Improvements in revenue enhancement and marketing campaign initiatives for strategic service lines were discussed and are built into the budget.

The Committee commented it would be helpful to call out key financial assumptions when discussing future financial performance compared to budget.

Mr. Marinello next reviewed the strategic service lines for FY25: Ambulatory, Cardiac Services, Orthopedics, Other Surgeries and Physician Employment. Action items details related to each of these items were discussed. A Practice Plan Administrator has been added to assist with the physician employment plans.

The budget initiatives for FY25 next reviewed. Ambulatory increases 7,770 visits. Income from ops shows a loss, as it doesn't include the halo. In Cardiology, admissions and surgical cases were built in; income from ops is roughly \$1.1 million.

Orthopedics, with the increased visits and patient days adds \$320K to the bottom line. All other surgeries adds another \$240K and employed providers adds \$2.6 million. The total impact would be approximately \$4 million impact income from ops.

The FY25 budget key statistics were reviewed, comparing the FY25 budget to the FY24 projection. Volume is flat and increases will come from the strategic initiatives. A discussion ensued regarding the progress in length of stay and improving throughput. Ms. Wakem responded that the reduction projected for LOS is approximately 2.6% and admissions is increasing 4.23%. There needs to be efficiencies in patient discharges.

On the budget income statement summary, adjusted net patient revenue is going up \$61 million or almost 11%. Supplemental payments are going down almost 4%. There will be normalizing for items not repeating in FY25. Adjusted net patient revenue is up over projection by 5%. Other revenue is down. Net to gross is 18.38% and operating expenses is going up \$63.5 million. Income from ops before depreciation and amortization is \$52.7 million on a projection of \$69.2 million, which is \$16.6 below the FY24 projection.

Salaries, wages and benefits is going up \$53.3 million due to the addition of hospitalist and ED providers. COLA and merit increases were also added. An increase is budgeted in Resident salaries, which will show in purchased services. There was continued discussion regarding the resident salaries. The increase in FTEs is primarily physicians for radiology, hospitalists and ED

services. There was discussion regarding the proposed goals for FY25 related to SWB.

Lastly, the expenses budgeted for FY25 were discussed. Purchased services includes the Resident salaries in the total. Pro-fees for strategic initiatives for hospitalists and ED are going down \$6.5 million and \$830k in radiology services. Management fees of \$2.3 million and UNLV Professional service fees of \$2.5 million were added into the budget.

Supplies is going up \$5 million for strategic service lines and \$3 million for inflation.

Utilities will increase \$600K for hazardous waste pickup and disposal and \$245K for rate increases and new properties.

There was discussion regarding any anticipated changes that will be brought before the Committee for the final review. The team will review the FTEs and additions that may come for radiology.

The team will bring any adjustments or changes back to the next meeting, prior to presenting to the Governing Board.

This solution monitors the health of obstetric patients and their babies<br>closely. The fetal monitor tracks the baby's heart rate, variability, and changes, as<br>well as the mother's vital signs and status. OBIX connects these monitors with EPIC,<br>which displays all the information on electronic monitors in real-time. This system<br>allows nurses and physicians to make informed decisions and prioritize patient<br>safety. OBIX is an industry standard and its upgraded version will offer enhanced<br>patient safety features and better functionality. |

The additional construction work is required as the State of Nevada adopted the 2022 FGI Health Care Construction Building requirements in May 2023. The new code cycle contained more stringent/additional requirements related to Cath Lab recovery room space, which required the facility to incorporate the revised requirements into the project to insure state compliance and licensing.   |

### **BACKGROUND:**

On January 1, 2020, UMC entered into an Agreement with Clinical Computer Systems, Inc. for OBIX Support Services for maternal and fetal monitoring. These services include 24/7 technical phone support, on-site labor as required, live webinars, consultative services, and upgrades to improve system features and functions. UMC agreed to compensate CCSI \$388,981 for sixty (60) months from January 1, 2020, through December 31, 2024.

This Amendment One and Quote requests to extend the term through December 31, 2026, increase the funding by an additional \$419,600, and add OBIX Perinatal Solutions. This solution monitors the health of obstetric patients and their babies closely. The fetal monitor tracks the baby's heart rate, variability, and changes, as well as the mother's vital signs and status. OBIX connects these monitors with EPIC, which displays all the information on electronic monitors in real-time. This system allows nurses and physicians to make informed decisions and prioritize patient safety. OBIX is an industry standard and its upgraded version will offer enhanced patient safety features and better functionality. Staff also requests authorization for the Hospital CEO to execute extension options and amendments that are within his yearly delegation of authority if deemed beneficial to UMC.

Cleared for Agenda April 17, 2024

### **BACKGROUND:**

In August, 2008 UMC entered Master Lease Agreement No. 21237667 with Stryker Finance, a division of Stryker Sales Corporation ("Stryker"), for laparoscope equipment and endoscopic services. In subsequent years, equipment schedules have been added to the Agreement for various hospital departments.

This request is to approve the Equipment Schedule No. 016 to Master Agreement 21237667 ("Agreement") with Stryker to lease Ortho Power Equipment. Leasing equipment provides the most up-to-date equipment and increases power inventory, which supports Ortho service line growth, including neuro and spine service. The creation of new power trays will allow one power tray to be opened regardless of complexity of Ortho case. UMC will compensate Stryker for a total cost of \$2,015,774.17, which includes maintenance and support services for four (4) years from the Effective date.

This Schedule is being entered into pursuant to UMC's agreement with HealthTrust Purchasing Group ("HPG"). HPG is a Group Purchasing Organization of which UMC is a member. This request is in compliance with NRS 450.525 and NRS 450.530; attached is a sworn statement from an HPG executive verifying that the pricing was obtained through a competitive bid process.

Cole Price Management Analyst - Contracts University Medical Center of Southern Nevada 1800 W. Charleston Blvd. Las Vegas, NV 89102

#### Re: Request for competitive bidding information regarding Surgical Drills.

Dear Mr. Price:

This letter is provided in response to the University Medical Center of Southern Nevada's ("UMC") request for information about HealthTrust Purchasing Group, L.P.'s ("HealthTrust") competitive bidding process for Surgical Drills. We are pleased to provide this information to UMC in your capacity as a Participant of HealthTrust, as defined in and subject to the Participation Agreement between HealthTrust and UMC, effective August 3, 2016.

HealthTrust's bid and award process is described in its Contracting Process Policy [HT.008] available on its public website {http://healthtrustpg.com/about-healthtrust/healthcare-code-of-ethics/). As described in the policy, HealthTrust operates a member-driven contracting process. Advisory Boards are engaged to determine the clinical, technical, operational, conversion, business and other criteria important for each specific bid category. The boards are comprised of representatives from HealthTrust's membership who have appropriate experience, credentials/licensures, and decision-making authority within their respective health systems for the board on which they serve.

HealthTrust's requirements for specific products and services are published on its Contract Schedule on its public website. HealthTrust's requirements for vendors are outlined in its Supplier Criteria Policy [HT.010]. A listing of the minimum Supplier Criteria is also published on HealthTrust's public website, as well as an online form for prospective vendor submission.

The Contracting Process Policy includes criteria for the selection of contract products and services and documents and the procedures followed by HealthTrust's contracting team to select vendors for consideration. HealthTrust's Advisory Boards may provide additional requirements or other criteria that would be incorporated into the RFP (request for proposals) process, where appropriate. Vendor proposals submitted in response to RFPs are analyzed using an extensive clinical/technical review as described above, as well as a financial/operational review.

The above-described process was followed with respect to the Surgical Drills. HealthTrust issued RFPs and received proposals from identified suppliers in the category. An agreements was awarded to Stryker in February of 2021. I hope this satisfies your request. Please contact me with any additional questions.

Sincerely,

Craig Dabbs Account Director, Member Services

- b. If multiple Purchaser facilities are entering onto this Agreement, Vendor agrees to work in good faith with Purchaser to determine appropriate invoicing parties and Annual Fee ratios by facility. For clarity, Vendor is able to bill each Purchaser facility separately, with the total collective invoiced amount adding up to the Annual Fee as described throughout this agreement.
- c. Invoice payment terms will be the date of receipt of correct and proper invoices. Payment is Net 30. Purchaser shall remit each Monthly Installment after invoice to Vendor on the 1st day of each month via ACH or wire transfer, with the initial Monthly Installment due and payable upon execution of this Agreement.
- d. Purchaser's initial Level Designation will be fixed for ninety (90) days from the Effective Date based on Purchaser's prior usage history as mutually agreed between Purchaser and Vendor. After the initial Level Designation, subsequent Level Designations may be adjusted on an annual basis for each subsequent annual period (or remainder) of the Term as mutually agreed between Purchaser and Vendor. Such subsequent Level Designations may also be adjusted sooner based on a material change in actual usage of inhaled nitric oxide, which will not include changes due to seasonality. If neither Vendor nor Purchaser requests any adjustment after the initial Level Designation or any subsequent Level Designation, then such Level Designation then in effect will remain the same.
- e. The Parties understand that actual utilization may vary from historical utilization. Notwithstanding the foregoing subsection (d), annual hourly utilization variance of less than 20% (e.g., increase or decrease) from Purchaser's Level Designation's annualized hours will not change Purchaser's then-current Level Designation.
- f. Level Designation Adjustments Based on Usage. The Parties may change the Level Designation based on Purchaser's actual usage by Vendor or Purchaser delivering via electronic mail the requested change in Level Designation from one Party to the other Party and a return delivery via electronic mail of such other Party's consent, to become effective at a future date as agreed upon in such electronic mail by Purchaser and Vendor.

If Purchaser requests Equipment or Consumables on an emergency basis sooner than ten (10) business days, Vendor may charge Purchaser for additional shipping costs listed in Price Schedule 1.
- c. During the Term, title to the Equipment and unused Consumables shall remain with Vendor and nothing herein shall create a security interest or give Purchaser an equity or other property interest in the Equipment. Purchaser shall not permit liens or other encumbrances of any kind on any portion of the Equipment or unused Consumables. After initial delivery, Purchaser shall be liable for any Equipment or components thereof that is lost, stolen, abused or damaged during the Term of this Agreement, excluding normal wear and tear or Vendor negligence.

Vendor will be responsible for all maintenance of the Equipment during the Term of the Agreement. Vendor will provide technical support to Purchaser for the Equipment during the Term of this Agreement. The Vendor Purchaser support line may be reached by calling 1-877-337-4118.
- e. The Parties agree that the quantity of Equipment and Consumables provided to Purchaser shall be based on Purchaser's requests and historic annual hourly use, and current annual hours of use as provided to Vendor. At no additional charge, Vendor agrees to maintain an appropriate amount of backup systems at each Purchaser facility.
- f. Upon advanced written notice, Purchaser agrees to allow access to its premises to representatives of Vendor so that Vendor may (i) perform investigations related to any Service issues, (ii) perform maintenance or calibrations, or (iii) perform other required Services in connection with its Service or Product warranties. - b. Vendor and Purchaser agree to cooperate to follow and complete the steps outlined in the Implementation Plan and, if necessary, to schedule additional training. Purchaser and Vendor agree to cooperate in creating and completing an implementation program to meet Purchaser's needs for appropriate use of the Equipment and Consumables to enable training by educational modules relating to clinical standards and practices, the GENOSYL® DS system, continuing education initiatives, and ongoing Services requirements. Purchaser agrees to allow access to its premises to representatives of Vendor for such purposes subject to section 4(f).
- c. Throughout the Term, Vendor and Purchaser agree to maintain cooperative, bilateral communications regarding the Equipment, Consumables, and general product performance. - d. Provided that this will not impact patient care and upon reasonable notice by Vendor, Purchaser agrees to allow access to its premises subject to section 4(f) to representatives of Vendor so that Vendor may assess (i) the number of hours of nitric oxide gas used from each Equipment, and (ii) the quantities of Equipment or Consumables inventory. Such review shall not include any patient-specific information or Confidential Information and shall be in compliance with Purchaser's policies and procedures.

#### 6. TERMINATION: BREACH.

- a. Termination without Cause. After the initial six (6) months of this Agreement, either party may terminate this Agreement, without Cause, upon one hundred eighty (180) days written notice to the other party. Upon termination,, Vendor shall pick up the Equipment and remaining inventory of Consumables within ten (10) days of termination.
- b.

\* All Cassettes, disposables and shipping costs included

\*All Genosyl DS are MRI conditional

\* Transport mounts provided at no additional charge- All GENOSYL DS are transport approved by FDA- Ground, Rotary and Fixed-Wing

IDN is defined as Company on HealthTrust Roster Total annual hourly use across entire IDN determines tier

Total Cumulative Nitric Oxide Utilization across all Vendors and Facilities Tier 1: 100k hours and above Tier 2: 40k hours to 90k hours Tier 3: 1k hours to 30k hours

Individual IDNs may pool their facilities hours together under Group Agreements Minimum level identified up to 1000 hours Annual Subscription paid monthly per hospitals portion of IDN total

Single Facilities with low utilization may elect to a 'per delivery system' class in which they receive a monthly fee of standard per delivery system and are then charged per hour based upon their IDN Tier. Tier 3's hourly rate would be standard Tier 2's rate is standard tier 1's rate is standard tier 1

#### Genosyl DS - Transparent economic

Tankless system unable to leak NO, therefore a hospital will never accrue inadvertent usage charges. \* Reduced labor and storage costs, improved safety by reducing work place injuries related to tanks, \*Only INO delivery device **approved for use in low-flow anesthesia in the OR-** Low-flow anesthesia maintains body temp and reduces water loss which may prevent postoperative complications, supports clinical best practice with low-flow anesthesia, streamlines workflow, no need to have RT present in OR to initiate INO, decreases the amount of anesthetic agents used, thereby reducing cost, reduces greenhouse gas emissions **Tank-Based System - Complicated economic impact** 

Incompletely closed cylinders which may continue to leak NO, may result in increased hospital costs Data from a longitudinal registry of INO use at a 300+ bed children's hospital suggest that hospitals incur substantial expense maintaining and managing a tank-based NODS, especially for the "line items" of procurement, storage, data management, and labor costs for training and for response to frequent alarms (such as NO<sub>2</sub> and wet sample line alerts)

From these data it is estimated that the incremental cost of a tank-based system in a hospital where 250 patients receive 30,000 hours of iNO treatment/year is approximately **\$ 100 minutes**

Fred Parandi Management Analyst - Contracts University Medical Center of Southern Nevada 1800 W. Charleston Blvd. Las Vegas, NV 89102

Re: Request for competitive bidding information regarding Nitric Oxide Therapy, Inhaled.

Dear Mr. Parandi:

This letter is provided in response to the University Medical Center of Southern Nevada's ("UMC") request for information about HealthTrust Purchasing Group, L.P.'s ("HealthTrust") competitive bidding process for Nitric Oxide Therapy, Inhaled. We are pleased to provide this information to UMC in your capacity as a Participant of HealthTrust, as defined in and subject to the Participation Agreement between HealthTrust and UMC, effective August 3, 2016.

HealthTrust's bid and award process is described in its Contracting Process Policy [HT.008] available on its public website {http://healthtrustpg.com/about-healthtrust/healthcare-code-of-ethics/). As described in the policy, HealthTrust operates a member-driven contracting process. Advisory Boards are engaged to determine the clinical, technical, operational, conversion, business and other criteria important for each specific bid category. The boards are comprised of representatives from HealthTrust's membership who have appropriate experience, credentials/licensures, and decision-making authority within their respective health systems for the board on which they serve.

HealthTrust's requirements for specific products and services are published on its Contract Schedule on its public website. HealthTrust's requirements for vendors are outlined in its Supplier Criteria Policy [HT.010]. A listing of the minimum Supplier Criteria is also published on HealthTrust's public website, as well as an online form for prospective vendor submission.

The Contracting Process Policy includes criteria for the selection of contract products and services and documents and the procedures followed by HealthTrust's contracting team to select vendors for consideration. HealthTrust's Advisory Boards may provide additional requirements or other criteria that would be incorporated into the RFP (request for proposals) process, where appropriate. Vendor proposals submitted in response to RFPs are analyzed using an extensive clinical/technical review as described above, as well as a financial/operational review.

The above-described process was followed with respect to the Nitric Oxide Therapy, Inhaled. HealthTrust issued RFPs and received proposals from identified suppliers in the category. Agreements were awarded to Ino Therapeutics and Vero Biotech in August of 2023. I hope this satisfies your request. Please contact me with any additional questions.

Sincerely,

Craig Dabbs Account Director, Member Services

### ATTACHMENT 1 NOTICE OF FALSE CLAIMS AND STATEMENTS

UMC's Compliance Program demonstrates its commitment to ethical and legal business practices and ensures service of the highest level of integrity and concern. UMC's Compliance Department provides UMC compliance oversight, education, reporting, investigations and resolution. It conducts routine, independent audits of UMC's business practices and undertakes regular compliance efforts relating to local, state and federal regulatory standards. It is our expectation that as a physician, business associate, contractor, vendor, or agent, your business practices are committed to the same ethical and legal standards.

The purpose of this Notice is to educate you regarding the federal and state false claims statutes and the role of such laws in preventing and detecting fraud, waste, and abuse in federally funded health care programs. As a Medical Staff Member, Vendor, Contractor and/or Agent, you and your employees must abide by UMC's policies insofar as they are relevant and applicable to your interaction with UMC. Additionally, providers found in violation of any regulations regarding false claims or fraudulent acts are subject to exclusion, suspension, or termination of their provider status for participation in federally funded healthcare programs.

#### Federal False Claims Act

The Federal False Claims Act (the "Act") applies to persons or entities that knowingly submit, cause to be submitted, conspire to submit a false or fraudulent claim, or use a false record or statement in support of a claim for payment to a federally-funded program. The Act applies to all claims submitted by a healthcare provider to a federally funded healthcare program, such as Medicare and Medicaid.

Liability under the Act attaches to any person or organization who, among other actions, "knowingly":

- Presents a false/fraudulent claim for payment/approval;
- Makes or uses a false record or statement to get a false/fraudulent claim paid or approved by the government;
- Conspires to defraud the government by getting a false/fraudulent claim paid/allowed;
- Provides less property or equipment than claimed; or
- Makes or uses a false record to conceal/decrease an obligation to pay/provide money/property.

"Knowingly" means a person has: 1) actual knowledge the information is false; 2) acts in deliberate ignorance of the truth or falsity of the information; or 3) acts in reckless disregard of the truth or falsity of the information. No proof of intent to defraud is required.

A "claim" includes any request/demand (whether or not under a contract), for money/property if the US Government provides/reimburses any portion of the money/property being requested or demanded.

For knowing violations, a civil monetary penalty can be imposed pursuant to the federal False Claims Act, 31 U.S.C. § 3729(a), adjusted as set forth in 28 CFR 85 in accordance with the requirements of the Bipartisan Budget Act of 2015, plus three times (3x) the value of the claim and the costs of any civil action brought. If a provider unknowingly accepts payment in excess of the amount entitled to, the provider may also be required to repay the excess amount.

Criminal penalties are imprisonment for a maximum five (5) years; a maximum fine of \$25,000; or both.

#### Nevada State False Claims Act

Nevada has a state version of the False Claims Act that mirrors many of the federal provisions. A person is liable under state law, if they, with or without specific intent to defraud, "knowingly:"

- presents or causes to be presented a false claim for payment or approval;
- makes or uses, or causes to be made or used, a false record/statement to obtain payment/approval of a false claim;
- conspires to defraud by obtaining allowance or payment of a false claim;
- has possession, custody or control of public property or money and knowingly delivers or causes to be delivered to the State or a political subdivision less money or property than the amount for which he receives a receipt;
- is authorized to prepare or deliver a receipt for money/property to be used by the State/political subdivision and knowingly prepares or delivers a receipt that falsely represents the money/property;
- buys or receives as security for an obligation, public property from a person who is not authorized to sell or pledge the property; or

• makes, uses, or causes to be made or used, a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the state/political subdivision.

Under state law, a person may also be liable if they are a beneficiary of an inadvertent submission of a false claim to the state, subsequently discovers that the claim is false, and fails to disclose the false claim to the state within a reasonable time after discovery of the false claim.

Civil penalties imposed pursuant to the State False Claims Act for each act correspond to any adjustments in the monetary amount of a civil penalty for a violation of the federal False Claims Act, 31 U.S.C. § 3729(a), plus three times (3x) the amount of damages sustained by the State/political subdivision and the costs of a civil action brought to recover those damages.

Criminal penalties where the value of the false claim(s) is less than \$250, are six (6) months to one (1) year imprisonment in the county jail; a maximum fine of \$1,000 to \$2,000; or both. If the value of the false claim(s) is greater than \$250, the penalty is imprisonment in the state prison from one (1) to four (4) years and a maximum fine of \$5,000.

#### Non-Retaliation/Whistleblower Protections

Both the federal and state false claims statutes protect employees from retaliation or discrimination in the terms and conditions of their employment based on lawful acts done in furtherance of an action under the Act. UMC policy strictly prohibits retaliation, in any form, against any person making a report, complaint, inquiry, or participating in an investigation in good faith.

An employer is prohibited from discharging, demoting, suspending, harassing, threatening, or otherwise discriminating against an employee for reporting on a false claim or statement or for providing testimony or evidence in a civil action pertaining to a false claim or statement. Any employer found in violation of these protections will be liable to the employee for all relief necessary to correct the wrong, including, if needed:

- reinstatement with the same seniority; or
- damages in lieu of reinstatement, if appropriate; and
- two times the lost compensation, plus interest; and
- any special damage sustained; and
- punitive damages, if appropriate.

#### Reporting Concerns Regarding Fraud, Waste, Abuse and False Claims

Anyone who suspects a violation of federal or state false claims provisions is required to notify the Compliance Officer. This can be done anonymously via the EthicsPoint Hotline at (888) 691-0772, via the UMC EthicsPoint Website at <a href="http://www.goldenegg.ethicspoint.com">http://www.goldenegg.ethicspoint.com</a>, or by contacting the UMC Compliance Officer at <a href="http://www.goldenegg.ethicspoint.com">Rani.Gill@umcsn.com</a> or (702) 383-6211.

In the Notice for Calculation of FMV, the party will set forth the material change it believes necessitates an increase or reduction in the compensation paid hereunder and the parties may jointly engage the services of a mutually agreeable third-party valuation expert to reassess the commercial reasonableness and fair market value compensation paid under the terms of this Agreement. The Notice will be sent in accordance with Section 7.18 and the parties agree to meet within thirty (30) days of the receipt of the Notice with the intent that any required amendment be completed within one hundred and eighty (180) days, unless the parties mutually agree to extend such timeframes while good faith negotiations continue.

#### Notice of False Claims and Statements

UMC's Compliance Program demonstrates its commitment to ethical and legal business practices and ensures service of the highest level of integrity and concern. UMC's Compliance Department provides UMC compliance oversight, education, reporting and resolution. It conducts routine, independent audits of UMC's business practices and undertakes regular compliance efforts relating to, among other things, proper billing and coding, detection and correction of coding and billing errors, and investigation of and remedial action relating to potential noncompliance. It is our expectation that as a physician, business associate, contractor, vendor, or agent, your business practices are committed to the same ethical and legal standards.

The purpose of this Notice is to educate you regarding the federal and state false claims statutes and the role of such laws in preventing and detecting fraud, waste, and abuse in federally funded health care programs. As a Medical Staff Member, Vendor, Contractor and/or Agent, you and your employees must abide by UMC's policies insofar as they are relevant and applicable to your interaction with UMC. Additionally, providers found in violation of any regulations regarding false claims or fraudulent acts are subject to exclusion, suspension, or termination of their provider status for participation in Medicaid.

#### Federal False Claims Act

The Federal False Claims Act (the "Act") applies to persons or entities that knowingly submit, cause to be submitted, and conspire to submit a false or fraudulent claim, or use a false record or statement in support of a claim for payment to a federally-funded program. The Act applies to all claims submitted by a healthcare provider to a federally funded healthcare program, such as Medicare.

Liability under the Act attaches to any person or organization who, among other actions, "knowingly":

- Presents a false/fraudulent claim for payment/approval;
- Makes or uses a false record or statement to get a false/fraudulent claim paid or approved by the government;
- Conspires to defraud the government by getting a false/fraudulent claim paid/allowed;
- Provides less property or equipment than claimed; or
- Makes or uses a false record to conceal/decrease an obligation to pay/provide money/property.

"Knowingly" means a person has: 1) actual knowledge the information is false; 2) acts in deliberate ignorance of the truth or falsity of the information; or 3) acts in reckless disregard of the truth or falsity of the information. No proof of intent to defraud is required.

A "claim" includes any request/demand (whether or not under a contract), for money/property if the US Government provides/reimburses any portion of the money/property being requested or demanded.

For knowing violations, civil penalties range from \$5,500 to \$11,000 in fines, per claim, plus three times the value of the claim and the costs of any civil action brought. If a provider unknowingly accepts payment in excess of the amount entitled to, the provider must repay the excess amount.

Criminal penalties are imprisonment for a maximum 5 years; a maximum fine of \$25,000; or both.

#### Nevada State False Claims Act

Nevada has a state version of the False Claims Act that mirrors many of the federal provisions. A person is liable under state law, if they, with or without specific intent to defraud, "knowingly:"

- presents or causes to be presented a false claim for payment or approval;
- makes or uses, or causes to be made or used, a false record/statement to obtain payment/approval of a false claim;
- conspires to defraud by obtaining allowance or payment of a false claim;

- has possession, custody or control of public property or money and knowingly delivers or causes to be delivered to the State or a political subdivision less money or property than the amount for which he receives a receipt;
- is authorized to prepare or deliver a receipt for money/property to be used by the State/political subdivision and knowingly prepares or delivers a receipt that falsely represents the money/property;
- buys or receives as security for an obligation, public property from a person who is not authorized to sell or pledge the property; or
- makes, uses, or causes to be made or used, a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the state/political subdivision.

Under state law, a person may also be liable if they are a beneficiary of an inadvertent submission of a false claim to the state, subsequently discovers that the claim is false, and fails to disclose the false claim to the state within a reasonable time after discovery of the false claim.

Civil penalties range from \$5,000 to \$10,000 for each act, plus three times the amount of damages sustained by the State/political subdivision and the costs of a civil action brought to recover those damages.

Criminal penalties where the value of the false claim(s) is less than \$250, are 6 months to 1 year imprisonment in the county jail; a maximum fine of \$1,000 to \$2,000; or both. If the value of the false claim(s) is greater than \$250, the penalty is imprisonment in the state prison from 1 to 4 years and a maximum fine of \$5,000.

#### Non-Retaliation/Whistleblower Protections

Both the federal and state false claims statutes protect employees from retaliation or discrimination in the terms and conditions of their employment based on lawful acts done in furtherance of an action under the Act. UMC policy strictly prohibits retaliation, in any form, against any person making a report, complaint, inquiry, or participating in an investigation in good faith.

An employer is prohibited from discharging, demoting, suspending, harassing, threatening, or otherwise discriminating against an employee for reporting on a false claim or statement or for providing testimony or evidence in a civil action pertaining to a false claim or statement. Any employer found in violation of these protections will be liable to the employee for all relief necessary to correct the wrong, including, if needed:

- reinstatement with the same seniority; or
- damages in lieu of reinstatement, if appropriate; and
- two times the lost compensation, plus interest; and
- any special damage sustained; and
- punitive damages, if appropriate.

#### Reporting Concerns Regarding Fraud, Abuse and False Claims

Anyone who suspects a violation of federal or state false claims provisions is required to notify UMC via a hospital Administrator, department Director, department Manager, or Rani Gill, the Corporate Compliance Officer, directly at (702) 383-6211. Suspected violations may also be reported anonymously via the Hotline at (888) 691-0772 or <a href="http://umcsn.silentwhistle.com">http://umcsn.silentwhistle.com</a>. The Hotline is available 24 hours a day, seven days a week. Compliance concerns may also be submitted via email to the Compliance Officer at <a href="mailto:Rani.Gill@umcsn.com">Rani.Gill@umcsn.com</a>.

Upon notification, the Compliance Officer will initiate a false claims investigation. A false claims investigation is an inquiry conducted for the purpose of determining whether a person is, or has been, engaged in any violation of a false claim law.

Retaliation for reporting, in good faith, actual or potential violations or problems, or for cooperating in an investigation is expressly prohibited by UMC policy.

#### **BACKGROUND:**

This request is for approval of the Change Order with Philips Healthcare, a division of Philips North America LLC ("Phillips") for the expansion of the Turnkey Philips Azurion 7 C20 equipment in UMC's future lab EP3. The expansion is required as the State of Nevada adopted the 2022 FGI Health Care Construction Building requirements in May 2023. The new code cycle contained more stringent/additional requirements related to Cath Lab recovery room space, which required the facility to incorporate the revised requirements into the project to insure state compliance and licensing. This project will increase UMC's Catheterization Laboratory volume and service lines, which is expected to increase hospital revenue.

Under the Change Order expansion, Philips will facilitate construction for the build out. Under the Turnkey Agreement, Philips is required to follow the prevailing wage and bonding requirements found in Nevada Revised Statutes Chapter 338.
